Right Medicine How To Make Health Care Reform Work Today:

The Price of Life Robert H. Blank, 1997-02-14 How can America become a healthy nation Blank asks when it is beset by poverty illiteracy and crime No new health care system can succeed unless or until the links between social problems and sickness are understood and addressed On the national level Blank calls for a more aggressive redistribution of social and public health resources to the poor and elderly at the same time he describes sanctions that would encourage individuals to be more careful about their own health and limit or change destructive behavior

President (1989-1993 : Bush),1990 **The Right Medicine** David Cundiff,Mary Ellen McCarthy,2012-12-06 When Dr David Cundiff called me with a proposal to help research and write The Right Medicine I was intrigued but skeptical His ideas for reform of the US health care system were visionary radical and highly original but would they work As a Wall Street analyst and long time student of the health care system I had my doubts had read David's book on hospice care Euthanasia Is Not the Answer and was impressed And I had recently witnessed the slow death of my grandmother from the complications of Alzheimer's disease Despite the fact that she was and had been suffering for years and despite the fact that her care was an extraordinary emotional and financial burden nursing home administrators and physicians encouraged one last ditch treatment after another pulling her back each time from the brink of what would have been a merciful death I knew that David was correct in his contention that hospice care and a more sparing application of high technology medicine were major keys to improving health care I also realized after a decade of analyzing the health care industry that a government funded system along the lines of Canada's was probably the only way to rein in rampant inflation and provide universal coverage But David had other ideas too He argued that preventive care could dramatically cut both the incidence and costs associated with the most common causes of illness in America today *Comparative Health Policy, Second Edition* Robert H. Blank,Viola Burau,2007-07-15 This wide ranging text assesses the extent to which policy problems and responses in different countries have common causes or spring from specific national circumstances systematically comparing Australia Germany Japan New Zealand the Netherlands Sweden Singapore the UK and the US but ranging more widely as appropriate The fully revised second edition includes an additional chapter on the politics of health and an increased focus on the individual patient in different systems Guide to U.S. Health and Health Care Policy Thomas R.
