The EU's Approach to Conflict Analysis in Integrated Conflict Interventions Kieran Doyle, Sean Mc Gearty, 2025-02-26 This book aims to critically examine the European Union s peacebuilding approach focusing on integrated conflict analysis suggesting a new model for conflict analysis within the EU Common Security and Defence Policy It explores recent interventions while also addressing the need for improved conflict sensitivity It argues that greater self reflexivity and deeper reflection on motivations for intervention plays a critical role within multilateral efforts to address implementation gaps encourage greater analytical capacity suggest categories of partnership interaction with other actors and give centrality to the EUs integrated approach reorienting away from the growing emphasis on securitisation It is aimed at policy makers and practitioners asking questions of contemporary analysis frameworks which validate causal

pathways and currently provide the basis of the international peace architecture Anatomy of Violence Belachew Gebrewold, 2016-04-15 Violence connects people whether directly or indirectly financing violence or by fighting the war against terror Violent incidents are often deeply rooted in structures and systems With a focus on Africa this study examines three structurally interdependent conflict systems to highlight the complexities of transboundary and transregional conflict systems The systemic approach to studying violence is highly suitable for courses on security peace and conflict political sociology and African politics You will come away from the book with a better understanding of the underlying currents of violent conflicts and thus a clearer idea of how they might be handled The East African Community Jean-Marc Trouille, Helen Trouille, Penine Uwimbabazi, 2021-05-24 This book brings together African and European experts from a variety of disciplines to examine the origins and current state of the East African Community EAC Over the course of the book the authors analyse the rich tapestry of intraregional relations in East Africa the EAC's similarities with the European Union and the future challenges faced by the organisation Widely regarded as the most advanced and successful regional integration scheme in Africa the EAC is an intergovernmental organisation consisting of Burundi Kenya Rwanda Tanzania and Uganda and since 2016 South Sudan It is the oldest among Africa's regional economic communities and among the continent's most promising growth areas with a long history of integration punctuated by several false starts and traumas that have profoundly affected its body politics When initially set up the EAC model bore a striking resemblance to the process undergone by the European Union Now as the EAC continues to establish its own identity this book argues that whilst Europe's history may provide useful insights for EAC member states the EAC experience could in turn also offer lessons for the European Union Covering key dimensions such as integration co-operation development trade and investments this book highlights the intricate and complex relationships between East African states and it will be of interest to researchers working on economic development international relations peace and security and African studies *Conflict and the Refugee Experience* Assefaw Bariagaber, 2016-05-23 One of the most serious threats to peace security and the sovereignty of nations in the post Cold War era is population migration A particularly volatile form of this threat is the global refugee problem and nowhere is this issue more severe than in Africa This book offers a comprehensive analysis of refugee experience in the Horn of Africa It includes an examination of the dynamics of flight from the country of origin settlement in exile and repatriation to the country of origin Such an integrative approach sets this book apart from other studies and will serve as a reader for courses on ethno national conflicts migration international politics security and African politics

Intrastate Conflict in the Horn of Africa Bekele Bengessa Hirbe, 2020-07-15 This book identifies the most important sources of intra state conflict in the individual countries of the Horn of Africa It explores how serious the threats are to the security of the states and their people the region and it identifies the appropriate conflict resolution approach Hirbe indicates that the political marginalization and discrimination by the dominant ethnic group in power against the members of

disadvantaged ethnic groups is the most important source of intra state conflict His findings demonstrate that the authoritarian states in the Horn of African countries are the major source of threats to individual security Moreover the security of the states in the region are closely interlinked their national securities cannot be considered apart from one another The book notes that the realist militaristic zero sum game conflict resolution approach dominates the behavior of most parties involved in intra state conflict in the Horn of Africa However different conflict resolution approaches could be effective and appropriate to resolve the intra state conflict in each individual country the traditional bottom up approach in Somalia Power Sharing through the Ethnic federalism in Ethiopia and Encouraging Good Governance in Eritrea and Djibouti
