corporate titans millionaire brokers and buoyantly optimistic stock market bulls We meet Sunshine Charley Mitchell head of the National City Bank powerful financiers Jack Morgan and Jacob Schiff Wall Street manipulators such as the legendary Jesse Livermore and the lavish living Billy Durant founder of General Motors As Klein follows the careers of these men he shows us how the financial house of cards gradually grew taller as the irrational exuberance of an earlier age gripped America and convinced us that the market would continue to rise forever Then in October 1929 came a perfect storm like convergence of factors that shook Wall Street to its foundations We relive Black Thursday when police lined Wall Street brokers grew hysterical customers bellowed like lunatics and the ticker tape fell hours behind This compelling history of the Crash the first to follow the market closely for the two years leading up to the disaster illuminates a major turning point in our history **Land and Resource Management Plan** ,1989 **The Earth** William Mullinger Higgins,1836
