January 1914 They had suffered at the hands of the Raj now they were being asked to die in its name Reinforcing all that Prince Krishna Ram admires about Britain in Warren Bateman it seems the Ravi Lancers have a decent commanding officer A professional soldier when the Rajah sends his volunteers the Ravi Lancers to accompany the Indian forces destined for Europe it is Bateman who guides their path In the opening months of the First World War the fields of Flanders could not have been a tougher proving ground for them But battle affects men in different ways and while the bloody carnage draws Krishna ever closer to his men Bateman retreats behind rigid military patriotism As they slowly forge themselves from a prince's private army into a unit as effective as any regulars on the front line Bateman tramples over their customs and traditions A clash with Krishna is inevitable In the trenches far from home the tear between allegiance to their own ancient deities and their debt to an alien god of war starts to cause a wound deeper than any man made weapon Dying for a cause not their own every man of the Ravi Lancers faces the ultimate choice who do they follow Making their fateful choice the consequences for all will be severe nothing will be the same again

*No Man's Land* Eric J. Leed, 1979-05-31 Based on the firsthand accounts of German French British and American front line soldiers *No Man's Land* examines how the first modern industrialized war transformed the character of the men who participated in it Ancient myths about war eroded in the trenches where the relentless monotony and impotence of the soldier's life was interrupted only by unpredictable moments of annihilation Professor Leed looks at how the traumatic experience of combat itself and the wholesale shattering of the conventions and ethical codes of normal social life turned ordinary civilians into liminal men men living beyond the limits of the accepted and the expected He uses the concept of liminality to illuminate the central features of the war experience the separation from home the experience of pollution death comradeship and the uncanny and the ambivalence of returning veterans about civilian society In a final chapter Professor Leed assesses the long term political impact of the front experience He finds that the end of hostilities did not mean the end of the war experience as much as the beginning of a process by which that experience was framed institutionalized celebrated and relived in political action as well as in fiction

*Trial by Fire* Nikolas Gardner,2003-08-30 While existing accounts of this period have elevated the exploits of the British soldiers on the battlefield to almost legendary status the operations of the British Expeditionary Force in the dramatic opening campaign of the First World War remain poorly understood Based on official unit war diaries as well as personal papers and memoirs of numerous officers this study sheds significant new light on the retreat from Mons in August 1914 the advance to the River Aisne in September and the climactic First Battle of Ypres in October and November In addition Gardner provides important insights into the ideas and values of British officers in the initial stages of the war Beyond explaining the conduct of the 1914 campaign Gardner analyzes the initial stages of the learning curve experienced by British officers as they grappled with an unaccustomed type of warfare including the unprecedented scale and intensity of the conflict as well as the advent of trench warfare He also demonstrates the impact of rivalries among senior officers on the operations of the army As a whole the study adds depth to our understanding of command in European armies during the First World War
