

# RATIONALIZING PARLIAMENT

Legislative Institutions  
and Party Politics in France

JOHN D. HÜBER

Political Economy  
of Institutions and Decisions

# Rationalizing Parliament

**Rory Costello, Neil Robinson**

## **Rationalizing Parliament:**

*Rationalizing Parliament* John D. Huber, 1996-08-28 *Rationalizing Parliament* examines how institutional arrangements in the French Constitution shape the bargaining strategies of political parties Professor Huber investigates the decision by French elites to include in the Constitution legislative procedures intended to rationalize the policy making role of parliament and analyzes the impact of these procedures on policy outcomes cabinet stability and political accountability Through its use of theories developed in the American politics literature the study reveals important similarities between legislative politics in the United States and in parliamentary systems and the shortcomings in conventional interpretations of French

institutional arrangements      **Cohesion and Discipline in Legislatures** Reuven Y. Hazan, 2006 This book previously published as a special issue of the *Journal of Legislative Studies* asks why legislative unity is one of the distinguishing features of modern political parties

**The Equilibrium of Parliamentary Law-making** Viktor Kazai, 2024-08-01 This book is a response to the dangers posed to constitutional democracy by the continuous growth of executive power and the simultaneous decline of parliament's role in policy formation These phenomena are often manifested in the manipulation and even the violation of the rules of parliamentary law making called irregularities If left without consequences these irregularities can ultimately lead to the elimination of the procedural constraints imposed on the ruling political forces to prevent their arbitrary exercise of power This work investigates the constitutional significance of the irregularities of parliamentary law making and explores the role that courts play in the remedy of these flaws The analysis is premised on the concept of equilibrium This explanatory concept denotes an ideal state in which parliamentary law making complies with the requirements of constitutionalism and judicial review is conceptualized as a mechanism suitable to achieve this aim The volume places the judicial review of the regulation and the practice of parliamentary law making at its center and discusses all the relevant legal concepts institutions and doctrines It combines theoretical analysis with case law centered comparative research covering a large number of decisions delivered by apex courts operating in various jurisdictions Due to this methodological choice the book aims to simultaneously contribute to the scholarly discourse and provide useful information to practicing lawyers and policymakers working in the areas of constitutional law and politics and comparative law

*Executive Leadership and Legislative Assemblies* Nicholas D. J. Baldwin, 2014-01-02 The relationship between a head of government head of the executive branch and a nation's parliament or legislative assembly the legislative branch has long been the focus for comment and analysis for example has the prime minister in the United Kingdom come to a position of dominance at the expense of the power of parliament Does the American president stand head and shoulders above Congress Is a French president master of the system Need the Russian president pay attention to the Duma What of the position in other parliamentary and presidential systems In this book Baldwin seeks to provide answers and does so by drawing upon the knowledge and expertise of an international group of scholars whose essays advance our knowledge of the subject This book

was previously published as a special issue of the Journal of Legislative Studies      *Parliaments and Coalitions* Lanny W. Martin, Georg Vanberg, 2011-07-28 Coalition governments are the norm in most of the world's parliamentary democracies. Because these governments are comprised of multiple political parties, they are subject to tensions that are largely absent under single party government. The pressures of electoral competition and the necessity of delegating substantial authority to ministers affiliated with specific parties threaten the compromise agreements that are at the heart of coalition governance. The central argument of this book is that strong legislative institutions play a critical role in allowing parties to deal with these tensions and to enforce coalition bargains. Based on an analysis of roughly 1 300 government bills across five democracies (Denmark, France, Germany, Ireland, and the Netherlands), the book paints a detailed picture of the treatment of government legislation in contemporary parliaments. Two central contributions emerge. First, the book forces a reconsideration of the common perception that legislatures are largely irrelevant institutions in European democracies. The data presented here make a compelling case that parliaments that feature strong committee systems play an influential role in shaping policy. Second, the book contributes to the field of coalition governance. While scholars have developed detailed accounts of the birth and death of coalitions, much less is known about the manner in which coalitions govern between these bookend events. *Parliaments and Coalitions* contributes to a richer understanding of how multiparty governments make policy.

*Comparative Politics* is a series for students, teachers, and researchers of political science that deals with contemporary government and politics. Global in scope, books in the series are characterised by a stress on comparative analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information, visit [www.essex.ac.uk/ecpr](http://www.essex.ac.uk/ecpr).

