Lydia Ginzburg's Prose Emily Van Buskirk, 2016-01-05 The Russian writer Lydia Ginzburg 1902-90 is best known for her Notes from the Leningrad Blockade and for influential critical studies such as On Psychological Prose investigating the problem of literary character in French and Russian novels and memoirs Yet she viewed her most vital work to be the extensive prose fragments composed for the desk drawer in which she analyzed herself and other members of the Russian intelligentsia through seven traumatic decades of Soviet history In this book the first full length English language study of the writer Emily Van Buskirk presents Ginzburg as a figure of previously unrecognized innovation and importance in the literary landscape of the twentieth century Based on a decade's work in Ginzburg's archives the book discusses previously unknown manuscripts and uncovers a wealth of new information about the author's life focusing on Ginzburg's quest for a new kind of writing adequate to her times She writes of universal experiences frustrated love professional failures remorse aging and explores the modern fragmentation of identity in the context of war terror and an oppressive state Searching for a new concept of the self and deeming the psychological novel a beloved academic specialty inadequate to express this concept Ginzburg turned to fragmentary narratives that blur the lines between history autobiography and fiction This full account of Ginzburg's writing career in many genres and emotional registers enables us not only to rethink the experience of Soviet intellectuals but to arrive at a new understanding of writing and witnessing during a horrific century Cosmopolitan Spaces in Odesa Mirja Lecke, Efraim Sicher, 2023-07-25 Cosmopolitan Spaces in Odesa A Case Study of an Urban Context is the first book to explore Odesa's cosmopolitan spaces in an urban context from the nineteenth to twenty first centuries Leading scholars shed new light on encounters between Jewish Ukrainian and Russian cultures They debate different understandings of cosmopolitanism as they are reflected in Odesa's rich multilingual culture ranging from intellectual history and education to music opera and literature The issues of language and interethnic tensions imperialist repression and language choice are still with us today Moreover the book affords a historical view of what lay behind the Odesa myth as well

as insights into the Jewish and Ukrainian cultural revivals of the early twentieth century *Silence's Roar* John Freedman,1992 *Women & Gender in Central and Eastern Europe, Russia, and Eurasia: Russia, the non-Russian peoples of the Russian Federation, and the successor states of the Soviet Union* Mary Fleming Zirin,2007 *Constructing Russian Culture in the Age of Revolution, 1881-1940* Catriona Kelly,David G. Shepherd,1998 *Constructing Russian Culture* offers a pioneering new account of the relationship between literature and other cultural forms in Late Imperial Russia and Revolutionary Russia The general consensus in Western study of Russia and the Soviet Union has been that understanding of historical background is essential to the study of literature But this consensus has so far failed to produce sophisticated overviews of the culture as a whole literary histories seldom venture outside a rigid canon of authors and literary groupings and the account of historical background sometimes amount to little more than a listing of certain predictable political and social factors that can be perceived to have influenced or impeded literary developments This book is an ambitious attempt to recontextualize Russian literature and rethink the relations between literature and other cultural forms The book examines a number of in Bourdieu's term cultural fields in late Imperial Russia science and objectivity national and personal identity consumerism and commercial culture There is also a keywords introduction explaining the evolution of concepts of the self the nation and literariness in Russian culture and an Epilogue outlining the further history of the central themes after 1917 Contributors include leading specialists in Russian literature cultural history and cultural theory from Britain the USA and Russia Intended as a companion to *Russian Cultural Studies An Introduction* also OUP this stimulating original and controversial book will be a vital resource for all those interested in Russian culture during the age of Revolution

Library,1971 **National Union Catalog** ,1970 Includes entries for maps and atlases *The Jewish Persona in the European Imagination* Leonid Livak,2010-09-10 This book proposes that the idea of the Jews in European cultures has little to do with actual Jews but rather is derived from the conception of Jews as Christianity's paradigmatic Other eternally reenacting their morally ambiguous New Testament role as the Christ bearing and killing chosen people of God Through new readings of canonical Russian literary texts by Gogol Turgenev Chekhov Babel and others the author argues that these European writers Christian secular and Jewish based their representation of Jews on the Christian exegetical tradition of anti Judaism Indeed Livak disputes the classification of some Jewish writers as belonging to Jewish literature arguing that such an approach obscures these writers debt to European literary traditions and their ambivalence about their Jewishness This work seeks to move the study of Russian literature and Russian Jewish literature in particular down a new path It will stir up controversy around Christian Jewish cultural interaction the representation of otherness in European arts and folklore
