

Women and the 1951 Refugee Convention: Fifty Years of Seeking Visibility

NAHLA VALJI

Abstract

The refugee regime, built on the 1951 Convention relating to the Status of Refugees, has long excluded women from the international right to protection from persecution. The gender-blind parameters of the Convention have been exacerbated by the same qualities in the international legal system of which it is a part: state practices toward asylum-seekers, and the dichotomous construction of the refugee regime as a whole, which has produced and reproduced victimizing identities of refugee women. Advances today, such as the adoption of gender guidelines in a number of states, have been more symbolic in effect than transforming. New policy paths need to be evaluated to ensure that the next half-century of refugee protection does not duplicate the inequalities of the past.

Résumé

Le régime juridique encadrant la protection des réfugiés, bâti sur la Convention des Nations Unies de 1951 relative au statut des réfugiés, a longtemps servi à priver les femmes du droit international de protection contre la persécution. Les paramètres de la Convention, qui sont indifférents aux spécificités de genre, ont été intensifiés par les mêmes qualités se trouvant dans le régime juridique international dont elle fait d'ailleurs partie, par le traitement réservé aux demandeurs d'asile par les États et par la structure dichotomique du régime de la protection des réfugiés en général qui a produit et reproduit pour les femmes des identités de victimes. Les progrès que l'on peut voir aujourd'hui, tel que l'adoption par un certain nombre de pays de programmes de sensibilisation aux spécificités de genre, sont plutôt symboliques et n'apportent pas de transformations réelles. Conséquemment, pour l'avenir, il

importe d'examiner de nouvelles initiatives en matière de politiques à suivre afin de s'assurer que le prochain demi-siècle de la protection des réfugiés ne perpétue pas les inégalités du passé.

Sex-specific violence and discrimination has never been treated with the same seriousness as other human rights abuses . . . If a person is murdered because of his or her politics, the world justifiably responds with outrage. But if a person is beaten or allowed to die because she is female, the world dismisses it as cultural tradition.

—Lori Heise
Crimes of Gender

Until very recently, if one spoke of domestic violence within mainstream refugee scholarship, it could safely be assumed that the reference was to the internal security concerns of a state—perhaps fears of domestic clashes in the wake of large flows of migration. One of the last actions of outgoing U.S. Attorney General Janet Reno was to overturn a 1999 Board of Immigration Appeals decision to deny political asylum to a Guatemalan woman who had been persecuted relentlessly at the hands of an abusive husband. The decision did not grant asylum, but rather ensured that the case was held over until new regulations, currently before the Department of Justice, can be decided upon.¹ If approved, the new regulations will facilitate the case of women fleeing gender-specific or gender-based persecution, including that of domestic violence.²

The last decade has seen a number of such advances in the policies of industrialized states, as increasing awareness

Refugee Convention At Fifty:

The Refugee Convention at Fifty Joanne van Selm, 2003-01-01 The year 2001 marked the fiftieth anniversary of the Convention Relating to the Status of Refugees The Refugee Convention at Fifty is a commemorative volume but it is one that points toward a future that will see a continued need for refugee protection The volume performs a much needed task for the current era it carefully examines this key legal text which impacts not only the law but also the politics and sociology of forced migration Joanne van Selm and her coeditors have collected essays by scholars from a wide range of disciplines NGO staff members international organization professionals and national level policy makers who discuss the impact of this legal document on forced migrants the states they migrate from and to and the societies they join and leave behind Sub themes covered include the potential for solidarity between states in ensuring that legal and political commitments are upheld regional approaches to refugee protection and displacement and the human and social consequences of forced migration for those covered by or excluded from refugee protection The geographic and disciplinary spread of the book is unparalleled and The Refugee Convention at Fifty sets for the contentious and critical study of refugees the high standards for scholarship and innovative thinking that will serve as precedent for future policy making and implementation in the field

The Refugees Convention 50 Years on Susan Kneebone, 2018-04-27 This title was first published in 2003 The authors of the essays in this collection all internationally recognised refugee scholars and practitioners look at the controversial hot topic of refugee rights They consider whether 50 years after its agreement the Refugees Convention can provide an adequate framework for protection In particular the authors address the effect of globalization upon the human rights of asylum seekers and refugees the efficacy of the Convention as an instrument of international law the role of the UNHCR whether NGOs are effective instruments for change and nationality and citizenship issues They also consider alternatives and options for solutions to the global refugee problem

Refugee Law's Fact-Finding Crisis Hilary Evans Cameron, 2018-05-10 At a time when many around the world are fleeing their homes seeking refugee protection has become a game of chance Partly to blame is the law that governs how refugee status decision makers resolve their doubts This long neglected branch of refugee law has been growing in the dark with little guidance from the Refugee Convention and little attention from scholars By looking closely at the Canadian jurisprudence Hilary Evans Cameron provides the first full account of what this law is trying to accomplish in a refugee hearing She demonstrates how a hole in the law's normative foundations is contributing to the dysfunction of one of the world's most respected refugee determination systems and may well be undermining refugee protection across the globe The author uses her findings to propose a new legal model of refugee status decision making

