Sexual Behavior Of Adolescents In Contemporary Sub Saharan Africa:

Sexual Behavior of Adolescents in Contemporary Sub-Saharan Africa Yanyi Kasongo Djamba, 2004 The papers in this volume show that Africa is a mosaic of cultures where local norms and values must be considered in order to successfully understand and manage the emerging sexual and reproductive health issues **Children and Youth in Africa** Ntarangwi, Mwenda, 2014-06-12 This annotated bibliography provides a summary of scholarly work on children and youth in Africa published between 2001 and 2011 It draws from journal articles monographs and book chapters This rich resource for scholars presents publications with a wide range of approaches to child and youth studies Some scholars question certain views of children especially when it comes to their own agency and full participation in socioeconomic production at the household level The idea that children are vulnerable social subjects is the predominant view that shaped much of the research reported on in this volume Western restrictions on specific age limits that govern children s participation in work or labour whether paid or not and the subsequent rights that go along with them are often not easily translatable to many African contexts This creates a kind of separation between African and Western scholars in their study and understanding of children The overwhelming focus of research published on HIV AIDS and orphans violence and child soldiers children s rights and street children demonstrates the continued interest regarding children as vulnerable and in need of adult protection Focusing on the vulnerability of children in Africa appears to be a result of the construction of childhood in terms of modern mostly Western perceptions which are based on chronological age mainly This book is very important for all scholars working on children and the youth in Africa *Gender-Based Violence* Yanyi K. Djamba, Sitawa R. Kimuna, 2015-06-10 This book offers new perspectives on gender based violence in three regions where the subject has been taboo in everyday discourse often due to patriarchal cultural norms that limit women s autonomy The contributions to this book provide rare insight into not only the levels and the socio demographic determinants of domestic violence but topics ranging from men s attitudes toward wife beating domestic violence related adolescent deaths and women s health problems due to sexual and physical abuse With a comprehensive introduction that provides a comparative international research framework for discussing gender based violence in these three unique regions this volume provides a key basis for understanding gender based violence on a more global level Part I on Africa covers men s attitudes towards domestic violence the impact of poverty and fertility the association between adolescent deaths and domestic violence and the link between domestic abuse and HIV Part II on the Middle East covers the importance of consanguinity on domestic violence in Egypt and Jordan the effects of physical abuse on reproductive health and the link between political unrests and women s experience and attitudes towards domestic violence Part III on India shows how sexual abuse puts women at risk of reproductive tract infections and sexually transmitted infections as well as the role of gender norms in wife abuse and the role of youth aggressive behavior in nonconsensual sex With such a deep and broad coverage of factors of intimate partner

abuse this book serves as a reference document for researchers decision makers and organizations that are searching for ways to reduce gender based domestic violence This book is of interest for researchers in Criminology and Criminal Justice as well as Sociology Social Work Public Health and Human Rights **International encyclopedia of adolescence** Jeffrey

Jensen Arnett,2007 Publisher description Reproduction and Social Context in Sub-Saharan Africa Samuel

Agyei-Mensah,John B. Casterline,2003-06-30 Perhaps no region matches sub Saharan Africa in its social and cultural diversity In this collection of micro demographic studies the authors examine how the diversity of this region influences reproductive behavior The empirical studies distributed throughout the continent are localized in depth studies that give special attention to contextual effects of social structure and social organization A diverse range of topics is addressed including adolescent sexuality and the effects of early childbearing on later fertility the impact of development programs on fertility and the association between social organization social diffusion and reproductive regime Highly revealing of the determinants of reproduction in Africa these studies serve as a model for a new mode of demographic research The chapters are arranged by geographical regions of the continent with an introductory chapter outlining the editors vision of a micro demographic enterprise and a concluding chapter placing the African fertility transition in the context of the global fertility transition This volume inspires fresh thinking and theorizing about demographic change not only in sub Saharan Africa but also in all low income settings **Intersection of Adolescent Sexual, Reproductive, and Mental Health in**

