River Out of Eden Shirley Seifert, 1940 **River Out of Eden** Richard Dawkins, 1996 The Number One SUNDAY TIMES bestseller A fascinating explanation of how evolution works from bestselling author Richard Dawkins The river of Dawkins's title is a river of DNA flowing through time from the beginning of life on earth to the present and onwards Dawkins explains that DNA must be thought of as the most sophisticated information system imaginable Life is just bytes and bytes of information he writes Using this perspective he describes the mechanisms by which evolution has taken place gradually but inexorably over a period of three thousand million years It is the story of how evolution happens rather than a narrative of what has actually happened in evolution He discusses current views on the process of human evolution including the idea that we all trace back to a comparatively recent African Eve and speculates that the information explosion that was unleashed on Earth when DNA came into being has almost certainly happened in other places in the universe *River Out of Eden* Jack Jones, 1979-01-01 *River Out of Eden* Richard Dawkins, 2008-08-04 How did the replication bomb we call life begin and where in the world or rather in the universe is it heading Writing with characteristic wit and an ability to clarify complex phenomena the New York Times described his style as the sort of science writing that makes the reader feel like a genius Richard Dawkins confronts this ancient mystery *A River Ran Out of Eden* James Vance 1924- Marshall, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *The Dragon Has Two Tongues* Glyn Jones, 2018-05-15 First published in 1968 The Dragon Has Two Tongues was the first book length study of the English language literature of Wales Glyn Jones 1905-95 was one of Wales's major English language writers of fiction and poetry and the book includes chapters dealing with the work of Dylan Thomas Caradoc Evans Jack Jones Gwyn Thomas and Idris Davies all of whom the author knew personally This first hand knowledge of the writers coupled with the shrewdness of Glyn Jones's critical comments established The Dragon Has Two Tongues as a classic and invaluable study of this generation of Welsh writers It also contains Glyn Jones's own autobiographical reflections on his life and literary career his loss and rediscovery of the Welsh language and the cultural shifts that resulted in the emergence of a distinctive English language literature in Wales in the early decades of the twentieth century This edition of The Dragon Has Two Tongues was edited by Tony Brown who discussed the book with Glyn Jones before his death in 1995 with unique access to the author's

Mega-Dams in World Literature Margaret Ziolkowski, 2024-04-15 Mega Dams in World Literature reveals the varied effects of large dams on people and their environments as expressed in literary works focusing on the shifting attitudes toward large dams that emerged over the course of the twentieth century Margaret Ziolkowski covers the enthusiasm for large dam construction that took place during the mid twentieth century heyday of mega dams the increasing number of people displaced by dams the troubling environmental effects they incur and the types of destruction and protest to which they may be subject Using North American Native American Russian Egyptian Indian and Chinese novels and poems Ziolkowski explores the supposed progress that these structures bring The book asks how the human urge to exploit and control waterways has affected our relationships to nature and the environment and argues that the high modernism of the twentieth century along with its preoccupation with development casts the hydroelectric dam as a central symbol of domination over nature and the power of the nation state Beyond examining the exultation of large dams as symbols of progress Mega Dams in World Literature takes a broad international and cultural approach that humanizes and personalizes the major issues associated with large dams through nuanced analyses paying particular attention to issues engendered by high modernism and settler colonialism Both general and specialist readers interested in human environment relationships will enjoy this prescient book

River Out of Eden Richard Dawkins, Malcolm Gladwell, 2009-07-01 Great middle greats fiction

God After Darwin 1E John Haught, 2021-11-28 Argues that both

evolutionism and creationism rely too heavily on notions of underlying order and design. Instead of focusing on the idea of novelty in human experience, novelty as a necessary component of evolution and as the essence of divine Mystery. In God After Darwin, John Haught argues that the ongoing debate between Darwinian evolutionists and Christian apologists is fundamentally misdirected; both sides persist in focusing upon an explanation of underlying design and order in the universe. Haught suggests that what is lacking in both of these competing ideologies is the notion of novelty, a necessary component of evolution and the essence of the unfolding of divine Mystery. He argues that Darwin's disturbing picture of life, instead of being hostile to religion as scientific skeptics and many believers have thought it to be, actually provides a most fertile setting for mature reflection on the idea of God. Solidly grounded in scholarship, Haught's explanation of the relationship between theology and evolution is both accessible and engaging.

Voices from the Edge Ruth O'Brien, 2004-01-15
Fear, rage, courage, discrimination: These are facts of everyday life for many Americans with disabilities. The Americans with Disabilities Act (ADA) has made working, traveling, and communicating easier for many individuals. But what recourse do individuals have when enforcement of the law is ambiguous or virtually nonexistent? And how will its changing definition affect individuals' lives as well as their legal actions in the future? What is life like in post-ADA America? *Voices from the Edge* seeks to challenge the mindset of those who would deny equal protection to the disabled while providing informative analysis of the intent and application of the ADA for those who wish to learn more about disability rights. Giving voice to the many types of discrimination, the disabled face at a small Southern College, in the Library of Congress, on a New York City sidewalk, while illustrating the personal stakes underlying legal disputes over the ADA, this collection offers unparalleled insight into the lives behind the law. Contributors: Joan Aleshire on disability and the eye of the beholder; Achim Nowak on disclosing HIV; C. G. K. Atkins on being an academic liability; Stephen Kuusisto on hope without the tenure lifeboat; Leonard Kriegel on wheelchairs vs. NYC sidewalks; John Hockenberry on trying one's luck at public transit; Joan Tollifson on a license to drive disabled; Shawn Casey O'Brien on the blue beacon of accessibility; Jean Stewart on sign language in the ER; Ruth O'Brien on everything you wanted to know about the ADA.

War and Peace Leo Tolstoy,2007-06-05 Leo Tolstoy's grand masterpiece a timeless saga of family love and loss in Russia surrounding the War of 1812 The greatest of all novelists what else can we call the author of *War and Peace* asked Virginia Woolf rhetorically and literary luminaries the world over have agreed with her The saga stands alone in its vast scope and minute detail its immense diversity and final unity Set in the years leading up to and culminating in Napoleon's disastrous Russian invasion the novel focuses upon an entire society torn by conflict and change Here is humanity in all its innocence and corruption wisdom and folly painful defeats and enduring triumphs Here is the seemingly effortless artistry of a master capable of portraying with equal power the clash of armies and the solitary anguish of the heart Here finally is a view of history and personal destiny that is perpetually modern Complete and Unabridged Translated by Ann Dunnigan Includes an Introduction by Pat Conroy And an Afterword by John Hockenberry
