Women's Health in Primary Care Anne Connolly, Amanda Britton, 2017-04-06 Most women initially discuss health related matters with a medical practitioner in a primary care setting whether they have specific concerns or are seeking advice and guidance This practical and comprehensive guide will help primary care practitioners to deliver holistic women's health care to patients throughout different life stages Contraceptive choices infertility pregnancy and menopause are covered along with specific diseases such as ovarian cysts breast conditions and ovarian cancer All of the authors are GPs consultants and nurses with experience of the requirements for healthcare delivery in the primary care setting Each chapter is written in a practical style including a list of key points and using cases to illustrate the application of the content This will be invaluable reading for GPs doctors in training roles and nurses with an interest in women's health It will be particularly useful for candidates preparing for the DRCOG or MRCPGP examinations

The Neuropsychology of Women Elaine Fletcher-Janzen, 2008-12-19 The Diversity in Clinical Neuropsychology series is designed to highlight cultural and moderator variables involved in the study of brain behavior relationships Historically the study of psychology and neuropsychology has focused on the male brain being the standard to which all or most variables are considered The study of sex differences is perhaps the most provoking and far

reaching aspect of diversity because frequently women have unique assessment and treatment needs For example frontal lobe functioning tends to be more contextual for women than for men These brain functions have behavioral counterparts that directly relate to how interventions may be tailor made to suit the female rather than male patient The goal in neuropsychology is always to improve diagnosis and treatment outcomes and a cohesive summary of the neuropsychology of the female brain would raise awareness and cultural competency of clinicians in neuropsychology Authors will focus on sex differences in the neuropsychological cognitive and development literature ethnic and socioeconomic variables affecting diagnosis and treatment of women and social emotional and behavioral manifestations of neuropsychological sex differences

Sexual Health: a Public Health Perspective Kaye Wellings, Kirstin Mitchell, Martine Collumbien, 2012-10-16 This timely book introduces social aspects of the study of sexual health and their application to public health practice The book addresses five key themes Conceptual and theoretical aspects of sexual health Sexual health outcomes of Risk and Vulnerability Improving sexual health status and Measuring and assessing sexual health status The authors consider each of these themes within their cultural and historical context and illustrate topics with international examples and case studies Key features of the book include A spotlight on populations rather than individuals and a focus on the prevention of ill health and promotion of well being A global perspective the book makes the distinction between developing and developed countries but recognises that inequalities are to be found within as

well as between countries A view of sexual behaviour as socially learned rather than biologically given and so as amenable to change and intervention to improve sexual health status An emphasis on ways in which risk and vulnerability are products not only of individual behaviours but of the social context in which they are practiced Written by authors with a wide range of experience this book will be a valuable resource for public health practitioners and those studying and working in the area of sexual health Understanding Public Health is an innovative series published by Open University Press in collaboration with the London School of Hygiene Tropical Medicine Series Editors Ros Plowman and Nicki Thorogood Contributors Sevgi O Aral Chris Bonell Helen Burchett Joanna Busza Martine Collumbien Simon Forrest Rebecca French Claudia Garcia Moreno Anna Glasier Jami Leichter Kirstin Mitchell Will Nutland Thomas Peterman Elisabeth Pisani Kaye Wellings Meg Wiggins and Maria Zuurmond The Quest for Sexual Health Steven Epstein,2022-03-23 Offering an entryway into the distinctive worlds

of sexual health and a window onto their spillover effects sociologist Steven Epstein traces the development of the concept and parses the debates that swirl around it Since the 1970s health professionals researchers governments advocacy groups and commercial interests have invested in the pursuit of something called sexual health Under this expansive banner a wide array of programs have been launched organizations founded initiatives funded products sold and yet no book before this one asks What does it mean to be sexually healthy When did people conceive of a form of health called sexual health And how did it become the gateway to addressing a host of social harms and the reimagining of private desires and public dreams Conjoining sexual with health changes both terms it alters how we conceive of sexuality and transforms what it means to be healthy prompting new expectations of what medicine can provide Yet the ideal of achieving sexual health remains elusive and open ended and the benefits and costs of promoting it are unevenly distributed across genders races and sexual identities Rather than a thing apart sexual health is intertwined with nearly every conceivable topical debate from sexual dysfunction to sexual violence from reproductive freedom to the practicalities of sexual contact in a pandemic In this book Steven Epstein analyzes the rise proliferation uptake and sprawling consequences of sexual health activities offering critical tools to assess those consequences expand capacities for collective decision making and identify pathways that promote social justice **Sexual Health and The Menopause** Margaret Rees,Tony Mander,John M Tomlinson,2024-11-01
