The Rich Forest Oppong-Mensam J,2004-04-01 The Ends of the World Déborah Danowski,Eduardo Viveiros de Castro,2017-05-23 The end of the world is a seemingly interminable topic at least of course until it happens Environmental catastrophe and planetary apocalypse are subjects of enduring fascination and as ethnographic studies show human cultures have approached them in very different ways Indeed in the face of the growing perception of the dire effects of global warming some of these visions have been given a new lease on life Information and analyses concerning the human causes and the catastrophic consequences of the planetary crisis have been accumulating at an ever increasing rate mobilising popular opinion as well as academic reflection In this book philosopher D borah Danowski and anthropologist Eduardo Viveiros de Castro offer a bold overview and interpretation of these current discourses on the end of the world reading them as thought experiments on the decline of the West s anthropological adventure that is as attempts though not necessarily intentional ones at inventing a mythology that is adequate to the present This work has important implications for the future development of ecological practices and it will appeal to a broad audience interested in contemporary anthropology philosophy and environmentalism Forest and Stream ,1903 **Junior Graphic** Mavis Kitcher (Mrs),2010-06-09
