Portraits of Wollstonecraft Eileen M. Hunt, 2023-09-21 One of The Tablet's Books of the Year 2021 Portraits of Wollstonecraft collects and introduces 102 texts and artifacts that document Mary Wollstonecraft's public reception in art literature philosophy and feminist politics Each portrait is a milestone in her depiction in culture From William Blake's 1803 poem Mary to Maggi Hambling's contentious sculpture in 2020 these sources validate the monumental place Wollstonecraft

holds in not just one but many canons The color images in Part I Public Sightings trace her earliest reception in portraiture from 1785 to 1804 with detailed analysis paired with each of the illustrations Arranged chronologically these landmark images are followed by the reviews of Wollstonecraft's books that appeared during her lifetime in Jamaica Madrid Amsterdam and London Part II Global Afterlives examines her multifarious posthumous reception and features diary entries excerpts from English language biographies letters articles and introductions to her books From Olive Schreiner's introduction to the Rights of Women composed in Cape Town in 1889 to the translator's preface to the first Czech edition of A Vindication of the Rights of Woman in 1904 they showcase an impressive sweep of cross cultural perspectives on her life and writings The sources in Part III Making an International Icon chart the depth and breadth of her legacies on a global scale Feminists philosophers and social scientists from Ruth Benedict to Virginia Sapiro to Amartya Sen have written and spoken with conviction about the emotional power of looking into the eyes of the author of the Rights of Woman This section includes major thinkers from across the 19th and 20th centuries who responded to Wollstonecraft's theories on virtue love gender education and rights Mary Shelley Emma Goldman Virginia Woolf Simone de Beauvoir Betty Friedan Susan Moller Okin Barbara Johnson and Martha Nussbaum We see how Wollstonecraft gained traction in feminist politics both as a philosopher and as a transcultural icon of the cause beginning with English suffragist Millicent Fawcett's centennial edition of the Rights of Woman in 1891 and extending through feminist art in The Paris Review during the age of MeToo Assembling responses from Ireland Continental Europe North and South America and across the former colonies of the British Empire this one of a kind collection tells a compelling story of Wollstonecraft's watershed contributions to human rights debates throughout the modern and contemporary world

**Analysis, Volume 2** Jean-Charles Pinoli, 2014-07-22 Mathematical Imaging is currently a rapidly growing field in applied mathematics with an increasing need for theoretical mathematics This book the second of two volumes emphasizes the role of mathematics as a rigorous basis for imaging sciences It provides a comprehensive and convenient overview of the key mathematical concepts notions tools and frameworks involved in the various fields of gray tone and binary image processing and analysis by proposing a large but coherent set of symbols and notations a complete list of subjects and a detailed bibliography It establishes a bridge between the pure and applied mathematical disciplines and the processing and analysis of gray tone and binary images It is accessible to readers who have neither extensive mathematical training nor peer knowledge in Image Processing and Analysis It is a self contained book focusing on the mathematical notions concepts operations structures and frameworks that are beyond or involved in Image Processing and Analysis The notations are simplified as far as possible in order to be more explicative and consistent throughout the book and the mathematical aspects are systematically discussed in the image processing and analysis context through practical examples or concrete illustrations Conversely the discussed applicative issues allow the role of mathematics to be highlighted Written for a broad audience students mathematicians image processing and analysis specialists as well as other scientists and practitioners the author hopes that readers will find their own way of using the book thus providing a mathematical companion that can help mathematicians become more familiar with image processing and analysis and likewise image processing and image analysis scientists researchers and engineers gain a deeper understanding of mathematical notions and concepts Exhibiting Authenticity David Phillips, 1997 The first study on medieval women to treat young women or maidens separately and at length The book makes a contribution to gender studies through its study of medieval girls acquisition of appropriate roles and identities and their own attitudes towards these roles Examines the experiences and voices of young womanhood Provides insights into ideals of feminine gender roles and identities at different social levels **Ruins and Fragments** Robert Harbison, 2015-08-15 What is it about ruins that are so alluring so puzzling that they can hold some of us in endless wonder over the half erased story they tell In this elegant book Robert Harbison explores the captivating hold these remains and broken pieces from architecture art and literature have on us Why are we he asks so suspicious of things that are too smooth too continuous What makes us feel when we look upon a fragment that its very incompleteness has a kind of meaning in itself Is it that our experience on earth is inherently discontinuous or that we are simply unable to believe in anything whole Harbison guides us through ruins and fragments both ancient and modern visual and textual showing us how they are crucial to understanding our current mindset and how we arrived here First looking at ancient fragments he examines the ways we have recovered restored and exhibited them as artworks Then he moves on to modernist architecture and the ways that it seeks a fragmentary form examining modern projects that have been designed into existing ruins such as the Castelvecchio in Verona Italy and the reconstruction of the Neues Museum in Berlin From there he explores literature and the works of T S

Eliot Montaigne Coleridge Joyce and Sterne and how they have used fragments as the foundation for creating new work Likewise he examines the visual arts from Schwitters collages to Ruskin's drawings as well as cinematic works from Sergei Eisenstein to Julien Temple never shying from more deliberate creators of ruin from Gordon Matta Clark to countless graffiti artists From ancient to modern times and across every imaginable form of art Harbison takes a poetic look at how ruins have offered us a way of understanding history and how they have enabled us to create the new

**Contemporary Theory of Conservation** Salvador Munoz-Vinas, 2012-05-23 Classical theories of conservation are well known in the heritage community but in the last two decades thinking has shifted and classical theory has faced increasing criticism Contemporary Theory of Conservation brings together current ideas in conservation theory presenting a structured coherent analysis of the subject for the first time This engaging and readable text is split into 3 parts The first Fundamentals of conservation addresses the identity of conservation itself and problems arising when classical conservation theories are applied The second part Questioning classical theories delves deeper into the criticism of classical ideas such as reversibility This leads on to the creation of new paradigms such as sustainability which are covered in the final part of the book Conservation ethics

Curating Opera Stephen Mould, 2021-02-09 Curation as a concept and a catchword in modern parlance has over recent decades become deeply ingrained in modern culture The purpose of this study is to

explore the curatorial forces at work within the modern opera house and to examine the functionalities and processes that guide them In turn comparisons are made with the workings of the traditional art museum where artworks are studied preserved restored displayed and contextualised processes which are also present in the opera house Curatorial roles in each institution are identified and described and the role of the celebrity art curator is compared with that of the modern stage director who has acquired previously undreamt of licence to interrogate operatic works overlaying them with new concepts and levels of meaning in order to reinvent and redefine the operatic repertoire for contemporary needs A point of coalescence between the opera house and the art museum is identified with the transformation towards the end of the nineteenth century of the opera house into the operatic museum Curatorial practices in the opera house are examined and further communalities and synergies in the way that works are defined in each institution are explored This study also considers the so called birth of opera around the start of the seventeenth century with reference to the near contemporary rise of the modern art museum outlining operatic practice and performance history over the last 400 years in order to identify the curatorial practices that have historically been employed in the maintenance and development of the repertoire This examination of the forces of curation within the modern opera house will highlight aspects of authenticity authorial intent preservation restoration and historically informed performance practice