Implementation and World Politics Alexander Betts, Phil Orchard, 2014 A significant amount of International Relations scholarship examines the role of international norms in world politics Existing work though focuses mainly on how these norms emerge and the process by which governments sign and ratify them In conventional accounts the story ends there Yet this tells us very little about the

conditions under which these norms actually make any difference in practice When do these norms actually change what happens on the ground In order to address this analytical gap the book develops an original conceptual framework for understanding the role of implementation in world politics It applies this framework to explain variation in the impact of a range of people centred norms relating to humanitarianism human rights and development The book explores how the same international norms can have radically different effects in different national and local contexts or within particular organizations and in turn how this variation can have profound effects on people's lives How do international norms change and adapt at implementation Which actors and structures matter for shaping whether implementation actually takes place and on whose terms And what lessons can we derive from this for both International Relations theory and for international public policy makers Collectively the chapters explore these themes by looking at three different types of norms treaty norms principle norms and policy norms across policy fields that include refugees internal displacement crimes against humanity the use of mercenaries humanitarian assistance aid transparency civilian protection and the responsibility to protect

Accessing Asylum in Europe Violeta Moreno-Lax, 2017-09-21 Europe is currently experiencing a refugee crisis demonstrated by millions of displaced people unseen since World War II This book examines the interface between the EU's response to irregular flows in particular the main extraterritorial border and migration controls taken by the Member States and the rights asylum seekers acquire from EU law Remote control techniques such as the imposition of visas fines on carriers transporting unsatisfactorily documented third country nationals and interception at sea are investigated in detail in a bid to assess the impact these measures have on access to asylum in the EU The book also thoroughly analyses the rights recognised by the EU Charter of Fundamental Rights to persons in need of international protection inclusive of the principle of non refoulement the right to leave any country including one's own the right to asylum and the right to remedies and effective judicial protection The fundamental focus of the book is the relationship between the aforementioned border and migration controls and the rights of asylum seekers and most importantly how these rights should limit the scope of such measures and the ways in which they are implemented The ultimate goal is to conclude whether the current series of extraterritorial mechanisms of pre entry vetting is compatible in EU law with the EU rights of forced migrants

Reflections on Camps - Space, Agency, Materiality Antje Senarclens de Grancy, Heidrun Zettelbauer, 2019-06-17 Camps as a global and ubiquitous mass phenomenon of the present and a flexible isolation tool for against specific socially politically or ethnically defined groups are at the centre of current policies and societal debates In the present volume the authors explore camps as cultural spaces in a broad sense and deal with their complex dimensions as sites of the Modern They examine camp spaces and their social configurations physical architectural qualities symbolic functions as well as cultural representations in an intent to define the inscribed ambivalences inconsistencies and paradoxes of the phenomenon Positioned within different disciplinary contexts Contemporary History Visual Studies Architectural History Refugee and Gender Studies the assembled articles present a wide range of understandings and approaches to space materiality and the relations between governance and agency The contributors stress the entanglement of social structures cultural discourse institutionalisation individual perception and appropriation They show how the issue of camps can serve as cross sectional matter for researchers in different fields in Cultural Theory and Contemporary History

Entangled Asylum in the Nordic Region Sarah Scott Ford, 2025-09-18 What happens when international human rights norms confront the practical realities of asylum decision making This book offers a bold examination of how institutional dynamics and human rights oversight shape the intricate mechanisms behind asylum adjudication By framing asylum law as an entangled regime the author uncovers how national decision makers interpret apply and contest norms of national international and institutional origin offering invaluable insights into the evolving landscape of migrants rights Through this socio legal lens it focuses on the Nordic countries a region with a long history of compliance but increasingly marked by anti immigrant politics and policy experimentation As political pressures bear down against decades of rights focused legal consolidation a critical testing ground emerges where international law faces some of its most rigorous challenges

Gendering the International Asylum and Refugee Debate J. Freedman, 2015-06-23 This revised and updated 2nd edition of Freedman s hard hitting study aims to remedy the current lack of gender specific analyses of asylum and refugee issues It provides a comprehensive account of the situation of women in global forced migration and explains the ways in which women s experiences are shaped by gendered relations and structures Let Me Be a Refugee Rebecca Hamlin, 2014-08-19 International law provides states with a common definition of a refugee as well as guidelines outlining how asylum claims should be decided Yet even across nations with many commonalities the processes of determining refugee status look strikingly different This book compares the refugee status determination RSD regimes of

three popular asylum seeker destinations the United States Canada and Australia Though they exhibit similarly high levels of political resistance to accepting asylum seekers refugees access three very different systems none of which are totally restrictive or expansive once across their borders These differences are significant both in terms of asylum seekers experience of the process and in terms of their likelihood of being designated as refugees Based on a multi method analysis of all three countries including a year of fieldwork with in depth interviews of policy makers and asylum seeker advocates observations of refugee status determination hearings and a large scale case analysis Rebecca Hamlin finds that cross national differences have less to do with political debates over admission and border control policy than with how insulated administrative decision making is from either political interference or judicial review Administrative justice is conceptualized and organized differently in every state and so states vary in how they draw the line between refugee and non refugee