Sub-Saharan Africa Negussie Boti Sidamo,Zacharie Tsala Dimbuene,Sultan Hussien Hebo,Stephen Chukwudeh,2025-06-18 Adolescence is a crucial stage of development in which young people experience a wide range of emotional social and physical changes One significant aspect of this period is the exploration and emergence of reproductive health and behaviours Alongside this mental health and well being are increasingly recognized as vital components of overall adolescent health and development The intersection of adolescent sexual reproductive and mental health is complex dynamic and multifaceted with numerous social cultural and biological factors influencing these domains Addressing this intersection remains a critical area of research policy and practice to promote healthy adolescent development and empower young people with the knowledge and skills necessary to make informed decisions about their sexual reproductive and mental health In sub Saharan Africa adolescents have greater risk factors and low access to health services that make them prone to such problems This underscores the need to consider an integrated approach to address the sexual reproductive and mental health problems of adolescents living in sub Saharan Africa These insights are pivotal for identifying novel approaches that are highly effective and well tolerated for integrated services to improve the relief of adolescents living in sub Saharan Africa from sexual reproductive and mental health problems *Young People's Lives and Sexual Relationships in Rural Africa*

Mary Louisa Plummer,Daniel Wight,2011-08-16 New infections with HIV remain an urgent problem among young people in Africa but many young Africans pursue sexual relationships with little thought about the epidemic This book examines young

people's sexual relationships in a region typical of rural sub-Saharan Africa and investigates why the risk of HIV infection generally was not a salient concern for them. It is based on an extraordinarily large and representative qualitative study that was affiliated with an adolescent sexual health intervention trial and included three person-years of participant observation conducted by young East Africans in nine Tanzanian villages. The book describes typical patterns of sexual relationship formation in adolescence and early adult life, the variety of young people's relationships and practices, and the contradictory social ideals and expectations that led premarital and extramarital relationships to be concealed. Young men's main motivations for sex were pleasure and masculine identity, while young women's was to receive money or materials to meet their basic needs such as soap or a daytime meal. By their late teens, most young people had experienced one-time sexual encounters, open-ended opportunistic relationships, and main, sometimes semi-public partnerships. Relationships could involve desire, possessiveness, and affection, but romantic idealization of a partner was rare. Many young people expected their partners to be monogamous, but themselves had had concurrent relationships by age 20. The practice of hiding premarital sexual relationships from adults often also concealed them from other sexual partners, which helped maintain concurrency and inhibited realistic risk perception. Understanding of the biology of HIV/AIDS was very limited. Condoms were rarely used because they were associated with reduced pleasure, infection, and promiscuity. Sexually transmitted infections were common, but several factors hindered young people from seeking biomedical treatment for them. Many instead relied on tradition. *Sex Matters* Adili Zia, Billy Kahora, 2007

Anthropos, 2007 **Globalization and Socio-Cultural Processes in Contemporary Africa** Eunice N. Sahle, 2016-04-29 In different but complementary ways, the chapters in this collection provide a deeper understanding of socio-cultural processes in various parts of the African continent. They do so in the context of contemporary mediated processes of globalization and emphasize the agency of Africans. *Youth Sexuality in the Context of HIV/AIDS in South Africa* Karl Peltzer, Supa Pengpid, Teresa-Ann B. Mashego, 2006 Dowsett 2003 notes that by far the vast majority of non-biomedical research on HIV/AIDS has been behavioural research, usually by survey methods, counting people's sex acts, partners, preferences, places, times, and reasons for sex, and assessing levels of risk for HIV infection, revealing the dominance of seeing sex largely as behaviours. **IBSS: Sociology: 2005 Vol. 55** British Library of Political and Economic Science Staff, Compiled by the British Library of Political and Economic Science, 2006-11-03 First published in 1952, the International Bibliography of the Social Sciences (anthropology, economics, political science, and sociology) is well established as a major bibliographic reference for students, researchers, and librarians in the social sciences worldwide. Sexuality in Adolescence Susan Moore,Doreen Rosenthal,Susan M. Moore,Doreen A. Rosenthal,2007-01-24 Susan Moore and Doreen Rosenthal review current work on adolescent sexual development including data from their own studies on sexual risk taking and the social contexts in which young people form their sexual beliefs

