The Sextants of Beijing: Global Currents in Chinese History Joanna Waley-Cohen, 2000-04-17 A surprising survey of cosmopolitan China a civilization actively engaged with other cultures and societies **China's Quest for Global Order** Rosita Dellios, R. James Ferguson, 2012-12-13 The rise of China has become a ubiquitous and often menacing term in global politics China's Quest for Global Order From Peaceful Rise to Harmonious World by Rosita Dellios PhD and R James Ferguson PhD examines how China's leadership has responded to this depiction and the strategic approaches that have been developed to ameliorate threat perceptions Rather than simply reassuring others that its rise is peaceful China has taken proactive steps to reduce possible conflicts Beijing seeks to shape the emerging global governance order as both non threatening to itself and productive in transnational problem solving Borrowing from its own Confucian heritage to promote a harmonious world policy China's contribution to world order is likely to be more robust than the responsible stakeholder epithet upon which the West has pinned its collective hopes The book interprets China's quest for global order from Chinese perspectives old and new and provides the relevant philosophical and historical background to engage the reader in the ensuing debates The authors also contextualize Chinese concepts with those from contemporary international relations strategic studies and systems thinking Their resultant contributions to existing analyses include the notion of Confucian geopolitics and the interplay between strategic theatres of cooperation and protection **The Treasures Ships. Ming China on the seas: history of the Fleet that could conquer the world and vanished into thin air** Stefano Cariolato, 2017-12-18 In 1400 an immense Chinese fleet of hundreds of ships and tens of thousands of men sailed through the seas reaching Indonesia India Persia Arabia and Africa sent by a proud emperor to bring to the world the glory and the power of the Ming was commanded by the most famous of the Chinese admirals an eunuch named Zheng He The ships carried valuable books precious fabrics delicate and beautiful ceramics in addition to gold and silver destined for the princes of the visited countries and were taking back in China exotic merchandise to show at court with the ambassadors of the Asian world who prostrated themselves in submission for this reason they were called Treasures Ships The history and descriptions of the peoples met are presented based on the news collected by previous and following travellers as well as by the chroniclers who followed the fleet leaving a testimony of the voyages that had been accomplished Despite the fact that the surviving information is very limited this book narrates the missions of the Fleet of the Treasures between 1405 and 1433 attempting to reconstruct the routes likely to have been followed on the basis of the sea and wind conditions phased by the monsoon cycle and detected today with precision by the satellites After a thirty year long endeavour the Chinese retired from the sea cancelled the travels reports destroyed the ships renouncing to sail and remained helpless in face of the penetration of European Navies before and of the Japanese aggression afterward Today China is currently rebuilding a large fleet that is already carrying its weight in home and neighbouring waters and its flag in the oceans retracing the endeavour accomplished

600 years ago *China on the Sea* Zheng Yangwen, 2011-10-14 This volume challenges the Walled Kingdom perspective China reached out to the seas far more actively than historians have allowed while the maritime world shaped China Qing China in particular much more than the continental world It gave birth to and defined Chinese modernity **Anglo-Chinese Encounters Before the Opium War** Xin Liu, 2022-08-12 *Anglo Chinese Encounters Before the Opium War A Tale of Two Empires Over Two Centuries* studies the fascinating encounters between the two historic empires from Queen Elizabeth I's first letter to the Ming Emperor Wanli in 1583 to Lord Palmerston's letter to the Minister of China in 1840 Starting with Queen Elizabeth I's letter to the Chinese Emperor and ending with the letter from Lord Palmerston to the Minister of China just before the Opium War this book explores the long journey in between from cultural diplomacy to gunboat diplomacy It interweaves the most known diplomatic efforts at the official level with the much unknown intellectual interactions at the people to people level from missionaries to scholars from merchants to travelers and from artists to scientists This book adopts a novel mirror approach by pairing and comparing people texts commodities artworks architecture ideologies operating systems and world views of the two empires Using letters gifts and traded goods as fulcrums and by adopting these unique lenses it puts China into the world history narratives to contextualise Anglo Chinese relations thus providing a fresh analysis of the surviving evidence Xin Liu casts a new light on understanding the Sino centric and Anglo centric world views in driving the complex relations between the two empires and the reversals of power shifts that are still unfolding today The book is not intended for specialists in history but a general audience wishing to learn more about China's historical engagement with the world **East Asia at the Center** Warren I. Cohen, 2023-08-15 Long before the arrival of Western emissaries and powers East Asian peoples and states were deeply involved in world affairs In this sweeping account Warren I. Cohen explores four millennia of international relations from the vantage points of China Japan Korea and Southeast Asia Writing incisively and authoritatively for readers at all levels Cohen paints a broad but revealing portrait of East Asia's place in the world He defines the region's boundaries widely looking beyond China Japan and Korea to include Southeast Asia and extends the scope of international relations to consider the vital role of cultural and economic exchanges Cohen examines the system of Chinese domination in the ancient world the exchanges between East Asia and the Islamic world Chinese sea voyages to Arabia and East Africa and the emergence of a European defined international system He chronicles the new imperialism of the 1890s the ascendancy of Japan the trials of World War II the drama of the Cold War and the transformations of East Asian states toward the close of the twentieth century By showing that East Asia has often been preeminent on the world stage this book not only recasts the past but also adds crucial historical perspective on international politics today This second edition of *East Asia at the Center* features new material on the first decades of the twenty first century *The Expanding Roles of Chinese Americans in U.S.-China Relations* Peter Koehn, Xiao-Huang Yin, Xiao-huang Yin, 2015-02-12 This book addresses the historical and contemporary involvement of Chinese Americans from diverse walks of

