Mining Tycoons in the Age of Empire, 1870-1945 Raymond E. Dumett, 2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world s rich Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals their business interests the technologies they employed and the national and international political considerations under which they operated Furthermore this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked particularly the often long lasting impact on indigenous populations the

environment transport links and economic development By approaching the subject matter through this stimulating mix of cultural social economic business and colonial history many intriguing and thought provoking conclusions are reached that will reward any scholars with an interest late nineteenth and early twentieth century history

Politics, Labor, and the War on Big Business David R. Berman, 2012-07-15 Politics Labor and the War on Big Business details the rise fall and impact of the anticorporate reform effort in Arizona during the Progressive reform era roughly 1890 1920 Drawing on previously unexamined archival files and building on research presented in his previous books author David R Berman offers a fresh look at Progressive heritage and the history of industrial relations during Arizona s formative period In the 1890s once heavily courted corporations had become in the eyes of many outside money interests or beasts that exploited the wealth of the sparsely settled area Arizona s anticorporate reformers condemned the giant corporations for mistreating workers farmers ranchers and small business people and for corrupting the political system During a thirty year struggle Arizona reformers called for changes to ward off corporate control of the political system increase corporate taxation and regulation and protect and promote the interests of working people Led by George W P Hunt and progressive Democrats Arizona s brand of progressivism was heavily influenced by organized labor third parties and Socialist activists As highly powerful railroad and mining corporations retaliated conflict took place on both political levels and industrial backgrounds sometimes in violent form Politics Labor and the War on Big Business places Arizona s experience in the larger historical discussion of reform activity of the period considering issues involving the role of government in the economy and the possibility of reform topics highly relevant to current debates

Radicalism in the Mountain West, 1890-1920 David R. and political scientists an unprecedented view into the region's radical past **Electoral Reform and National Security**

in Japan Amy Catalinac, 2016-01-25 Japan is the third largest economy in the world and a key ally of the United States Yet the determinants of Japanese security policy are not well understood The question of why Japan never sought the independent military capabilities that would be commensurate with its economic power has puzzled scholars of international relations for decades Applying new tools for the quantitative analysis of text to a new collection of 7 497 Japanese language election manifestos used in elections between 1986 and 2009 this book argues that the electoral strategies politicians in the ruling party were forced to adopt under Japan's old electoral system made it extraordinarily difficult for them to focus on security issues and to change security policy It was only when their electoral strategies shifted after electoral reform in 1994 that these same politicians became able to pay attention and change security policy **States of Belonging** Tomas R.

Jimenez, Deborah J. Schildkraut, Yuen J. Huo, John F. Dovidio, 2021-11-15 Political turmoil surrounding immigration at the federal level and the inability of Congress to pass comprehensive immigration reform have provided an opening for state and local governments to become more active in setting their own immigration related policies States largely dictate the resources institutions and opportunities immigrants can access who can get a driver's license or attend a state university what languages are spoken in schools and public offices how law enforcement interacts with the public and even what schools teach students about history In *States of Belonging* an interdisciplinary team of immigration experts Tom's R Jimenez Deborah J Schildkraut Yuen J Huo and John F Dovidio explore the interconnections among immigration policies attitudes about immigrants and immigration and sense of belonging in two neighboring states Arizona and New Mexico with divergent approaches to welcoming newcomers Arizona and New Mexico are historically and demographically similar but they differ in their immigration policies Arizona has enacted unwelcoming policies towards immigrants restricting the access of immigrants to state resources social services and public institutions New Mexico is more welcoming actively seeking to protect the rights of immigrants and extending access to state resources and institutions The authors draw on an original survey and in depth interviews of a cross section of each state's population to illustrate how these differing approaches affect the sense of belonging not only among immigrants but among the U S born as well Respondents in Arizona regardless of whether they were foreign or native born or their ethno racial background agreed that the state is unwelcoming to immigrants and they pointed to Arizona's restrictive policies as the primary factor The sense of rejection perceived by Latinos in Arizona including the foreign born and the U S born was profound They felt the effects of administrative and symbolic exclusions of the state's unwelcoming policies as they went about their daily lives New Mexico's more welcoming approach had positive effects on the Latino immigrant population and these policies contributed to an increased sense of belonging among U S born Latinos and U S born whites as well The authors show that exposure to information about welcoming policies is associated with an improved sense of belonging across most population groups They also find that the

primary dividing line when it came to reactions to welcoming policies was political not ethno racial Only self identified Republicans Latino as well as white showed reduced feelings of belonging States of Belonging demonstrates that welcoming policies cultivate a greater sense of belonging for immigrants and other state citizens suggesting that policies aimed at helping immigrants gain a social economic and political foothold in this country can pay a broad societal dividend A Government by the People Thomas Goebel,2003-04-03 Between 1898 and 1918 many American states introduced the initiative referendum and recall known collectively as direct democracy Most interpreters have seen the motives for these reform measures as purely political but Thomas Goebel demonstrates that the call for direct democracy was deeply rooted in antimonopoly sentiment Frustrated with the governmental corruption and favoritism that facilitated the rise of monopolies advocates of direct democracy aimed to check the influence of legislative bodies and directly empower the people to pass laws and abolish trusts But direct democracy failed to achieve its promises corporations and trusts continued to flourish voter turnout rates did not increase and interest groups grew stronger By the 1930s it was clear that direct democracy favored large organizations with the financial and organizational resources to fund increasingly expensive campaigns Recent years have witnessed a resurgence of direct democracy particularly in California where ballot questions and propositions have addressed such volatile issues as gay rights and affirmative action In this context Goebel s analysis of direct democracy s history evolution and ultimate unsuitability as a grassroots tool is particularly timely *Electoral Reform at Work* Philip Salmon,2002 This book charts the political transformation of Britain that resulted from the Great Reform Act of 1832 It argues that this extensively debated parliamentary reform aided by the workings of the New Poor Law 1834 and Municipal Corporations Act 1835 moved the nation far closer to a modern type of representative system than has previously been supposed Drawing on hitherto neglected local archives and the records of election solicitors Dr Salmon demonstrates how the Reform Act s practical details far from being mere small print had a profound impact on borough and county politics Combining computer assisted electoral analysis with traditional methods he traces the emergence of new types of voter partisanship and party organisation after 1832 and exposes key differences between the parties which resulted in a remarkable national recovery by the Conservative party In passing he provides important new perspectives on issues such as MPs relations with their constituents the expense and culture of popular politics after 1832 the electoral impact of railway development and the role of deference voting in the counties Dr PHILIP SALMON is Editor of the 1832 1945 House of Commons project at the History of Parliament