Vulnerabilities, Impacts, and Responses to HIV/AIDS in Sub-Saharan Africa Getnet Tadele,Helmut Kloos,2013-05-07 This book examines HIV AIDS vulnerabilities impacts and responses in the socioeconomic and cultural context of Sub Saharan Africa With contributions from social scientists and public health experts the volume identifies gender inequality and poverty as the main causes of the HIV epidemic in sub Saharan Africa

Insights Into Gender Equity, Equality and Power Relations in Sub-saharan Africa Mansah Prah,2013 Since gender entered the development discourse in the Seventies African countries have increasingly taken the concept on board in policy and practice This concern may be due to either one or a combination of the following factors the ideological positioning of African countries demands by their donors and development partners and demands by organised local groups and NGOs Gender in the development discourse ought to transform power relations between men and women and shift them to social relations that reflect their equal access to productive resources opportunities and social and material benefits The result of such actions should be an achievement of comparable status of women and men This volume initiated by OSSREA seeks to examine in more depth issues regarding the gender power imbalance in sub Saharan African countries with a specific focus on the eastern and southern African regions The chapters in this book present research that examines and analyses the effectiveness and efficiency of gender mainstreaming policies strategies and projects developed and implemented by national and international actors The themes inter weave with each other although they address gender issues in specific countries and specific contexts This can be explained by the shared colonial and post colonial heritage of African countries It is useful therefore to view the structure of the book as a spiral of inter connected issues that address similar themes approaching them from different levels Purely for ease of reading the contributions have been organised into three parts with over arching themes that at first glance may seem not to fit well together A theme that runs through all the chapters is the persistence of patriarchal values and attitudes in Africa and its constraining effect on the achievement of gender equity and equality

Social Dynamics of Adolescent Fertility in Sub-Saharan Africa National Research Council,Division of Behavioral and Social Sciences and Education,Commission on Behavioral and Social Sciences and Education,Working Group on the Social Dynamics of Adolescent Fertility,1993-02-01 This examination of changes in adolescent fertility emphasizes the changing social context within which adolescent childbearing takes place

Second International Handbook on the Demography of Sexuality Amanda K. Baumle,Zelma Oyarvide Tuthill,2025-06-18 A decade after the publication of the first International Handbook on the Demography of Sexuality there have been

fundamental shifts in how we measure sexual and gender identities and the breadth of available population level sexuality data The chapters in this second edition of this handbook provide guidance on methodological approaches involved in studying population sexuality as well as insight into the ways that sexuality shapes key demographic outcomes Chapters examine how we measure sexual identities and behaviors on surveys sexuality changes across the life course international perspectives on sexual behaviors and identities and the ways that sexual identities shape families labor market experiences and health outcomes Despite these developments we still know relatively little about key demographic questions related to fertility and migration for sexual minorities as well as about understudied topics of sexuality that fall outside of risk focused analyses In particular much of our understanding of sexuality has been motivated by controlling the spread of sexually transmitted infections or adolescent pregnancies rather than understanding motivations for sexual interactions such as pleasure Accordingly although the research set forth in this book provides insight into existing knowledge of sexual behavior and of sexual minority populations the chapters also point researchers and policymakers toward needed areas of research and data collection

Geographies of Health and Development Rachel Bezner Kerr, Isaac Luginaah, 2016-03-03 The geographies of health and development is an emerging sub discipline tying in with many of the conceptual theoretical and practical components of other disciplines working in health health care economics and international development Spatially and theoretically grounded in geography this collection offers a fresh perspective on the dialectic relationships between health and development Health problems in a developing context take on much higher rates of prevalence as a result of the varied cultural structural and economic vulnerabilities of the people they impact This book begins by exploring some of the circumstances surrounding the distinctive health inequities currently facing many developing countries including malaria maternal mortality and HIV AIDS This is followed by a discussion of how matters of physical access and human resource issues and perhaps most importantly the challenges of financing together shape the access and utilization of health care Examining how the environment interacts to influence the health of the people that live there the next section includes discussion around challenges of food in security and the importance of clean and uncontaminated water for health Finally the book explores the influence of globalization on health specifically within the urban environment against the backdrop of global health policy

The Routledge Handbook of African Demography Clifford O.