life in U S China relations The contributors present new evidence and fresh perspectives on familiar and unfamiliar national and transnational networks including families businesspersons community newspapers students lobbyists philanthropists and scientists and consider the likely future impact of such contacts on the most important bilateral relationship at the start of the new millennium The volume makes a multidisciplinary contribution to understanding the extensive and vital roles and promise of Chinese Americans at this critical juncture in U S China relations and to revealing the importance of migrants as actors in contemporary global politics The assessments shared by the contributors suggest that the nature and scope of the Chinese American involvement particularly in global civil society networks increasingly will determine the outcome of state to state relations between the United States and the PRC International Orders in the Early Modern World Shogo

Suzuki,Yongjin Zhang,Joel Quirk,2013-09-05 This book examines the historical interactions of the West and non Western world and investigates whether or not the exclusive adoption of Western oriented international norms is the prerequisite for the construction of international order This book sets out to challenge the Eurocentric foundations of modern International Relations scholarship by examining international relations in the early modern era when European primacy had yet to develop in many parts of the globe Through a series of regional case studies on East Asia the Middle East Africa and Latin America and Russia written by leading specialists of their field this book explores patterns of cross cultural exchange and civilizational encounters placing particular emphasis upon historical contexts The chapters of this book document and analyse a series of regional international orders that were primarily defined by local interests agendas and institutions with European interlopers often playing a secondary role These perspectives emphasize the central role of non European agency in shaping global history and stand in stark contrast to conventional narratives revolving around the Rise of the West which tend to be based upon a stylized contrast between a dynamic West and a passive and static East Focusing on a crucial period of global history that has been neglected in the field of International Relations International Orders in the Early Modern World will be interest to students and scholars of international relations international relations theory international history early modern history and sociology The Politics and Philosophy of Chinese Power R. James Ferguson,Rosita

Dellios,2016-12-12 This book provides a timely analysis of the politics philosophy and history of Chinese power focusing on social strategic and diplomatic trends that have shaped China for over three thousand years Chinese elites have used the past to inform the present but have also mobilized new ideas to address the country s rapid transition to global power China s intellectual world can draw on a surprisingly pluralist legacy When Chinese thinkers assess power they bring to bear their classical legacy the military classics Chinese socialism and Western political thought There are also a number of intriguing formulations that give shape to the exercise of Chinese power Among these are comprehensive national strength stability preservation soft power asymmetric conflict and counter intervention strategies This book looks at key periods in Chinese history when attitudes to power evolved and at their current expressions These include China s expanded use of think tanks

to chart the future efforts at creating an eco civilization to balance growth and an extended set of security and information capabilities From observing the centrality of power in today s international affairs the book moves to the foundational concepts of Chinese governance its belief in a strategic configuration of power as understood in military contexts as well as its growing diplomatic and maritime engagement abroad This analysis culminates in new ideas of functional multipolarity Power is also deployed internally China s use of nationalism as a major tool for state building and cohesion the ongoing role of socialism and the People s Liberation Army are all examined in this light China s current strategic culture has shaped President Xi Jinping s search for a new model of power for China in the twenty first century an endeavor that will have serious implications for the future global order This book provides an alternative perspective on China s trajectory towards a revised international system

The Chinese Cornerstone of Modern Banking Frederic Delano Grant, Jr.,2014-09-25 Modern bank insurance is traced to

its roots in The Chinese Cornerstone of Modern Banking The Canton Guaranty System and the Origins of Bank Deposit Insurance 1780 1933 Frederic Delano Grant Jr provides new understandings of the Canton System collective responsibility for debt at Canton and the history of deposit insurance The Canton Guaranty System inspired radical reform in New York in 1829 the ancestor of all modern deposit insurance Yet it was never the success imagined and soon failed In the Opium War the Chinese government as implicit guarantor was forced to pay its debts in full on 23 July 1843 The afflictions of the Chinese system including moral hazard too big to fail and unenforced laws remain familiar today **Qing Colonial Enterprise**

