Learn Spanish News Vol.1 Nik Marcel, LEARN SPANISH NEWS Vol 1 English Spanish THIS EDITION The dual language text has been arranged into sentences and shorter paragraphs for quick and easy cross referencing The source text is the Spanish language edition of Voice of America VOA The Spanish text has been translated into English for this dual language project The reader can choose between four formats Section 1 English to Spanish Section 2 Spanish to English Section 3 English Section 4 Spanish A methodology for getting the most out of this bilingual format is explained in the book's Foreword The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully this way A reader might like to go back to reading dual language news for reinforcement and further development returning to foreign language only news with a deeper understanding By going back to the same old news you are going over words word patterns and passages with which you already have a certain familiarity The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way even though the news may seem a little dated The aim of informing the reader about actual news is secondary especially given that the content will become less current and less relevant over time If you are having trouble with the level of difficulty in the text a suggested path for learning languages is as follows Familiarise yourself with a basic language instruction book or re read the one you have Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called Spanish Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic Spanish book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable Spanish text a simple novel a Spanish news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial

financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books Revista Digital Internacional de Psicología y Ciencia Social | Vol. 1 | Num. 2 | 2015 Arturo Silva-Rodríguez | Editor General,2015-12-09 En este contexto mundial respecto a la manera de generar conocimiento en el ámbito de la investigación científica se toma la decisión que la Revista Digital Internacional de Psicología y Ciencias Sociales ampliar su enfoque y dejar atrás la especialización en que una gran cantidad de revistas científicas invierten sus esfuerzos Algunas de las revistas orientadas hacia la especialización no solo hacia una disciplina sino más reduccionistamente hacia una temática han olvidado que la difusión y divulgación del conocimiento científico es una empresa que demanda comprender e interpretar las acciones humanas de los científicos con la finalidad de movilizarlos hacia objetivos comunes y predeterminados en donde no tienen cabida las verdades reveladas a la que los sacerdotes magos políticos e iluminados recurren Ante este panorama se decidió alejar a la Revista Digital Internacional de Psicología y Ciencia Social de la alta especialización y publicar artículos en un amplio rango de campos científicos tal y como se declara en su misión puesto que se pretende difundir los avances en la producción científica y tecnológica en los campos de la psicología a las ciencias sociales de la salud las ingenierías y las humanidades para fomentar generar y desarrollar el conocimiento transdisciplinario entre las distintas disciplinas que comprenden al campo de estudio de las ciencias sociales y de la salud y de las ingenierías y de las humanidades El entorno transdisciplinario abre las puertas a la publicación de contribuciones científicas en cualquier campo de conocimiento siempre y cuando sean temas relacionados con la forma en que el ser humano aprende enseña y usa la tecnología para hacer un mundo más comprensible y sustentable
