**Human Rights and Political Dissent in Central Europe** Jakub Tyszkiewicz,2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies especially the US integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward Finally the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975 1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed This book will be of key interest to scholars and students of the history of communism post Soviet Russian and central and East European politics the history of human rights and democratization [Problems of Communism](#),1969

**The Balkans Since the Second World War** R. J. Crampton,2014-07-15 Since the collapse of Eastern European communism the Balkans have been more prominent in world affairs than at any time since before the First World War Crises in the area have led NATO to fire its first ever shots in anger whilst international forces have been deployed on a scale and in a manner unprecedented in Europe since World War Two An understanding of why this happened is impossible without some knowledge of the history of the area before the fall of communism of how the communists came to power and how they used their authority thereafter Covering the communist states of Albania Bulgaria Romania and Yugoslavia and including Greece Richard Crampton provides a highly readable introduction to that history one that will be read by journalists diplomats and anyone interested in the region and its impact on world politics today

**The Changing Face of Western Communism** David Childs,2015-07-30 This book first published in 1980 provides both a broad review and detailed analysis of the major issues that had been affecting the changing relations between Moscow and the other European Communist parties In discussing the Spanish Italian French and Scandinavian communist parties the individual contributors expose the weaknesses as well as the strengths of the parties and analyse the ideological and sociological roots This title will be of interest to students of politics

**Press, Propaganda and Politics** Rubén Jarazo Álvarez,Andrada Fatu-Tutoveanu,2014-08-11 This collective work aims to compare media and in particular cultural press in Francoist Spain and Communist Romania placing the two opposing paradigms in a common approach with the intention of identifying shared patterns and intricate connections between them but at the same time without ignoring their radical differences This comparison is performed both explicitly through several chapters focusing on the general methodological implications of such a comparison between Francoist Spain and Communist Romania in the development of totalitarian dictatorial propagandistic systems and implicitly by offering the academic frame to a series of case studies from both regimes The

contributors to this volume Spanish Anglo Saxon and Romanian scholars approach several aspects of media in relation to politics propaganda historical or social aspects in the two regimes based on their academic backgrounds history cultural studies media and literature The volume intends to suggest through its collection of general comparative or analytic chapters as well as through a new approach on two political and cultural phenomena otherwise studied as opposing paradigms the need for a larger debate on the potential of the approach to these phenomena in a common framework

**Samizdat, Tamizdat, and Beyond** Friederike Kind-Kovács, Jessie Labov, 2013-03-01 In many ways what is identified today as cultural globalization in Eastern Europe has its roots in the Cold War phenomena of samizdat do it yourself underground publishing and tamizdat publishing abroad This volume offers a new understanding of how information flowed between East and West during the Cold War as well as the much broader circulation of cultural products instigated and sustained by these practices By expanding the definitions of samizdat and tamizdat from explicitly political print publications to include other forms and genres this volume investigates the wider cultural sphere of alternative and semi official texts broadcast media reproductions of visual art and music and in the post 1989 period new media The underground circulation of uncensored texts in the Cold War era serves as a useful foundation for comparison when looking at current examples of censorship independent media and the use of new media in countries like China Iran and the former Yugoslavia

**Nationalism and Territory** George W. White, 2000 Why do nations come into conflict What factors lead to the horrors of ethnic cleansing This timely book offers clear eyed answers to these questions by exploring how national identity is shaped by place focusing especially on Serbia Hungary and Romania Moving beyond studies of nationalism that consider only the economic and geostrategic value of territory George W White shows that the very core of national identity is intimately bound to specific places Indeed nations define themselves in terms of spaces that have historical linguistic and religious meaning as Serbs have clearly demonstrated in Kosovo These territories are concrete expressions of a nationAls identity both past and present With his detailed analysis of the places that define national identity in Southeastern Europe White convincingly shows why territorial disputes so often escalate into war

*Cohesion and Conflict in International Communism* Peter Mayer, 2012-12-06 The current conflict which threatens the very existence of the inter national communist movement as a single coherent entity must be looked for in the roots of Marxian philosophy The

central concept of pre Leninist communism is contained in the notion of proletarian internationalism Yet the emergence of the communist party states has been squarely predicated on the requirements of single national states as viewed through the training and experience of the various communist leaders Thus the Soviet version has been shaped by the nationalism of Lenin Stalin and Khrushchev The only aberrant case the internationalism of Trotsky was doomed to failure The Chinese version of communism has as its root concepts the spirit of prolonged struggle against a superior enemy whose ultimate defeat is ensured through the dialectics of political growth The non communist societies are by definition decadent The movement came to power by exploiting the nationalism engendered within China by the Japanese invasion Its mass support was based on the peasantry although the transparent fiction of proletarian leadership was strictly maintained Further communism is a term which has lost its original encompassing definition Peking now narrowly defines it as policies consonant with the thought of Mao Tse tung Thus both the Soviet and the Chinese interpretation of communism are based on a concept which was anathema to the intellectual founders of the movement
