Fielding,2008-09-26 Traditionally university students have gained access to world religions by reading primary texts Discovering World Religions at 24 Frames Per Second takes students beyond the written page offering an exploration of the same religious traditions through the study of feature films The many definitions of religion are examined along with its various components including doctrine myth ethics ritual and symbol Specific religious traditions including Hinduism Sikhism Zoroastrianism Buddhism Confucianism Daoism popular religion and Shinto are examined

Biographical sketches of directors whose films tend to focus on a particular religious tradition are also included such as Zhang Yimou Hayao Miyazaki Deepa Mehta and Akira Kurosawa Discovering World Religions at 24 Frames Per Second is unique in the area of religion and film studies in that it isn't just a collection of essays Instead it provides the introductory student with the necessary background information on the various religions before looking at how their ideas can be understood not through texts but through the cinematic medium To keep the conversation fresh most of the films used in the book were made within the last decade Furthermore examples range from popular mainstream fare such as Star Wars and the Lord of the Rings trilogy to lesser known foreign films such as The Wooden Man's Bride and The Great Yokai War Several films with a cult like following are also discussed including Fight Club Princess Mononoke Spirited Away and Jacob's Ladder This book is also unique in that instead of drawing upon the Judeo Christian tradition it draws from Eastern traditions

The Life of the Sixteenth Karmapa Rangjung Rigpe Dorje Meng Wang, 2022-11-08 The Sixteenth Karmapa Rangjung Rigpe Dorje was the first Tibetan Buddhist leader to make extensive teaching tours to the West His three tours to Europe and North America from 1974 to 1980 led to the global expansion of Tibetan Buddhist schools This book presents the most in depth analysis of the Karmapa's contribution to the preservation and transmission of Tibetan Buddhism in exile It is the first study to combine Tibetan life writing and biographical materials in English with a thorough examination of the transformation of Tibetan Buddhism in the modern era of globalization Drawing on a wide range of data from written accounts collections of photographs recordings of interviews and documentaries the author discusses the life and activity of the Karmapa through the lens of cross cultural interaction between Buddhism and the West with a particular focus on Asian agency The study shows that the Karmapa's transmission strategies emphasized continuity with tradition with some openness for adaptation His traditionalist approach and his success on the global scale challenge the popular assumption that the transmission of Buddhism is primarily a matter of Westernization which in turn calls for a broader view that recognizes its complex and dynamic nature

Mediated Intercultural Communication in a Digital Age Ahmet Atay, Margaret U. D'Silva, 2019-03-04 This book focuses on mediated intercultural communication in the context of globalization Analyzing social and traditional media using qualitative interpretive and critical and cultural perspectives contributors engage with diverse topics ranging from hybrid identities in different communities to journalistic collaborations in the global media landscape In addition the authors also examine the placeless and borderless communities of diaspora members their transnational identities and the social media stories that shape and are shaped by them

Tibetan Buddhism in Diaspora Ana Cristina O. Lopes, 2014-12-17 The imperialist ambitions of China which invaded Tibet in the late 1940s have sparked the spectacular spread of Tibetan Buddhism worldwide and especially in western countries This work is a study on the malleability of a particular Buddhist tradition on its adaptability in new contexts The book analyses the nature of the Tibetan Buddhism in the Diaspora It examines how the re-signification of Tibetan Buddhist practices and organizational structures in the present refers back to the dismantlement of the Tibetan state headed by the Dalai Lama and the fragmentation of Tibetan Buddhist religious organizations in general It includes extensive multi-sited fieldwork conducted in the United States Brazil Europe and Asia and a detailed analysis of contemporary documents relating to the global spread of Tibetan Buddhism The author demonstrates that there is a de-institutionalized and de-territorialized project of political power and religious organization which among several other consequences engenders the gradual autonomization of lamas and lineages inside the religious field of Tibetan Buddhism Thus a spectre of these previous institutions continues to exist outside their original contexts and they are continually activated in ever new settings Using a combination of two different academic traditions namely the Brazilian anthropological tradition and the American Buddhist studies tradition it investigates the process of cultural re-signification of Tibetan Buddhism in the context of its Diaspora Thus it will be a valuable resource to students and scholars of Asian Religion Asian Studies and Buddhism