Legitimising Rejection Sara Ellen Davies,2008 This book examines Southeast Asia s rejection of international refugee law through extensive archival analysis and argues that this rejection was shaped by the region s response to its largest refugee crisis in the post 1945 era the Indochinese refugee crisis from 1975 1996 *Global Migration* K. Immigration today evokes passionate debates over questions of national identity state sovereignty and citizenship Even as capital goods and services flow easily over national boundaries human beings are subjected to intense scrutiny and resistance when crossing borders In this collection of essays distinguished scholars probe the challenges and opportunities that global migration presents for individuals states and societies grappling with questions of identity belonging and citizenship Multidisciplinary in scope the book demonstrates how forced and voluntary migrations intersect with global politics from economic and environmental crises to human rights and security *Global Refugee Crisis* Mark

Gibney,2010-09-16 This book documents the current global refugee crisis and examines the interrelated factors of immigration enforcement international human rights law political violence and refugee protection There are two disparate components to the global refugee crisis first there are about 46 million refugees and Internally Displaced Persons IDPs most of whom are struggling to survive in the poorest and most violent countries in the world and second our interpretation of international human rights law allows this state of affairs to worsen Refugee protection has been a longstanding policy that ostensibly protects victims of human rights violations from other countries In actuality protection is largely negated by systematic efforts by industrialized states to reduce the number of refugees arriving at the borders This book provides a comprehensive examination of this worldwide problem and rejects the idea that the majority of asylum seekers abuse the system to gain entrance into the country *Sa'udi Policies towards Migrants and Refugees* Joseph A. Kéchichian,Fahad Alsharif,2021-09-22 A Sacred Duty sets out the Kingdom s policy toward the global issue of migrants and refugees with special emphasis directed toward Muslim societies Discussion focuses on refugee communities currently living in Saudi Arabia some of which migrated due to war forced displacement environmental catastrophe and economic hardship Some

migrants have come from bordering countries such as Iraq and Yemen others reached the Arabian Peninsula from Africa and Asia All have been welcomed and cared for though settlement conditions repatriation and deportation circumstances were not always ideal Inevitably and mirroring experience elsewhere in the world there are undeniable gulfs between policies and practices Policy shortcomings are measured against the substantive assistance planks that Riyadh espouses including providing financial aid to refugees in third countries over and above United Nations appeals These acts are done without prejudice and mostly without publicity Aid to the needy is justified by religious obligations as well as on humanitarian grounds Saudi Arabia s aid contributions have generally been either overlooked or dismissed and the religious foundations of their commitment to displaced populations has been negatively contrasted against human rights based commitments espoused by Western states and institutions Sa udi Policies Towards Migrants and Refugees addresses these concerns filling a key gap in the literature on a vital policy topic The book refutes notions that the country discourages open research on sensitive topics and further dispels the prejudiced idea of a society closed to any kind of external influence Saudi Arabia s granting of hospitality to refugees reinforces historic tribal and universal norms in contrast to misplaced notions of hostility toward Western standards which in the case of migrants and refugees has seen the application of confused and alarming standards of behaviour by a plethora of Western states Published in conjunction with the King Faisal Center for Research and Islamic Studies KFCRIS *Refugees and Rights* Mary Crock,2017-05-15 Forced migration is both as ancient as human life on earth and a relatively new subject of interest for human rights scholars This volume continues the discussion from *Migrants and Rights* to focus attention on refugees victims of trafficking and others who cross borders seeking protection from anthropogenic or natural disasters The opening essays provide historical and conceptual overviews of rights to freedom of movement and asylum and links between human rights and refugee law Articles on the principle of non refoulement in international law explore the occasional disjuncture between the individual s right to protection and the State s rights to protect its national interests The refugee s rights to due process and the substance of entitlements at law are explored in essays that range across administrative processes social and cultural rights including family reunion detention and the right of return There follow four essays that address sexual orientation and refugee rights refugees and disability rights human rights and persons displaced by climate change disasters and the rights of victims of human trafficking The volume concludes with work reflecting on the rights discourse outside of traditional Western theatres These cover Africa Kenya India South America Brazil and the Asia Pacific Indonesia and Papua New Guinea
