Christology addresses the questions that Christology currently faces and or will face in the future in 12 topics The book
consists of two parts In the first part Kim deals with five topics related to traditional Christology while in the second part he
wrestles with seven topics related to issues of Christology The twenty first century is a challenging time for Christianity
Many in our age are asking what Jesus Christ means in various dimensions of history culture nature and even beyond the
Earth Changes in values worldviews and views of the universe are forming a new zeitgeist Dong Kun Kim argues that ways of
understanding Christ should change accordingly for a Christology that fails to communicate meaningfully with the times is
void of vitality Postmodernism dehistoricization and life post ideology multiculturalism multiple religions and above all the
rapid development of the natural sciences pose a serious challenge to traditional Christology Who is Christ in the age of an
infinite cosmos How do daily human life social devotion and praxis relate to salvation How can we discuss salvation history in
an era post history Where does Christ stand in the public sphere Can the Chalcedonian definition of the two natures of Christ
true God and true human being encompass nature and the cosmos would a third nature of Christ be necessary Will the
cyborg which may appear in the near future be the object of Christ s salvation If scientific determinism becomes popular in
the future will the basis of faith in Christ lose ground If intelligent life exists in the universe what does Christ mean to such
life This book provides innovative answers to these questions in an academic context **Cumulative List of Organizations**
