Color and Light in Nature David K. Lynch, William Charles Livingston, 2001-06-11 We live in a world of optical marvels from the commonplace but beautiful rainbow to the rare and eerie superior mirage But how many of us really understand how a rainbow is formed why the setting sun is red and flattened or even why the sky at night is not absolutely black This beautiful and informative guide provides clear explanations to all naturally occurring optical phenomena seen with the naked eye including shadows halos water optics mirages and a host of other spectacles Separating myth from reality it outlines the basic principles involved and supports them with many figures and references A wealth of rare and spectacular photographs many in full color illustrate the phenomena throughout In this new edition of the highly acclaimed guide to seeing photographing and understanding nature s optical delights the authors have added over 50 new images and provided new material on experiments you can try yourself

Number by Colors Brand Fortner, Theodore E. Meyer, 2012-12-06 Numbering with colors is tutorial in nature with many practical examples given throughout the presentation It is heavily illustrated with gray scale images but also included is an 8 page signature of 4 color illustrations to support the presentation While the organization is somewhat similar to that found in *The Data Handbook* there is little overlap with the content material in that publication The first section in the book discusses

Color Physics Physiology and Psychology talking about the details of the eye the visual pathway and how the brain converts colors into perceptions of hues This is followed by the second section in which Color Technologies are explained i e how we describe colors using the CIE diagram and how colors can be reproduced using various technologies such as offset printing and video screens The third section of the book Using Colors relates how scientists and engineers can use color to help gain insight into their data sets through true color false color and pseudocolor imaging
