 Study on Koya tribe of Malkangiri District in Orissa State India **Pakistan's National Security Approach and
 Post-Cold War Security** Arshad Ali,2021-03-31 This book analyzes the paradox that despite being a national security state
 Pakistan has become even more insecure in the post Cold War era It provides an in depth analysis of Pakistan s foreign and
 security policies and their implications for the overall state and society The book identifies the immediate security challenges
 to Pakistan and charts the distinctive evolution of Pakistan s national security state in which the military elite became the
 dominant actor in the political sphere of government during and after the Cold War period By examining the national security
 state militarization democracy and security proxy wars and the hyper military industrial complex the author illustrates how
 the vanguard role of the military created considerable structural sociopolitical economic and security problems in Pakistan
 Furthermore the author argues that the mismatch between Pakistan s national security stance and the transformed security
 environment has been facilitated and sustained by the embedded interests of the country s military industrial complex A
 critical evaluation of the role of the military in the political affairs of the government and how it has created structural
 problems for Pakistan this book will be of interest to academics in the field of South Asian Politics and Security South Asian
 Foreign and Security Policy International Relations Asian Security and Cold War Studies Refugee Management Sumita
 Das,2005-01-01 South Asian Security Sagarika Dutt,Alok Bansal,2013-06-17 The South Asian security complex refers to
 security interdependencies between the states in the region and also includes the effect that powerful external actors such as
 China the US and Russia and geopolitical interests have on regional dynamics This book focuses on the national securities of
 a number of South Asian countries in order to discuss a range of issues related to South Asian security The book makes a
 distinction between traditional and non traditional security While state centric approaches such as bilateral relations
 between India and Pakistan are considered to be traditional realist approaches to security the promotion of economic
 environmental and human security reflect global concerns liberal theories and cosmopolitan values The book goes beyond
 traditional security issues to reflect the changing security agenda in South Asia in the twenty first century and is a useful
 contribution to studies on South Asian Politics and Security Studies **Globalization and the National Security State**
 Norrin M. Ripsman,T.V. Paul,2010-03-18 In the past two decades many have posited a correlation between the spread of
 globalization and the decline of the nation state Moreover such scholars have maintained that the increasing
 interdependence between countries means that nations are no longer the sole providers of their territorial security They
 point to the increasing role of transnational institutions NGOs and regional security agreements role in national defense In
 Globalization and the National Security State T V Paul and Norrin Ripsman argue that this thesis has not been borne out by
 events Despite the effects of globalization weak and powerful states have continued to pursue traditional nation state

Building a People-oriented Security Community the ASEAN Way Alan Collins, 2013 ASEAN has declared its intention to create a security community in Southeast Asia that is people orientated This book evaluates ASEAN s progress and in doing so examines three matters of concern The book firstly looks at the importance of constitutive norms to the workings of security communities by identifying ASEAN s constitutive norms and the extent to which they act as a help of hindrance in establishing a security community It then moves on to how ASEAN has interpreted people orientated as empowering civil society organisations to be community stakeholders The book discusses the uncertainty between how ASEAN envisages their role and the role they themselves expect to have Civil society actors are seeking to influence what sort of community evolves and their ability to interact with the state elite is evaluated to determine what interpretation of people oriented is likely to emerge Thirdly in order to make progress ASEAN has sought to achieve cooperation among its member states in functional areas The book examines this interest in functional cooperation through case studies on human rights HIV AIDS and disaster management By discussing the notion of ASEAN being people orientated and how it engages with the people the book provides important insights into what type of community ASEAN is building as well as furthering our understanding on security communities more broadly