Laura Hostetler,2005-12-15 In Qing Colonial Enterprise Laura Hostetler shows how Qing China 1636 1911 used cartography and ethnography to pursue its imperial ambitions She argues that far from being on the periphery of developments in the early modern period Qing China both participated in and helped shape the new emphasis on empirical scientific knowledge that was simultaneously transforming Europe and its colonial empires at the time Although mapping in China is almost as old as Chinese civilization itself the Qing insistence on accurate to scale maps of their territory was a new response to the difficulties of administering a vast and growing empire Likewise direct observation became increasingly important to Qing ethnographic writings such as the illustrated manuscripts known as Miao albums from which twenty color paintings are reproduced in this book These were intended to educate Qing officials about various non Han peoples so that they could govern these groups more effectively Hostetler s groundbreaking account will interest anyone studying the history of the early modern period and colonialism **Living the Good Life** Elif Akçetin,Suraiya Faruqi,2017-10-02 Eighteenth century consumers of the Qing and Ottoman empires had access to an increasingly diverse array of goods from home furnishings to fashionable clothes and new foodstuffs While this tendency was of shorter duration and intensity in the Ottoman world some urbanites of the sultans realm did enjoy silks coffee and Chinese porcelain By contrast a vibrant consumer culture flourished in Qing China where many consumers flaunted their fur coats and indulged in gourmet dining Living the Good Life explores how goods furthered the expansion of social networks alliance building between rulers and regional elites and the expression of elite urban and gender identities The scholarship in the present volume highlights the recently emerging material turn in Qing and Ottoman historiographies and provides a framework for future research Contributors Arif Bilgin Michael G Chang Edhem Eldem Colette Estabiet Antonia Finnane Selim Karahasanoglu Lai Hui min Amanda Phillips Hedda Reindl Kiel Martina Siebert Su Te Cheng Joanna Waley Cohen Wang Dagang Wu Jen shu Y ld z Y lmaz and Yun Yan **Accommodating the Chinese** Michelle Campbell Renshaw,2005-04-02 This in depth comparative study demonstrates that the hospital established in China its planning and architecture financing and all aspects of day to day operation differed from its counterpart at home These differences were never due to a single or even dominant cause They were a result of a complex process involving accommodation appreciation negotiation opportunism and pragmatism **Cultural Objects and Reparative Justice** Patty Gerstenblith,2023 Cultural Objects and Reparative Justice provides a comprehensive legal and historical analysis

surrounding the question of where cultural objects removed without consent should be located Following an interdisciplinary approach based in law history art history anthropology and archaeology this book proposes a paradigm for reparations

Chow Chop Suey Anne Mendelson, 2016-11-29 Chinese food first became popular in America under the shadow of violence against Chinese aliens a despised racial minority ineligible for United States citizenship The founding of late nineteenth century chop suey restaurants that pitched an altered version of Cantonese cuisine to white patrons despite a virulently anti Chinese climate is one of several pivotal events in Anne Mendelson's thoughtful history of American Chinese food Chow Chop Suey uses cooking to trace different stages of the Chinese community's footing in the larger white society Mendelson begins with the arrival of men from the poorest district of Canton Province during the Gold Rush She describes the formation of American Chinatowns and examines the curious racial dynamic underlying the purposeful invention of hybridized Chinese American food historically prepared by Cantonese descended cooks for whites incapable of grasping Chinese culinary principles Mendelson then follows the eventual abolition of anti Chinese immigration laws and the many demographic changes that transformed the face of Chinese cooking in America during and after the Cold War Mendelson concludes with the post 1965 arrival of Chinese immigrants from Taiwan Southeast Asia and many regions of mainland China As she shows they have immeasurably enriched Chinese cooking in America but tend to form comparatively self sufficient enclaves in which they unlike their predecessors are not dependent on cooking for a white clientele

Chinese Law in Imperial Eyes Li Chen, 2015-12-22 How did American schoolchildren French philosophers Russian Sinologists Dutch merchants and British lawyers imagine China and Chinese law What happened when agents of presumably dominant Western empires had to endure the humiliations and anxieties of maintaining a profitable but precarious relationship with China In Chinese Law in

Imperial Eyes Li Chen provides a richly textured analysis of these related issues and their intersection with law culture and politics in the eighteenth and nineteenth centuries Using a wide array of sources Chen s study focuses on the power dynamics of Sino Western relations during the formative century before the First Opium War 1839 1842 He highlights the centrality of law to modern imperial ideology and politics and brings new insight to the origins of comparative Chinese law in the West the First Opium War and foreign extraterritoriality in China The shifting balance of economic and political power formed and transformed knowledge of China and Chinese law in different contact zones Chen argues that recovering the variegated and contradictory roles of Chinese law in Western modernization helps provincialize the subsequent Euro American discourse of global modernity Chen draws attention to important yet underanalyzed sites in which imperial sovereignty national identity cultural tradition or international law and order were defined and restructured His valuable case studies show how constructed differences between societies were hardened into cultural or racial boundaries and then politicized to rationalize international conflicts and hierarchy
