Railways The Nation:

The Railways Simon Bradley (Architectural historian), 2015 The railways Thousands of route miles fenced off from the rest of the country carved into landscapes barely changed since Shakespeare's time and ruled by their own mysterious rhythms and laws From the classical architecture of Newcastle Station to the unrelenting traffic and expanse of Clapham Junction and the lost stations of Oban and Challow Simon Bradley explores the landscape of the railways the trains and the passengers who pass through it Private compartments and railway rugs have given way to standard carriages with lavatories and luggage racks but other parts of the system are old some the oldest in the world Bradley weaves from these networks a remarkable story of technological change of architecture and engineering of shifting social classes gender relations and public health of tourism and the changing world of work showing us that to travel through Britain by train is to travel through time as well as space Publisher description

Railway Nation David Laurence Jones, 2020-11-03 A riveting visually engaging collection of vignettes highlighting the rich heritage of the Canadian Pacific Railway Since its founding in 1881 Canadian Pacific has made an indelible mark on the lives of Canadians Most commonly associated with its iconic railway at its height CP also ran hotels steamships and an airline and had myriad involvements in immigration irrigation resource development war contributions and international trade It has been said that no other single corporation has shaped Canadian national identity as much as CP Railway *Nation Tales of the World's Greatest Travel System* is a compilation of more than fifty thrilling and historically significant stories based on colourful anecdotes and archival sources dating back to the company's golden era From the construction of the ground breaking Spiral Tunnels on what was previously the most dangerous and accident prone stretch of railway track in the Rockies to the CPR manufactured Valentine tanks that helped the Soviet Union fight off the Nazis in World War II to the long and frustrating struggle of CP stewardesses fighting against sexist employment policies this lively and nuanced portrait of an iconic company is illustrated with fascinating archival photography and will be an essential addition to any Canadian history buff's library

Lines of the Nation Laura Bear, 2007-06-26 *Lines of the Nation* radically recasts the history of the Indian railways which have long been regarded as vectors of modernity and economic prosperity From the design of carriages to the architecture of stations employment hierarchies and the construction of employee housing Laura Bear explores the new public spaces and social relationships created by the railway bureaucracy She then traces their influence on the formation of contemporary Indian nationalism personal sentiments and popular memory Her probing study challenges entrenched beliefs concerning the institutions of modernity and capitalism by showing that these rework older idioms of social distinction and are legitimized by forms of intimate affective politics Drawing on historical and ethnographic research in the company town at Kharagpur and at the Eastern Railway headquarters in Kolkata Calcutta Bear focuses on how political and domestic practices among workers became entangled with the moralities and archival technologies of the railway bureaucracy and illuminates the impact of this

history today The bureaucracy has played a pivotal role in the creation of idioms of family history kinship and ethics and its special categorization of Anglo Indian workers still resonates Anglo Indians were formed as a separate railway caste by Raj era racial employment and housing policies and other railway workers continue to see them as remnants of the colonial past and as a polluting influence The experiences of Anglo Indians who are at the core of the ethnography reveal the consequences of attempts to make political communities legitimate in family lines and sentiments Their situation also compels us to rethink the importance of documentary practices and nationalism to all family histories and senses of relatedness This interdisciplinary anthropological history throws new light not only on the imperial and national past of South Asia but also on the moral life of present technologies and economic institutions