*Parliaments in Time* Michael Koß, 2018-11-22 *Comparative Politics* is a series for researchers, teachers, and students of political science that deals with contemporary government and politics. Global in scope, books in the series are characterized by a stress on comparative analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information, visit [www.ecprnet.eu](http://www.ecprnet.eu). The series is edited by Emilie van Haute, Professor of Political Science, Université libre de Bruxelles; Ferdinand Müller-Rommel, Director of the Center for the Study of Democracy, Leuphana University; and Susan Scarrow John and Rebecca Moores, Professor of Political Science, University of Houston. How can we explain the evolution of legislatures in Western Europe? This book analyses ninety procedural reforms which restructured control over the plenary agenda and committee power in Britain, France, Sweden, and Germany between 1866 and 2015. Legislatures evolve towards one of two procedural ideal types: talking, where governments control the agenda, or working legislatures with powerful committees. All else being equal, legislators demand for mega seats on legislative committees triggers the evolution of working legislatures. If, however, legislators fail to centralize agenda control in response to anti-system obstruction, legislative procedures break down. Rather than a decline of legislatures, talking legislatures accordingly indicate the resilience of legislative democracy. In conclusion, the book shows the

causal nexus between procedural reforms and legislative democracy      **Patterns of Parliamentary Behavior** Herbert Döring, 2017-03-02 This volume begins where the first D ring book of 1995 finished by considering what effects the rules had on legislative output during the same period It addresses four distinct yet complementary research topics the connection between a number of veto players and law production in West European parliamentary democracies the impact of closed versus open rules the effects of committee structure and organization on the degree of conflict or consensus on the procedure of passing legislation the importance of agenda setting and agenda control for the prevention of cycling across issues and the distribution of particular benefits of shifting and transient majorities Fundamental to this volume is the ability of the project group to fashion an original data set As a consequence this volume is able to ascertain the extent to which parliamentary procedures contributed to shaping policy output in this field during the 1980s      Parliaments and Government Termination Reuven Y. Hazan, Bjørn Erik Rasch, 2023-09-12 This book assesses the larger influences that government termination by parliaments has on executive legislative relations claiming that the way in which the governments may be challenged or dismissed has far greater impact than previously understood The core feature of a parliamentary system is not that governments tend to emerge from the legislatures in some way or another but their political responsibility to this body While in only some parliamentary systems the government needs formal support of parliament to take office in all parliamentary systems no government can survive against the will of parliament The academic literature related to the rules for how governments form is vast Strikingly scholars have paid far less time to unpack the core institution of parliamentary systems of government the confidence relationship and the various no confidence procedures The chapters explore the institutions by which parliaments hold governments accountable and how they balance elected parliaments and appointed governments in parliamentary systems Contributions move beyond the standard focus on government formation and instead analyse government termination by parliament evaluating its consequences in a detailed and comprehensive manner This book will be of interest to students and academics in the field of political science governance and political theory The chapters in this book were originally published in *West European Politics*      *Parliaments and Government Formation* Bjørn Erik Rasch, Shane Martin, José Antonio Cheibub, 2015-11-12 *Parliaments and Government Formation* explores the role of national legislatures in shaping government formation in parliamentary regimes Under parliamentarism the government comes from and remains responsible to the national parliament Yet although legislatures and the politics of government formation are two of the most studied phenomenon in comparative politics relatively little attention has focused on the degree to which parliamentary rules and procedures impact government formation For instance exactly what does come from parliament mean in the context of government formation To answer this question the volume seeks to unpack the parliamentary investiture vote Investiture consists of a vote in parliament to demonstrate that an already formed or about to be formed government has legislative support The volume analyses investiture along six dimensions 1 the number of

chambers involved in government formation 2 the exact topic of any investiture vote for example whether the votes focuses on one or more of the prime ministership the cabinet and or the government s policy program 3 the sequencing and timing of the vote in the overall game of government formation 4 the decision rule for example absolute majority simple or some form of negative parliamentarism 5 the number of rounds provided for and 6 what happens in the event of a failure to invest a government Each of the 16 case studies written by leading scholars of legislative politics in their respective polities seeks to describe the institutional rules and practices and analyse their origins and consequences These case studies are supplemented with two comparative chapters      *Handbook of Parliamentary Studies* Cyril Benoit, Olivier

Rozenberg, 2020-11-27 This comprehensive Handbook takes a multidisciplinary approach to the study of parliaments offering novel insights into the key aspects of legislatures legislative institutions and legislative politics Connecting rich and diverse fields of inquiry it illuminates how the study of parliaments has shaped a wider understanding surrounding politics and society over the past decades      **Race in France** Herrick Chapman, Laura Levine Frader, 2004 Scholars across disciplines

on both sides of the Atlantic have recently begun to open up as never before the scholarly study of race and racism in France These original essays bring together in one volume new work in history sociology anthropology political science and legal studies Each of the eleven articles presents fresh research on the tension between a republican tradition in France that has long denied the legitimacy of acknowledging racial difference and a lived reality in which racial prejudice shaped popular views about foreigners Jews immigrants and colonial people Several authors also examine efforts to combat racism since the 1970s      *Comparative European Politics* Rory Costello, Neil Robinson, 2024 This essential guide to comparative European

