Reaching For Art:

Reaching and Teaching Students with Special Needs Through Art Beverly Levett Gerber, Doris M. Guay, Jane Burnette, 2024-09-30 This second edition of *Reaching and Teaching Students with Special Needs Through Art* is written for art educators, special educators, and those who value the arts for students with special needs. It builds on teachers' positive responses to the first edition and now combines over 700 years of the educational experience of arts and special educators who share their art lessons, behavior management strategies, and classroom stories. The revised second edition provides updated chapters addressing students with emotional, behavioral, disabilities, learning disabilities, intellectual disabilities, physical disabilities, and visual and hearing impairments. The newly revised second edition includes chapters on students with autism spectrum disorder, preschool students, and students experiencing trauma. All chapters have been updated to include current definitions and language, recommended teaching strategies, art lesson adaptations, behavior management strategies, and references to related chapters. Follow-up activities are provided for further insights into each group of students. A new summary chapter connects how the authors' collaborations resulted in changes to two professional organizations. Since the first edition, many of the featured authors established the new Division of Visual and Performing Arts Education (DARTS) at the Council for Exceptional Children (CEC) and earlier formed a new National Art Education Association (NAEA) Interest group, Special Needs in Art Education (SNAE), now Arts in Special Education (ASE). This edition is ideal for preservice arts methods courses and education courses on accessibility and inclusion at the undergraduate and graduate levels. It continues to offer current yet proven best practices for reaching and teaching this ever-important population of students through the arts.

Using Art, Play, Metaphor, and Symbol with Hard-to-Reach Young Clients Aileen Webber, James Webber, 2022-12-30 This book demonstrates some of the unique ways in which therapists can help complex and vulnerable clients considered hard to reach using arts, media, and play. Using a wealth of case studies, contributors describe their unique therapeutic attempts to reach clients who, for various reasons, seem unreachable. These moving therapeutic journeys are described in a phenomenological, auto-ethnographic way by the therapists themselves as a series of snapshot glimpses into the therapy room. The therapists describe how combinations of art, play, metaphor, and imagination have helped them navigate the complex pathways to reach their clients. Each chapter is fully supported by the contributing therapists' own selection of theoretical ideas and analysis. The book will help therapists consider innovative creative approaches in their work with clients who have been deemed too complex to work with in individual therapy, emphasizing the importance of play and arts resources in helping them achieve this.
