**Women and War** Joyce P. Kaufman,Kristen P. Williams,2010 Women everywhere have long struggled for recognition as equal productive members of society worthy of taking part in the political process These struggles become even more

pronounced in times of conflict and war when the symbolism and myths of womanhood are used to stoke nationalistic ideas about the survival of the state Yet for all the rhetoric that takes place in their name it s men who generally make decisions regarding war Women and War examines how women respond to situations of conflict Drawing on both traditional and feminist international relations theory it explores the roles that women play before during and after a conflict how they spur and respond to nationalist and social movements and how conceptions of gender are deeply intertwined with ideas about citizenship and the state As Kaufman and Williams show women do more than respond to conflict situations they are active agents in their own right shaping political and historical processes Their conclusions encourage us to rethink the prevalent assumptions of international relations history and feminist scholarship and theory The Multimedia Encyclopedia of Women in Today's World Mary Zeiss Stange,Carol K. **Women and Wars** Carol Cohn, 2013-04-03 Where are the women In traditional historical and scholarly accounts of the making and fighting of wars women are often nowhere to be seen With few exceptions war stories are told as if men were the only ones who plan fight are injured by and negotiate ends to wars As the pages of this book tell though those accounts are far from complete Women can be found at every turn in the gendered phenomena of war Women have participated in the making fighting and concluding of wars throughout history and their participation is only increasing at the turn of the 21st century Women experience war in multiple ways as soldiers as fighters as civilians as caregivers as sex workers as sexual slaves refugees and internally displaced persons as anti war activists as community peace builders and more This book at once provides a glimpse into where women are in war and gives readers the tools to understand women's told and untold war experiences in the greater context of the gendered nature of global social and political life *The Political Economy of Violence against Women* Jacqui True, 2012-08-28 Violence against women is a major problem in all countries affecting women in every socio economic group and at every life stage Nowhere in the world do women share equal social and economic rights with men or the same access as men to productive resources Economic globalization and development are creating new challenges for women's rights as well as some new opportunities for advancing women's economic independence and gender equality Yet when women have access to productive resources and they enjoy social and economic rights they are less

vulnerable to violence across all societies The Political Economy of Violence against Women develops a feminist political economy approach to identify the linkages between different forms of violence against women and macro structural processes in strategic local and global sites from the household to the transnational level In doing so it seeks to account for the globally increasing scale and brutality of violence against women These sites include economic restructuring and men s reaction to the loss of secure employment the abusive exploitation associated with the transnational migration of women workers the growth of a sex trade around the creation of free trade zones the spike in violence against women in financial liberalization and crises the scourge of sexual violence in armed conflict and post crisis peacebuilding or reconstruction efforts and the deleterious gendered impacts of natural disasters Examples are drawn from South Africa Kenya the Democratic Republic of Congo China Ciudad Juarez in Mexico the Pacific Islands Argentina Eastern Europe Central Asia Haiti Sri Lanka Indonesia New Zealand Ireland the United Kingdom the United States and Iceland Issues in Peace and Conflict Studies CQ Researcher,2010-10-12 Do nation states have a Responsibility to Protect Can countries heal after atrocities Who should clean up after conflicts end These questions and many more are at the heart of peace and conflict studies This collection aims to promote in depth discussion facilitate further research and help readers formulate their own positions on crucial issues It is intended to be a supplement for courses in peace and conflict studies that are offered in departments of psychology sociology anthropology political science and across all social science disciplines About CQ Researcher Readers In the tradition of nonpartisanship and current analysis that is the hallmark of CQ Press CQ Researcher readers investigate important and controversial policy issues Offer your students the balanced reporting complete overviews and engaging writing that CQ Researcher has consistently provided for more than 80 years Each article gives substantial background and analysis of a particular issue as well as useful pedagogical features to inspire critical thinking and to help students grasp and review key material A pro con box that examines two competing sides of a single question A detailed chronology of key dates and events An annotated bibliography that includes Web resources An outlook section that addresses possible regulation and initiatives from Capitol Hill and the White House over the next 5 to 10 years Photos charts graphs and maps *The Oxford Handbook of the International Law of Global Security* Robin Geiß,Nils Melzer,2021-02-16 Understanding the global security environment and delivering the necessary governance responses is a central challenge of the 21st century On a global scale the central regulatory tool for such responses is public international law But what is the state role and relevance of public international law in today s complex and highly dynamic global security environment Which concepts of security are anchored in international law How is the global security environment shaping international law and how is international law in turn influencing other normative frameworks The Oxford Handbook of the International Law of Global Security provides a ground breaking overview of the relationship between international law and global security It constitutes a comprehensive and systematic mapping of the various sub fields of international law dealing with global

**Governing the Feminist Peace** Paul C. Kirby, Laura Shepherd, 2024-04-02 The Women Peace and Security WPS agenda is celebrated as a landmark global framework for achieving gender equality in peace and security governance Its power is visible in two decades of United Nations resolutions national action plans regional initiatives and countless activist academic and philanthropic projects Yet despite this vitality it is haunted by failure as a lack of political will and stubborn patriarchal resistance frustrate its promise This book offers a groundbreaking critical account of the WPS agenda exploring its evolution in relation to the wider politics of global governance and feminism Paul Kirby and Laura J Shepherd argue that WPS is not a settled cohesive policy but a field in flux defined and disrupted by a growing number of national supranational subnational and transnational agents who in turn act on an expanding catalogue of threats from climate change to homophobia challenging traditional boundaries of peace and security Kirby and Shepherd reconceptualize WPS as a policy ecosystem tracing interaction and contestation around the agenda across levels from the UN Security Council to military alliances to feminist activists They combine analysis of a vast dataset of policy documents with key informant interviews and close readings of diplomacy statecraft the politics of indigeneity counterinsurgency antimilitarism human rights and the arms trade across the first twenty years of WPS Far reaching and incisive *Governing the Feminist Peace* poses a provocative question What if we abandoned the idea of the WPS agenda as a unified political project altogether

**Talking International Law** Ian Johnstone, Steven Ratner, 2021-09-09 Examining legal argumentation by states and other actors in the settings where it mostly transpires outside of courts *Talking International Law* challenges the realist assumption that legal argumentation is largely inconsequential Addressing a gap in scholarship within international law and international relations theory this book provides a comprehensive analysis of why it occurs how where and to what effect by exploring the phenomenon in a range of issue areas from security and human rights to the environment trade and intellectual property Diplomats and other governmental actors are the principal participants in international legal discourse but intergovernmental officials non governmental organizations academics corporations and even non state armed groups also engage in law talk Through close examination of legal arguments in political and other settings the authors uncover various motives these actors have for making legal claims including persuasion strategic calculations assertions of identity and the felt need to legitimate one's actions or to delegitimize those of an adversary Legal argumentation can have short term and long term effects both intended and unintended on immediate participants or a wider net of actors By bringing together distinguished scholars with

diverse perspectives and senior practitioners from around the world who engage in such argumentation themselves the book offers a unique exposure to the multi faceted practice of legal argumentation and thereby deepens our understanding of how international law actually operates in international affairs