politics provides the broadest range of coverage on Europe illustrated via the widest range of examples applied to contemporary events In *Comparative European Politics* the team of expert authors explore the politics of a range of European countries providing insight into everything you need to know on the subject from the fundamentals of democratic politics institutions and practices of government to key contemporary challenges Key Features A broad introduction to contemporary European politics providing an accessible introduction to the fundamental elements of European democracies institutions and practices of government A unique emphasis on contemporary political issues sees a whole part dedicated to common challenges which explores issues such as immigration European integration the financial crisis and the COVID 19 pandemic Includes up to date examples such as growing instability in Europe Brexit recent migration policies the threat of international terrorism and the rise of anti establishment parties to help students understand the real world context of European politics Developed with engaging learning features such as end of chapter discussion questions thinking comparatively sections and over to you boxes to help students understand why and how to compare European countries and their political systems Provides comprehensive coverage of the 27 member states of the European Union additionally drawing on examples from the UK Switzerland Norway Iceland Serbia and Bosnia Herzegovina Written by leading scholars in the field who provide clear

analysis on complex subjects intricate relationships and controversial issues Also available as an e book with functionality navigation features and links that offer extra learning support New to this Edition Three new chapters cover topics around climate politics and policy national governments in the European Union s political system and populism and its challenges to democracy A reorganized table of contents adds clarity Updated tables and figures and the addition of photos offer an engaging learning experience Digital formats and resources Comparative European Politics is available for students and institutions to purchase in a variety of formats and is supported by online resources The e book offers a mobile experience and convenient access along with self test multiple choice questions functionality tools navigation features and links that offer extra learning support [www.oxfordtextbooks.co.uk/ebooks](http://www.oxfordtextbooks.co.uk/ebooks) <https://global.oup.com/ukhe/ebooks> The digital version available on Politics Trove is also accompanied by online resources These include For students Over thirty European country profiles from Austria to the UK with useful data for comparison including population size gender equality political parties and electoral systems Helpful links to relevant online tools with instructions for use including voting advice applications from European countries For lecturers Save time preparing for seminars with activities created to help engage students PowerPoint slides with a deck for each chapter to help build lecture materials

The Politics of Legislative Debates Hanna Back, Marc Debus, Jorge M. Fernandes, 2021-10-07 Legislative debates make democracy and representation work Political actors engage in legislative debates to make their voice heard to voters Parties use debates to shore up their brand This book makes the most comprehensive study of legislative debates thus far looking at the politics of legislative debates in 33 liberal democracies in Europe North America and Latin America Africa Asia and Oceania The book begins with theoretical chapters focused on the key concepts in the study of legislative debates Michael Laver Slapin and Proksch and Taylor examine the politics of legislative debates in parliamentary and presidential democracies Subsequently Goplerud makes a critical review of the methodological challenges in the study of legislative debates Schwalbach and Rauh further discuss the difficulties in the comparative empirical study of debates Country chapters offer a wealth of original material organized around structured sections Each chapter begins with a details discussion of the institutional design focusing on the electoral system legislative organization and party parties to which a section on the formal and informal rules of legislative debates ensues Next each country chapter focuses on analyzing the determinants of floor access with a particular emphasis on the role of gender seniority legislative party positions among others In the concluding chapter the editors explore comparative patterns and point out to multiple research avenues opened by this edited volume The Oxford Politics of Institutions series is designed to provide in depth coverage of research on a specific political institution Each volume includes a mix of theoretical contributions state of the art research review chapters comparative empirical chapters country case study chapters and chapters aimed at practitioners Typically the majority of chapters in each volume comprises of country studies written by country experts Volumes in the series are aimed at political scientists students in political science programmes social

scientists more generally and policy practitioners Series editors Shane Martin Anthony King Chair in Comparative Government and Head of the Department of Government University of Essex and Sona N Golder Professor of Politics Department of Political Science Pennsylvania State University **The Oxford Handbook of Political Executives** Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research

