Adolescent sexual awakening is reevaluated in terms of social and cultural influences. **Exploring Morality and Sexuality in Asian Cinema** Peter C. Pugsley, 2016-04-15. This ground-breaking book explores the moral dimensions of sexual imagery in contemporary general-release Asian films. It examines debates that arise over aesthetic styles and the cultural and traditional influences that determine the content and impact of these films. The social and regulatory environments for filmmakers across Asia reflect distinct national and cultural differences. In just the past decade, for instance, Indian cinema has rapidly moved from representations of coy and submissive female protagonists to highly eroticized leading ladies unafraid of flaunting their sexuality. On the other hand, the cinema emerging from the Chinese mainland has been much more circumspect in its representations of overt sexuality at times in conflict with other Chinese cinemas from Hong Kong and Taiwan. This use of sexual imagery or morally questionable film content raises ongoing debates into censorship and the use of state or industry controls to protect certain sectors of society from exposure to particular narratives or images. Film, like all forms of art, fulfils a number of aesthetic functions for local, regional, and international audiences. As distribution and technological advances make Asian films more readily available across the globe, an understanding of the different aesthetics at play will enable readers of this book to recognize key cultural motifs in representations of onscreen sexuality and the

surrounding controversies found in cinematic texts from Asia

rethink the nature of information and image production in relation to leisure management cinematic spectacles in Japan North Korea Taiwan and China point to complex issues of agency the formation of the public sphere and postnationalist identities We see contemporary fiction from China and Japan engage themes of desire and remembrance as metaphors to express a profound historical anxiety Mirroring the fast moving and multifaceted landscape is our ability to move freely through time as we confront legitimizing narratives of modernization in early twentieth century Japan and against an emerging regime of global capitalism reexamine the approaching century in imagined historical hindsight By anticipating the geocultural shift to the Asian Pacific Rim in the twenty first century this volume serves as both an introduction to contemporary East Asian culture and an exploration of its global context
