Antifeminism in cultural context To give today's readers an understanding of the social and political forces that actively fought against any changes in women's status in the United States the editors selected these original examples from the writings of the time that appeared in popular books and magazines Opponents of women's equality frequently voiced their opinions about 19th century issues of women's suffrage dress reform self expression independence and other topics that touched upon the perceived roles and duties of women Such public diatribes continued into the 10th century as determined antifeminists argued against increased opportunities for women in employment and education denied the propriety of family planning and admonished against women's involvement in politics Arguments based on ridicule natural law and false claims Some opponents merely dismissed or ridiculed calls for changes in women's status without specifying particular flaws in the feminist position Others cited divine ordination applied to natural law and fanned public fears of familial and social disintegration Frequently these critics resorted to charges of presumed lesbianism communism and socialism against advocates of women's rights and against the movement itself This adamant opposition to equality for women was a manifestation of common apprehension about ongoing social economic and political changes beyond antifeminist control Antifeminists in their own words Today few people have even an inkling of the vehemence theatrical posturing and convoluted reasoning of the antifeminist forces This varied selection of original sources puts an illuminating spotlight on the arguments presented by opponents of women's equality that is drawn from an extensive body of writings ranging from the elegant pronouncements of a popular politician to sincere endorsements of the status quo by female apologists for those opposed to the women's movement to purveyors of low satire in the popular press For modern readers this collection provides the opportunity to encounter directly the reasoning opinions and perceptions of those that resisted and criticized the goals and achievements of feminism A valuable resource for many disciplines A particularly valuable feature of this set is its wealth of primary source material from the 19th and early 20th centuries including material from books and newspapers Very few libraries have collected these sources and chances are no single collection has them all These volumes are of great interest to women's studies women's history gender studies cultural studies as well as history political science sociology and literature Many of the examples of antifeminist writing found in the set can enrich classroom discussions and assignments that involve communication writing and rhetoric Available individually by volume 1 Opposition to the Women's Movement in the United States 1848 1929 0 8153 2713 7 400 pages 2 Redefining the New Woman 1920 1963 0 8153 2714 5 344 pages 3 Reaction to the Modern Women's Movement 1963 to the Present 0 8153 2715 3 352 pages

Redefining the New Woman, 1920-1963 Angela Howard-Zophy, Sasha Ranae Adams Tarrant, 2019-06-04 2 Redefining the New Woman 1920 1963 Despite the fact that women's suffrage did not produce the catastrophic consequences predicted

mainstream opposition to the feminist movement refused to die as exemplified in commentaries by industrialist Henry Ford renowned literary figures D H Lawrence and Norman Mailer and even presidential candidate Adlai Stevenson all represented in this volume The other selections first focus on sources published during the interwar years and indicate that the legacy of progressive social feminism exacerbated reactionary attitudes toward women in the context of postwar political fundamentalism the Great Depression and the New Deal The second part contains literature that appeared between 1941 and 1963 and reflects the ambivalence and backlash toward wives and mothers in the workforce and the public sphere driven by the social political and economic conservatism of the Cold War Era *Antifeminism in America: Reaction to the modern*

The Political Life of Bella Abzug, 1976-1998 Alan H. Levy, 2013-12-05 The Political Life of Bella Abzug 1976-1998 is the second part of the first full biography of Bella Abzug. Alan H. Levy explores the political life of one of the most important women in politics in mid and late twentieth century America. This second part takes up Abzug's life from the point in 1976 when she narrowly lost her bid for the New York Democratic Party's nomination for the U S Senate. The biography follows her subsequent failed effort to win the Democratic Party's nomination for Mayor of New York City in 1977, her leading a controversial National Women's Convention in Houston in late 1977, her failed attempt to return to the U S Congress in 1978 and her conflicts with President Jimmy Carter and his administration. The biography then traces the efforts in which Abzug was engaged to regain political prominence and her work on behalf of women at both national and international levels. Through the events in Abzug's life, Levy explores tensions that surrounded the contrasts between political principles which

idealized a world in which gender posed no barriers to any human effort and political views which sought to extol and develop notions of gender and of ideas about its special meanings in human affairs and politics Divided We Stand Marjorie J. Spruill, 2018-08-28 The fascinating true story of the characters in Hulu's Mrs America and a broader portrait of the two women's movements that spurred an enduring rift between liberals and conservatives The many admirers of Mrs America will find great satisfaction in Divided We Stand a clear compelling and deeply insightful volume The Washington Post One of Smithsonian Magazine's Ten Best History Books of the Year In the early 1970s an ascendant women's rights movement enjoyed strong support from both political parties and considerable success but was soon challenged by a conservative women's movement formed in opposition Tensions between the two would explode in 1977 at the congressionally funded National Women's Conference in Houston Texas As Bella Abzug Gloria Steinem and other feminists endorsed hot button issues such as abortion rights the ERA and gay rights Phyllis Schlafly and Lottie Beth Hobbs rallied with conservative women to protest federally funded feminism and launch a pro family movement Divided We Stand reveals how crucial women and women's issues have been in the shaping of today's political culture After the National Women's Conference Democrats continued to back women's rights in cooperation with a more diverse feminist movement while the GOP abandoned its previous support for women's rights and defined itself as the party of family values irrevocably affecting the course of American politics