**Legislative Assemblies** Shane Martin, Kaare Strøm, 2023-10-27 By whatever name they are known Parliaments Legislatures or Assemblies to name but three legislative assemblies in democratic societies face the twin challenges of institutional capacity and accountability to their citizens In addressing these challenges assemblies vary in the extent to which they serve the respective interests of three critical sets of actors their members party leaders and voters In this book Shane Martin and Kaare W Strøm identify three ideal types of democratic assemblies the members assembly the leaders assembly and the voters assembly and analyze national legislative assemblies in the world's 68 most populous democracies from Finland to Papua New Guinea in light of these models Based on extensive new cross national data they trace the implications of the three assembly types for the design internal organization resources and powers of democratic national assemblies develop indices of each assembly type and score each of the 68 legislative assemblies on these indices The analysis of legislative re election rates in these countries reveals that the fate of incumbents depends on member resources as well as on leadership control but is ultimately constrained by voter confidence In conclusion the authors discuss the past and future trajectories of legislative assemblies including their susceptibility to democratic backsliding Government and Politics - Volume I Masashi Sekiguchi, 2010-08-27 Government and Politics is the component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Government and Politics in the Encyclopedia of Social Sciences and Humanities deals with the discipline of general and introductory descriptions on a wide range of political phenomena in rather conventional ways It covers the following topics The first two topics Forms and Modes of Government and Structures of Government deal with institutional and structural aspects of political phenomena The third topic Political Aspects of Government is about dynamic political processes The fourth Ideas and Ideologies in Politics investigates political thoughts and ideologies in the modern world The fifth topic International Politics intend to give readers an international perspective since contexts and systems which have international or transnational characters are obviously important background against which a political aspect of building a sustainable society must be considered These two volumes are aimed at the following

five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

*Comparing and Classifying Legislatures* David Arter,2013-09-13 Recent years have witnessed substantial work in the legislative studies field But what do we know about legislatures today and are there clear criteria for comparing and classifying them This is a new review of the state of our knowledge of parliament and tackles key questions Do legislatures matter in legislative terms and if so how much What is the extent of the legislature s control of the legislative process How can we classify legislatures on the basis of their relative legislative performance Five measures of the policy power of parliaments are applied in the country region chapters This book was previously published as a special issue of the leading Journal of Legislative Studies

Comparative Multidisciplinary Perspectives on Omnibus Legislation Ittai Bar-Siman-Tov,2021-05-27 This book is the first in the world to provide a cross national comparative exploration of omnibus legislation It contributes to the global debate over omnibus legislation and offers comprehensive thorough and multifaceted coverage that concerns the fields of legislation and jurisprudence comparative law political science public policy and economics Beyond its relevance for these fields the book will support practitioners in parliaments governments and courts thereby impacting the actual use of omnibus legislation A new major and controversial reform is enacted in the middle of the night It is buried in a massive omnibus bill hundreds of pages in length which is rammed through the legislative process at breakneck speed The legislators receive the final version of the bill in the very last minute and protest that they ve had no opportunity to read it in detail and know what they re voting upon The majority party s legislative leaders however are unimpressed and the law is eventually passed on the basis of strict party discipline Though it may sound far fetched this scenario is all too familiar in many legislatures around the world The legislative practice of combining numerous unrelated measures in one long bill which is often passed via a highly expedited process has become a matter of intense debate and criticism in many countries

The Role of Governments in Legislative Agenda Setting Bjorn Erik Rasch,George Tsebelis,2013-07-04 Setting the agenda for parliament is the most significant institutional weapon for governments to shape policy outcomes because governments with significant agenda setting powers like France or the UK are able to produce the outcomes they prefer while governments that lack agenda setting powers such as the Netherlands and Italy in the beginning of the period examined see their projects significantly altered by their Parliaments With a strong comparative framework this coherent volume examines fourteen countries and provides a detailed investigation into the mechanisms by which governments in different countries determine the agendas of their corresponding parliaments It explores the three different ways that governments can shape legislative outcomes institutional partisan and positional to make an important contribution to legislative politics It will be of interest to students and scholars of comparative politics legislative studies parliamentary research governments coalition politics political economy and policy studies

**Party Policy in Modern Democracies** Kenneth Benoit,Michael Laver,2006-10-16 A new and wide ranging

empirical overview of party policy in 47 modern democracies including all of the new democracies of Eastern Europe It updates and radically extends Policy and Party Competition 1992 which established itself as a key mainstream data source for all political scientists exploring the policy positions of political parties This essential text is divided into three clear parts Part I introduces the study themes and methodology Part II deals in depth with the wide range of issues involved in estimating and analyzing the policy positions of key political actors Part III is the key data section that identifies key policy dimensions across the 47 countries detailing their party positions and median legislators and is complemented by graphical representations of each party system This book is an invaluable reference for all political scientists particularly those interested in party policy and comparative politics

### **Rationalizing Parliament Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Rationalizing Parliament has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Rationalizing Parliament has opened up a world of possibilities. Downloading Rationalizing Parliament provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Rationalizing Parliament has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Rationalizing Parliament. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Rationalizing Parliament. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Rationalizing Parliament, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Rationalizing Parliament has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

## FAQs About Rationalizing Parliament Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Rationalizing Parliament is one of the best book in our library for free trial. We provide copy of Rationalizing Parliament in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Rationalizing Parliament. Where to download Rationalizing Parliament online for free? Are you looking for Rationalizing Parliament PDF? This is definitely going to save you time and cash in something you should think about.
