contributions of the Savannah College of Art and Design Fraser's Savannah in the New South presents a sophisticated consideration of an important vibrant southern metropolis Savannah's Midnight Hour Lisa L. Denmark, 2019 Savannah's Midnight Hour argues that Savannah's development is best understood within the larger history of municipal finance public policy and judicial readjustment in an urbanizing nation In providing such context Lisa Denmark adds constructive complexity to the conventional Old South New South dichotomous narrative in which the politics of slavery secession Civil War and Reconstruction dominate the analysis of economic development Denmark shows us that Savannah's fiscal experience in the antebellum and postbellum years while exhibiting some distinctively southern characteristics also echoes a larger national experience Her broad account of municipal decision making about improvement investment throughout the nineteenth century offers a more nuanced look at the continuity and change of policies in this pivotal urban setting Beginning in the 1820s and continuing into the 1870s Savannah's resourceful government leaders acted enthusiastically and aggressively to establish transportation links and to construct a modern infrastructure Taking the long view of financial risk the city municipal government invested in an ever widening array of projects canals railroads harbor improvement drainage because of their potential to stimulate the city's economy Denmark examines how this ideology of over optimistic risk taking rooted firmly in the antebellum period persisted after the Civil War and eventually brought the city to the brink of bankruptcy The struggle to strike the right balance between using public policy and public money to promote economic development while at the same time trying to maintain a sound fiscal footing is a question governments still struggle with today Civil War Savannah: Savannah, immortal city Barry Sheehy, Cindy Wallace, Vaughnette Goode-Walker, 2011 An epic iv volume history a city people that forged a living link between America past present Freedom Ship Marcus Rediker, 2025-05-13 A definitive sweeping account of the Underground Railroad's long overlooked maritime origins from a pre eminent scholar of Atlantic history and the award winning author of *The Slave Ship* As many as 100 000 enslaved people fled successfully from the horrors of bondage in the antebellum South finding safe harbor along a network of passageways across North America now known as the Underground Railroad Yet imagery of fugitives ushered clandestinely from safe house to safe house fails to capture the full breadth of these harrowing journeys many escapes took place not by land but by sea Deeply researched and grippingly told *Freedom Ship* offers a groundbreaking new look into the secret world of stowaways and the vessels that carried them to freedom across the North and into Canada Sprawling through the intricate riverways of the Carolinas to the banks of the Chesapeake Bay to Boston's harbors these tales illuminate the little known stories of freedom seekers who turned their sights to the sea among them the legendary abolitionist Frederick Douglass and Harriet Tubman one of the Underground Railroad's most famous architects Marcus Rediker one of the leading scholars of maritime history puts his command of archival research on full display in this luminous portrait of the Atlantic waterfront as a place of conspiracy mutiny and liberation *Freedom Ship* is essential reading for anyone looking to understand the complete story of one of North

America's most significant historical moments **Remaking Wormsloe Plantation** Drew A. Swanson, 2012-04 Why do we preserve certain landscapes while developing others without restraint Drew A Swanson's in depth look at Wormsloe plantation located on the salt marshes outside of Savannah Georgia explores that question while revealing the broad historical forces that have shaped the lowcountry South Wormsloe is one of the most historic and ecologically significant stretches of the Georgia coast It has remained in the hands of one family from 1736 when Georgia's Trustees granted it to Noble Jones through the 1970s when much of Wormsloe was ceded to Georgia for the creation of a state historic site It has served as a guard post against aggression from Spanish Florida a node in an emerging cotton economy connected to far flung places like Lancashire and India a retreat for pleasure and leisure and a carefully maintained historic site and green space Like many lowcountry places Wormsloe is inextricably tied to regional national and global environments and is the product of transatlantic exchanges Swanson argues that while visitors to Wormsloe value what they perceive to be an authentic undisturbed place this landscape is actually the product of aggressive management over generations He also finds that Wormsloe is an ideal place to get at hidden stories such as African American environmental and agricultural knowledge conceptions of health and disease the relationship between manual labor and views of nature and the ties between historic preservation and natural resource conservation *Remaking Wormsloe Plantation* connects this distinct Georgia place to the broader world adding depth and nuance to the understanding of our own conceptions of nature and history *African American Life in the Georgia Lowcountry* Philip Morgan, 2011-11-01 The lush landscape and subtropical climate of the Georgia coast only enhance the air of mystery enveloping some of its inhabitants people who owe in some ways as much to Africa as to America As the ten previously unpublished essays in this volume examine various aspects of Georgia lowcountry life they often engage a central dilemma the region's physical and cultural remoteness helps to preserve the venerable ways of its black inhabitants but it can also marginalize the vital place of lowcountry blacks in the Atlantic World The essays which range in coverage from the founding of the Georgia colony in the early 1700s through the present era explore a range of topics all within the larger context of the Atlantic world Included are essays on the double edged freedom that the American Revolution made possible to black women the lowcountry as site of the largest gathering of African Muslims in early North America and the coexisting worlds of Christianity and conjuring in coastal Georgia and the links with variations to African practices A number of fascinating memorable characters emerge among them the defiant Mustapha Shaw who felt entitled to land on Ossabaw Island and resisted its seizure by whites only to become embroiled in struggles with other blacks Betty the slave woman who in the spirit of the American Revolution presented a list of grievances to her master and S Quash the Arabic speaking Muslim who arrived on one of the last legal transatlantic slavers and became a head man on a North Carolina plantation Published in association with the Georgia Humanities Council *Charleston and Savannah* Thomas D. Wilson, 2023-02 Thomas D Wilson's *Charleston and Savannah* is the first comprehensive history of Charleston and Savannah

in a single volume that weaves together the influences and parallels of their intrinsic stories As two of the earliest English speaking cities founded in America Charleston and Savannah are among the nation s top historic sites Their historic characters which attract millions of visitors each year are each a rich blend of cultural environmental and socioeconomic elements Yet even with this popularity both cities now face a challenge in preserving their authentic historic character natural beauty and environmental quality Wilson charts the ebb and flow of the progress and development of the cities using various through lines running within each chapter constructing an overall character assessment of each Wilson charts the economic rise of these port cities beginning with their British foundations and transatlantic trade in the colonies through to their twentieth century economic declines and resurgences He examines the cultural and economic aspects of their Lowcountry landscapes and their evolution as progress and industrialization made their mark Employing both quantitative and qualitative methodologies in his comparisons of the two cities he considers their histories natural landscapes weather patterns economies demographics culture architecture city planning and infrastructure While each has its own civic and cultural strengths and weaknesses both are positioned as historically significant southern cities even as they assess aspects of their problematic pasts
