**The Invention of God in Indigenous Societies** James Cox, 2014-09-19 Indigenous societies around the world have been historically disparaged by European explorers colonial officials and Christian missionaries Nowhere was this more evident than in early descriptions of indigenous religions as savage primitive superstitious and fetishistic Liberal intellectuals both indigenous and colonial reacted to this by claiming that before indigenous peoples ever encountered Europeans they all believed in a Supreme Being The Invention of God in Indigenous Societies argues that by alleging that God can be located at the core of pre Christian cultures this claim effectively invents a tradition which only makes sense theologically if God has never left himself without a witness Examining a range of indigenous religions from North America Africa and Australasia the Shona of Zimbabwe the Rainbow Spirit Theology in Australia the Yupiit of Alaska and the M ori of New Zealand the book argues that the interests of indigenous societies are best served by carefully describing their religious beliefs and practices using historical and phenomenological methods just as would be done in the study of any world religion

**Environmental Humanities and Theologies** Rod Giblett, 2018-06-13 Many ways of thinking about and living with the environment have their roots in the Bible and the Christian cultural tradition Environmental Humanities and Theologies shows that some of these ways are problematic It also provides alternative ways that value both materiality and spirituality Beginning with an environmentally friendly reading of the biblical story of creation Environmental Humanities and Theologies goes on to discuss in succeeding chapters the environmental theology of wetlands dragons and watery monsters including crocodiles and alligators in the Bible and

Spirit is Seven Spirits or a Sevenfold Spirit Simon Lee has spent the last twenty years pondering these issues and the following resulting questions which this book tries to answer in full 1 Love then is a Spirit and according to Shakespeare a many splendoured thing Can we attempt to summarise Love so rich in artistic descriptions by thousands of poets singers writers and playwrights and other Spirits in simple terms 2 What are the other Six Spirits Can we decide what they are 3 The Bible often describes The Spirit as resembling a Tree or Fountain How do the Seven Spirits co exist in this apparently perfectly scientific description of their structure Can we describe this structure especially visualise it 4 Modern Science especially physics claims to be close to a scientific Theory of Everything There are certain holes in this theory Science ignores the spiritual and artistic in life Do the latter in fact need to be called upon to fill the scientific holes scientific camps the NUMBERS of things involved must precisely match i e the quantities of spiritual essences used to fill holes in science must be precisely correct Are they 6 Do other Holy Books in other Faiths back up these notions about a Set of Holy Spirits going together to make up the Spirit of God 7 Clearly the Spirit of God has enemies trying to supplant or replace spiritual with secular things Is the rising main enemy of the Holy Spirit today Information Technology Twenty years of thinking and research goes into Simon Lee s claim that this book provides a resounding convincingly argued answer of YES to all seven of these questions It is therefore an analysis of Spirit i e of God as a Spirit Being **Everywhen** Ann McGrath, Jakelin

Troy, Laura Rademaker, 2023 Everywhen is a groundbreaking collection about diverse ways of conceiving knowing and narrating time and deep history Looking beyond the linear documentary past of Western or academic history this collection asks how knowledge systems of Australia s Aboriginals and Torres Strait Islanders can broaden our understandings of the past and of historical practice Indigenous embodied practices for knowing narrating and reenacting the past in the present blur the distinctions of linear time making all history now Ultimately questions of time and language are questions of Indigenous sovereignty The Australian case is especially pertinent because Australian Aboriginal and Torres Strait Islander people are among the few Native peoples without a treaty with their colonizers Appreciating First Nations time concepts embedded in languages and practices as Everywhen does is a route to recognizing diverse forms of Indigenous sovereignties Everywhen makes three major contributions The first is a concentration on language both as a means of knowing and transmitting the past across generations and as a vital albeit long overlooked source material for historical investigation to reveal how many Native people maintained and continue to maintain ancient traditions and identities through language Everywhen also considers Indigenous practices of history or knowing the past that stretch back more than sixty thousand years these Indigenous epistemologies might indeed challenge those of the academy Finally the volume explores ways of conceiving time across disciplinary boundaries and across cultures revealing how the experience of time itself is mediated by embodied practices and disciplinary norms Everywhen brings Indigenous knowledges to bear on the study and meaning of the past and of history itself It seeks to draw attention to every when arguing that Native time concepts and practices are

vital to understanding Native histories and further that they may offer a new framework for history as practiced in the Western academy
