Becoming a Teacher of Writing in Elementary Classrooms Donna Kalmbach Phillips, Mindy Legard Larson, 2015-12-22

Becoming a Teacher of Writing in Elementary Classrooms nurtures teachers' identities as writers, connects to the realities of writing instruction in real and diverse classrooms, and encourages critical and creative thinking. This text is about writing instruction as a journey teachers and students embark on together. The focus is on learning how to teach writing through specific teaching and learning structures found in the Writing Studio: mini lessons, teacher and peer conferencing, guided writing, and sharing, celebrating, and broadcasting writing. Pedagogical features include teaching structures and strategies, Problematising Practice, classroom scenarios, assessment resources, and a Companion Website. Because a teacher who views him or herself as a writer is best positioned to implement the Writing Studio, a parallel text, *Becoming a Writer*, gives readers space to consider who they are as a writer, their personal process as a writer, and who they might become as a writer.

Wonderous Words Katie Wood Ray, 1999 Examines the theoretical underpinnings of how students learn to write from reading other writers, describes various kinds of inquiry designed to help teachers and students learn how to learn from writers, and includes thoughts from the author on writing and teaching, as well as a selection of resource materials.

Phonics They Use Patricia Marr Cunningham, 2009 Written by an outstanding scholar, *Phonics They Use* seamlessly weaves together the complex and varied strategic approaches needed to help students develop reading and spelling skills. Long positioned and long respected as a bestseller by both pre-service and practicing teachers of reading, this affordable text offers a coherent collection of practical, hands-on activities that provide a framework for teaching phonics. The Fourth Edition continues to emphasize that what matters is not how much phonics students know, but what they actually use when they need phonics for decoding a new word for reading and spelling a new word and for writing. Rather than subscribe to a single theory, Pat Cunningham stresses a balanced reading program incorporating a variety of strategic approaches tied to the individual needs of children. Packed with new activities and strategies for teaching reading, this book is an invaluable resource for any new or veteran teacher. Now teachers have access to a new grade-level series, *Making Words*, that offers fresh, multi-level activities and lessons for the kindergarten through fifth-grade classroom. Based on the active and innovative approach to making words that teachers and their students have grown to love in *Phonics They Use*, this new series is the best resource you can have on hand for motivating your students to learn words. Take a Peek at What's New to the Edition. New Chapter on Making Words in Kindergarten: Ch. 4 describes and provides sample lesson plans on how teachers can make each kindergarten student a letter of the alphabet using a big letter card to teaching them how to begin to form words. New Chapter on Making Words in Upper Grades: Ch. 11 describes and provides sample lessons on how making words has been adapted for use of older students in upper grades by emphasizing the prefixes, suffixes, roots, and spelling changes that are the important decoding and spelling patterns for polysyllabic words. Inclusion of hints and suggestions for English Language

Learners scattered throughout the chapters which help make phonics and spelling instruction more successful for ELLs as they learn to read and write.