Freeing Tibet John B. ROBERTS, Elizabeth A. ROBERTS, 2009-02-02 In March of 1959 a 23-year-old Tibetan youth named Tenzin Gyatso

burst onto the world stage. Fleeing his native country to govern in exile from India, the Dalai Lama would go on to become one of the great leaders of our time. Then in March 2008, the diplomat, icon, and winner of the 1989 Nobel Peace Prize was blamed for inciting violence in Tibet's traditional capital of Lhasa. As 2009 marks the 50th anniversary of the Dalai Lama's rule in exile, the situation in Tibet has become more volatile than ever. Now China must decide if it will give Tibet the right to govern itself and what the consequences will be for its economy and its place on the world stage. Freeing Tibet is the incredible heroic story of Tibet's arduous struggle to keep freedom alive. From the national uprising in 1959, which cost more than 85,000 Tibetans their lives, to the rise of the Tibetan freedom fighters, the aftereffects of Nixon's historic visit to China, and preparations for the Dalai Lama's successor, this seminal history offers an insider's view of the 50-year struggle for autonomy. As a former Reagan White House political strategist, author John B. Roberts has had unprecedented access to the Dalai Lama's inner circle. Based on interviews with CIA and political insiders, this epic story gives readers a new understanding of a conflict that continues to fascinate the world. Timely, impeccably researched, and hopeful, this is the book that will change the way we understand Tibet.

Religion and Identity in the Indian Ocean World Joshua Esler, Mark Fielding, 2025-09-18. This is a ground-breaking volume on the role of religion as a major force of cohesion across the Indian Ocean region. A diverse range of experts present a case for conceptualizing religion as an enabler of not only shared religious identities throughout the Indian Ocean world but multiple shared identities mediated through religion, particularly as religion intersects with other manifestations of human society in this part of the world. This theme is explored through six major religious traditions, many of which originated in the Indian Ocean region and all of which have played major roles throughout its history and to the present day. These traditions include Judaism, Christianity, Islam, Hinduism, Jainism, and Buddhism. With this breadth and coverage of these traditions and their role in unifying communities from East Africa to Western Australia, including those belonging to nations north of that expanse of ocean, this book is a pioneering work on the multi-religious identities of the region.

American Sociology of Religion, 2007-08-31. This is a collection of histories of various aspects of American sociology of religion. The contributions range from descriptions of early dissertations, accounts of changes in theoretical conceptualization, the evolution of studies of particular denominations, to the rise of new areas of inquiry such as globalization, feminism, new religions, and the study of the religious traditions of Latino Americans. Taken as a whole, the volume complements rather than duplicates commemorative issues of the relevant journals, which focused on the scholarly organizations in the field. It represents a first effort to develop an organized treatment of the fascinating history of the specialty in the U.S.A.

Polyglot from the Far Side of the Moon Lauren F. Pfister, 2022-03-24 Though recognized in the latter part of the 19th century as the greatest Orientalist in Britain the Geneva born Anglican priest Solomon Caesar Malan 1812-1894 was such an extraordinary person that he has defied any scholarly person to write a critical account of his life and works Consequently almost no one has written anything critically appreciative and insightful about him since his death A polymath with extraordinary talent for languages and sketching among other specialized skills Malan focused much of his life on assessing biblical translations in ancient Middle Eastern and East Asian languages while also producing English translations of alternative expressions of Christianity found in north Africa the Middle East and Asia A life long interest of his was comparing the proverbs of his namesake King Solomon with proverbial wisdom from as many cultures and languages as he could find That interest culminated in a three volume work that enshrined his achievements realized through his capacities as a hyperpolyglot within the context of a search for shared wisdom across many cultures In this volume produced by a team of collaborators from a wide range of scholarly interests and varying expertise we have presented a critically assessed account of the life and key works produced by Solomon Caesar Malan In fact it is the first work of its kind on Malan written since his death now having occurred more than 125 years ago Readers will journey through an itinerary that starts in Geneva before it became part of Switzerland moves to Great Britain and ultimately into one of the colleges in Oxford Subsequently it moves us into an exploration of the journey of his life that involved a huge range of places people and

languages starting in Calcutta touching unusual figures from Hungary India and China Those seminal experiences led Malan into studies of languages related to even more distant cultural worlds in Central Southeastern and East Asia The historians among us have delved into Malan s life in Calcutta Geneva and Dorsetshire while others have explored the nature of his hyperpolyglossia and tested the quality of his understanding of ancient literature in classical languages that include Chinese Manchurian Sanskrit and Tibetan Notably Malan s personal library was so unique that when he donated it to his alma mater at Oxford University it became one of the major bibliographic precedents for what is now the Oriental Division in the Bodleian Libraries Yet when one follows the twists and turns of his life s journey and the surprises that occur from documenting the history and content of the Malan Library as well as critically analysing aspects of his opus magnum Original Notes on the Book of Proverbs 1889 1893 we believe both general readers and scholarly specialists will be entranced
