disciplines and go beyond classical geographic divisions in order to map social spaces and networks of actors involved in the production and circulation of gender related repertoires. Last the book grasps circulatory processes and entangled social phenomena which are usually subject to disciplinary and thematic divisions separating collective action and public action development aid and feminism law and international relations. Focused on collective and individual experiences within women's organizations activist careers unstable mobilizations public policies temporalities the chapters reveal the mechanisms through which these arrangements are made and shed light on strategies deployed by actors rooted in specific social and political contexts. Those are the central questions asked throughout this book alongside a discussion on the result when religion strengthened by culture is used as a political tool to access moral and social power. Cultural and religious messages often form the basis of decisions laws and programs made in politics and have a direct effect on society in general and on women and gender.
