**The Oxford Handbook of Children's Rights Law** Jonathan Todres, Shani M.

King, 2020-02-19 Children's rights law is a relatively young but rapidly developing discipline. The U N Convention on the Rights of the Child, the field's core legal instrument, is the most widely ratified human rights treaty in history. Yet like children themselves, children's rights are often relegated to the margins in mainstream legal, political, and other discourses despite their application to approximately one third of the world's population and every human being's first stages of life. Now thirty years old, the Convention on the Rights of the Child (CRC) signalled a definitive shift in the way that children are viewed and understood, from passive objects subsumed within the family to full human beings with a distinct set of rights. Although the CRC and other children's rights law have spurred positive changes in law, policies, and attitudes toward children in numerous countries, implementation remains a work in progress. We have reached a state in the evolution of children's rights in which we need more critical evaluation and assessment of the CRC and the large body of children's rights law and policy that this treaty has inspired. We have moved from conceptualizing and adopting legislation to focusing on implementation and making the content of children's rights meaningful in the lives of all children. This book provides a critical evaluation and assessment of children's rights law, including the CRC. With contributions from leading scholars and practitioners from around the world, it aims to elucidate the content of children's rights law, explore the complexities of implementation, and identify critical challenges and opportunities for children's rights law.

**Children's Rights: Progress and Perspectives** Michael D. A.

Freeman, Michael Freeman, 2011-10-28 The International Journal of Children's Rights has been a major player in all this. Its impact is worldwide. It has established itself as the leading journal in the field. The journal is now in its 19th year and is flourishing. This volume has been compiled not only to commemorate the journal's work but also the 20th anniversary of the Convention coming into operation and of the first World Summit on Children. An anthology of the best articles published in these formative years, this volume offers a representative sample of what the journal has achieved. Some of the articles are ones which are frequently cited, whilst others are less well known; some deal with theory, others with practice. The case for children's rights is to be found throughout this collection, as is the history of children's rights.

*Causality and Neo-Stages in Development* Gerald Young, 2021-10-30 This book represents a broad integration of several major themes in psychology toward its unification. Unifying psychology is an ongoing project that has no end point, but the present work suggests several major axes toward that end, including causality and activation/inhibition/coordination. On the development side of the model building, the author has constructed an integrated lifespan stage model of development across the Piagetian cognitive and the Eriksonian socioaffective domains. The model is based on the concept of neo-stages, which mitigates standard criticisms of developmental stage models. The new work in the second half of the book extends the primary work in the first half, both in terms of causality and development. Also, the area of couple work is examined from the stage perspective. Finally, new concepts related to the main themes are represented, including on the science formula, executive function, stress.

dysregulation disorder inner peace and ethics all toward showing the rich potential of the present modeling      *Global Perspectives on Prostitution and Sex Trafficking* Rochelle L. Dalla, Lynda M. Baker, John Defrain, Celia Williamson, 2011-04-08 This book is part of a two volume set that examines prostitution and sex trafficking on a global scale with each chapter devoted to a particular country in one of seven geo cultural areas of the world The 18 chapters in this volume Volume I are devoted to examination of the commercial sex industry CSI in countries within Africa Asia Middle East and Oceania while the 16 chapters that comprise Volume II focus exclusively on Europe Latin America and North America Volume II also includes a global section which includes chapters that are globally relevant rather than those devoted to a particular country or geographic location The content of each volume as well as each chapter reflects great diversity diversity in focus writing style and personal position regarding the commercial sex industry Diversity extends to the contributors who are comprised of international scholars service providers and policy advocates representing a variety of fields and disciplines with distinct and varied frames of reference and theoretical underpinnings with regard to the commercial sex industry In addition to addressing aspects of the CSI across the globe as impacted by geography and culture authors have also provided a spectrum of implications of their work implications ranging from continued scholarship and research to legislative maneuvers and policy change to suggestions for collaboration across NGOS fieldworkers clinicians and service providers Together the 34 expertly crafted chapters provide a wealth of knowledge from which to more deeply appreciate and contemplate the global commercial sex industry By uniting contributors from around the world this book aims to build a relatively common knowledge base on global prostitution and sex trafficking      Children's Human Rights in the USA Yvonne Vissing, 2023-07-19 This book critically examines why a human rights framework would improve the wellbeing and status of young people It explores children s rights to provision protection and participation from human rights and clinical sociological perspectives and from historical to contemporary events It discusses how different ideologies have shaped the way we view children and their place in society and how despite the rhetoric of children s protection people under 18 years of age experience more poverty violence and oppression than other group in society The book points to the fact that the USA is the only member of the United Nations not to ratify a children s human rights treaty and the impact of this decision finds US children less healthy and less safe than children in other developed countries It shows how a rights respecting framework could be created to improve the lives of our youngest citizens and the future of democracy Authored by a renowned clinical sociologist and international human rights scholar this book is of interest to researchers students social workers and policymakers working in the area of children s wellbeing and human rights      *Comparative study on blocking, filtering and take-down of illegal internet content* Council of Europe, 2017-03-28 Across the member states of the Council of Europe both the blocking and removal of online material are frequently treated in a similar way However the existence or the lack of a legislative framework specifically targeted to the internet and the specificities of national regulatory models translate in

different practices and can be a challenge for the states concerned The Council of Europe commissioned a comparative study from the Swiss Institute of Comparative Law in respect of filtering blocking and take down of illegal content on the internet in the 47 member states of the Organisation This study describes and assesses the legal framework but also the relevant case law and practice in the field It comprises a comparative analysis which is the subject of this publication and country reports available on the website [www.coe.int/freedomofexpression](http://www.coe.int/freedomofexpression)
