M. Neto, 2008-11-14 Even if specific pieces of research on the sources or on individual authors such as Pico Agrippa Erasmus Montaigne Sanches etc have given and are still producing significant results on Renaissance scepticism an overall synthesis comprising the entire period has not been achieved yet No predetermined idea of that complex historical subject that is Renaissance scepticism underlies this book and we want to sacrifice the complexity of movements personalities tendencies and interpretations to any sort of a priori unity of theme even less We acknowledge unhesitatingly that we had always thought of scepticisms in the plural and believe that the different contexts philosophical religious cultural in which these forms grew up must also be taken into account Furthermore given the transversal nature and provocative character of the sceptical challenge this book contains essays also on philosophers who without being sceptics and sometimes engaged in fighting scepticism nevertheless took up its challenge The main authors considered in this book are Vives Castellio Agrippa Pedro de Valencia Pico Sanchez Montaigne Charron Bruno Bacon and Campanella The various essays in the book show the relevance of the philosophical thought of authors little known by the general public and put in new perspective important aspects of the thought of some of the great thinkers of the Renaissance *The Italian Renaissance and the Origin of the Humanities* Christopher S. Celenza, 2021-09-09 Connecting to issues in the humanities today this book shows how the Italian Renaissance influenced and changed Early Modern Europe **Imaginary Films in Literature** , 2015-11-09 Since cinema is a composite language describing a movie is a complex challenge for critics and writers and greatly differs from the ancient and successful genre of the ekphrasis the literary description of a visual work of art Imaginary Films in Literature deals with a specific and significant case within this broad category the description of imaginary non existent movies a practice that is more widespread than one might expect especially in North American postmodern fiction Along with theoretical contributions the book includes the analyses of some case studies focusing on the borders between the visual and the literary intermedial practices of hybridization the limits of representation and other related notions such as memory fragmentation desire genre authorship and censorship **A Companion to Descartes** Janet Broughton, John Carrierio, 2010-11-08 A

Tunstall, 2011-08-18 Blindness and Enlightenment presents a reading and a new translation of Diderot s Letter on the Blind Diderot was the editor of the Encyclop die that Trojan horse of Enlightenment ideas as well as a novelist playwright art critic and philosopher His Letter on the Blind of 1749 is essential reading for anyone interested in Enlightenment philosophy or eighteenth century literature because it contradicts a central assumption of Western literature and philosophy and of the Enlightenment in particular namely that moral and philosophical insight is dependent on seeing Kate Tunstall s essay guides the reader through the Letter its anecdotes ideas and its conversational mode of presenting them and it situates the Letter in relation both to the Encyclopedie and to a rich tradition of writing about and most importantly talking and listening to the blind Greeks, Books and Libraries in Renaissance Venice Rosa Maria Piccione, 2020-11-09 What does writing Greek books mean at the height of the Cinquecento in Venice The present volume

provides fascinating insights into Greek language book production at a time when printed books were already at a rather advanced stage of development with regards to requests purchases and exchanges of books copying and borrowing practices relations among intellectuals and with institutions and much more Based on the investigation into selected institutional and private libraries in particular the book collection of Gabriel Severos guide of the Greek Confraternity in Venice the authors present new pertinent evidence from Renaissance books and documents discuss methodological questions and propose innovative research perspectives for a sociocultural approach to book histories Rabbis as Romans Hayim

Lapin,2012-07-02 Conventionally the history of the rabbinic movement has been told as a distinctly intra Jewish development a response to the gaping need left by the tragic destruction of the Jerusalem Temple in 70 CE In Rabbis as Romans Hayim Lapin reconfigures that history by drawing sustained attention to the extent to which rabbis participated in and were the product of a Roman and late antique political economy Rabbis as a group were relatively well off literate Jewish men an urban sub elite in a small generally insignificant province of the Roman empire That they were deeply embedded in a wider Roman world is clear from the urban orientation of their texts the rhetoric they used to describe their own group mirroring that used for Greek philosophical schools their open embrace of Roman bathing and their engagement in debates about public morals and gender that crossed regional and ethnic lines Rabbis also form one of the most accessible and well documented examples of a nativizing traditionalist movement in a Roman province It was a movement committed to articulating the social ritual and moral boundaries between an Israelite us and the nations To attend seriously to the contradictory position of rabbis as both within and outside of a provincial cultural economy says Lapin is to uncover the historical contingencies that shaped what later generations understood as simply Judaism and to reexamine in a new light the cultural work of Roman provincialization itself **Montaigne and the Lives of the Philosophers** Alison

Calhoun,2014-12-18 In his *Essais* Montaigne stresses that his theoretical interest in philosophy goes hand in hand with its practicality In fact he makes it clear that there is little reason to live our lives according to doctrine without proof that others have successfully done so Understanding Montaigne s philosophical thought therefore means not only studying the philosophies of the great thinkers but also the characters and ways of life of the philosophers themselves The focus of *Montaigne and the Lives of the Philosophers* Life Writing and Transversality in the *Essais* is how Montaigne assembled the lives of the philosophers on the pages of his *Essais* in order to grapple with two fundamental aims of his project first to transform the teaching of moral philosophy and next to experiment with a transverse construction of his self Both of these objectives grew out of a dialogue with the structure and content in the life writing of Plutarch and Diogenes Laertius authors whose books were bestsellers during the essayist s lifetime **Dissoi Logoi: Introduction, Critical Text, Translation, and Commentary** Sebastiano Molinelli,2024-10-16 This new critical edition of *Dissoi Logoi* starts from a codicological analysis that is unprecedented in scope the studied codices are twenty six and depth their material dimensions transmitted

works provenance date scribe first possessors and current place of conservation are considered On this basis a new stemma codicum and a new Greek critical text with parallel English translation are offered The extensive introduction reconstructs the manuscript and printed transmission of the text and sheds new light on its nature and its reception in antiquity Dissoi Logoi appears to have been written between 355 and 338 BCE in an Eastern form of Doric by a sophist who aimed to promote his course It likely worked as a source for Sextus Empiricus which contributes to explaining the work s collocation at the end of Sextus codices The third and final part of the book consists in a two level commentary First the Structural Commentary looks into blocks of chapters from a rhetorical and philosophical perspective Then the Lemmatic Commentary delves into the most salient lemmas of the text covering textual linguistic literary and historical issues as well *The Fall of Man and the Foundations of Science* Peter Harrison,2007-12-20 See [Quest for Certainty in Early Modern Europe](#) Barbara Fuchs,Mercedes Garcia-Arenal,2020-03-04 Reflecting on humanity s shared desire for certainty this book explores the discrepancies between religious adherence and inner belief specific to the early modern period a time marred by forced conversions and inquisition
