Re Reading The Excursion:

Re-Reading The Excursion Sally Bushell, 2017-03-02 Re Reading The Excursion Narrative Response and the Wordsworthian Dramatic Voice is a groundbreaking study which transforms contemporary critical understanding of The Excursion and of the place of this long poem in the Wordsworthian canon Sally Bushell argues that the poem which has suffered at the hands of critics for most of the twentieth century has been unfairly judged according to a Coleridgean rather than a Wordsworthian definition of philosophy that it has been read as a didactic work rather than one which uses its dramatic form to teach its readers to think for themselves She offers a new reading in which The Excursion is shown to be about providing the readers with moral habits and mental constructs by which to learn not simply telling them what to think The book begins with a discussion of the reception of the poem in 1814 considering the responses of Coleridge Hazlitt Francis Jeffrey and Charles Lamb This historicized discussion is then balanced by a reading of the poem at the compositional stage looking at the emergence from the manuscripts of a Wordsworthian dramatic voice The author goes on to argue that the poem's philosophy is performative that is concerned with the way in which moral ideas can best be communicated as much as with the ideas themselves She then shifts her attention to consider how this operates in relation to the reader considering the importance of context in relation to emotional response Later the epitaphic books are reconsidered in the light of Wordsworth's critical writing Bushell argues that the significance of the epitaph for him lies in its values as a poetic form in which the text itself is released from poetic authority Finally the author looks back at The Prelude from the perspective of The Excursion and shows how the later poem attempts to value the ordinary rather than the poetic mind The conclusion reached is that Wordsworth is not just the egotistical poet of The Prelude interested largely in the development of his own imaginative powers but one who goes on to explore the limits of subjectivity and the importance of different kinds of imaginative links between individuals

The Oxford Handbook of William Wordsworth Richard Gravil, Daniel Robinson, 2015-01-22 The Oxford Handbook of William Wordsworth deploys its forty seven original essays to present a stimulating account of Wordsworth's life and achievement and to map new directions in criticism. The result is a dialogic exploration of many major texts and problems in Wordsworth scholarship. This uniquely comprehensive handbook is structured so as to present in turn Wordsworth's life career and networks aspects of the major lyrical and narrative poetry components of The Recluse his poetical inheritance and his transformation of poetics the variety of intellectual influences upon his work from classical republican thought to modern science his shaping of modern culture in such fields as gender landscape psychology ethics politics religion and ecology and his 19th and 20th century reception most importantly by poets but also in modern criticism and scholarship

Re/reading the past J.R. Martin, Ruth Wodak, 2003-11-17 *Re-reading the Past* is concerned with the discourses of history from the complementary perspectives of Critical Discourse Analysis (CDA) and Systemic Functional Linguistics (SFL). The papers in the book stress the discursive construction of the past focussing on the different social narratives which compete for official acknowledgement. Issues of collective and cultural memory are addressed reflecting the linguistic turn in the Social Sciences. The book covers a range of discourses interpreting texts from popular culture to academic discourse including the construction and evaluation of past events in a variety of places around the world. It is especially timely in its focus on the construction of time and value in a post colonial world where history discourses are central to on going processes of reconciliation debates on war crimes and the issues of amnesty and restitution. As such the book fills a significant gap in interdisciplinary debates as well as in register and genre analysis and will be of general interest.

The Mind of John Keats Clarence De Witt Thorpe, 1926

Wordsworth's Monastic Inheritance Jessica Fay, 2018-04-27 This is the first extended study of Wordsworth's complex subtle and often conflicted engagement with the material and cultural legacies of monasticism It reveals that a set of topographical antiquarian and ecclesiastical sources consulted by Wordsworth between 1806 and 1822 provided extensive details of the routines structures landscapes and architecture of the medieval monastic system In addition to offering a new way of thinking about religious dimensions of Wordsworth's work and his views on Roman Catholicism the book offers original insights into a range of important issues in his poetry and prose including the historical resonances of the landscape local attachment and memorialization gardening and cultivation Quakerism and silence solitude and community pastoral retreat and national identity Wordsworth's interest in monastic history helps explain significant stylistic developments in his writing In this often neglected phase of his career Wordsworth undertakes a series of generic experiments in order to craft poems capable of reformulating and refining taste he adapts popular narrative forms and challenges pastoral conventions creating difficult austere poetry that he hopes will encourage contemplation and subdue readers' appetites for exciting narrative action This book thus argues for the significance and innovative qualities of some of Wordsworth's most marginalized writings It grants poems such as The White Doe of Rylstone The Excursion and Ecclesiastical Sketches the centrality Wordsworth believed they deserved and reveals

how Wordsworth's engagement with the monastic history of his local region inflected his radical strategies for the creation of taste

Romantic Prayer Christopher Stokes, 2021-01-21 Whilst religion and the secular have been continually debated contexts for literature of the Romantic era the dominant scholarly focus has been on doctrines and denominations In analysing the motif of devotion Romantic Prayer shifts attention to the quintessential articulation of religion as lived experience as practice and as a performative rather than descriptive phenomenon In an era when the tenability and rationality of prayer was much contested poetry a form with its own interlinked history with prayer was a unique place to register what prayer meant in modernity This study illustrates how the discourse of prayer continually intervened in the way that poetic practices evolved and responded to the religious and secular questions of the eighteenth and nineteenth century moment After laying out the details of prayer's historical position in the Romantic era across a spread of religious traditions Romantic Prayer turns to a range of writers from the identifiably religious to the staunchly sceptical William Cowper and Anna Letitia Barbauld are shown to use poetry to reflect and reinvent the ideals of prayer inherited from their own denominational histories Samuel Taylor Coleridge's work is analysed as part of a long engagement with the rationality of prayer culminating in an explicit philosophy of prayer William Wordsworth by contrast keeps prayer at an aesthetic distance continually alluding to prayerful language but rarely committing to devotional voice itself John Keats Percy Bysshe Shelley and Lord Byron are treated in the context of departing from Christianity under the influence of Enlightenment materialist and atheist critiques what happens to prayer in poetry when prayer as a language traditionally conceived is becoming impossible to maintain

Durrell Re-read James M. Clawson, 2016-06-20 Reading the twelve major novels of Lawrence Durrell this study argues for their consideration as a single major project an opus marked by themes of liminality and betweenness As major texts of mid twentieth century literature repeatedly earning nominations for the Nobel Prize Durrell's work has attracted renewed critical attention since his centenary in 2012 This study shows the thematic unity of the opus in five areas First by disrupting expectations of love and death and by fashioning plural narrators works in the opus blend notions of the subject and the object Second in their use of metafictional elements the texts present themselves as neither fiction nor reality Third their approach to place and identity offers something between the naturalistic and the human centric Fourth though the texts initial concerns are engaged with understanding the past and preparing for a future they all resolve in something like the present And fifth though the novels reject many aspects of modernism they reside nevertheless

between the poles of modernism and postmodernism Shared with other writers including T S Eliot and Henry Miller as early as the 1940s Durrell's plans for his major works of fiction remained consistent through the publication of the last novel in 1985 and these plans show the need to consider the twelve major works as a unitary whole
