Tanusree Chakraborty,Nandita Mishra,Ashok Natarajan,Bipasha Chatterjee,2023-10-20 Attempts to eliminate or reduce gender inequality have been made by governments international organizations NGOs policymakers and private organizations However the evidence still shows that the gender gap exists from womb to tomb from parental treatment to corporate leadership and even the genders psychologically different identity for that matter The question however arises with laws and regulations formed on gender disparity bills becoming acts society becoming broader in their outlook and adopting inclusivity in terms of gender in different spheres Are we still able to claim that we are addressing gender inequality enough This volume explores the disparity between genders in terms of the labor market and career advancement child rearing practices education financial literacy work life balance pay gaps and economic development to name a few areas It focuses on the robust themes of the gender gap from a modern perspective to enhance our understanding of gender inequality in today s world *Multidisciplinary Approach in Health: New Strategies from the Perspective of Education, Management, Culture and Gender*

Sagrario Gomez-Cantarino,María Idoia Ugarte-Gurrutxaga,Beatriz Oliveira Xavier ,MCarmen Solano-Ruiz,2024-05-24 Gender and culture are the foundations of individual and social identity which influence the environment at all levels of health care According to historical and cultural patterns people learn to relate to their bodies This situation reveals contrasts in the way bodily functions and thus health and illness are conceptualized used and valued In fact a person s sexuality covers a particularly conflictive field as it focuses on aspects defined as basic constructed according to sociocultural concepts and therefore modifiable Therefore health promotion understood as a proposal for empowering individuals families and communities about their perception of their life and health within their cultural ethnic religious and care context and influenced by their state of health becomes important To this end we propose the adoption of transdisciplinary approaches that prioritize relational analysis studies in the context of health scenarios for the development of public policies framed in the culture of care its evolution economy and management highlighting the gender perspective

Education Around the World - Past, Present and Future Issues Rogena Sterling,2023-09-13 Sexual education is a worldwide concern that intersects with various attitudes values and cultural norms It is an area of life that has for many years been kept private but now there is recognition that there is a need to support people especially young people in modern societies The way sexual education is taught and applied within institutions shapes the way we understand and approach human sexuality Various societies have chosen various means to provide sexual education both at school and to the wider society There is still much more development and support needed however We can begin to identify strategies for overcoming challenges in sex education promoting healthier attitudes and empowering individuals to make informed decisions about their own bodies and relationships This book is organized into three sections The first section focuses on issues in sexual education such as sexual harassment sexuality and relationship education and advocacy by people with disabilities future challenges and sex differences in physical attractiveness The second section focuses on the means of sexual health education interventions including the use of technology The last section includes a chapter on sex education and the invisibility of intersex people in the curriculum *The Politics of Pleasure in Sexuality Education* Louisa Allen,Mary

Lou Rasmussen,Kathleen Quinlivan,2013-12-17 Pleasure and desire have been important components of the vision for sexuality education for over 20 years This book argues that there has been a lack of scrutiny over the political motivations that underpin research supportive of pleasure and desire within comprehensive sexuality education In this volume key researchers in the field consider how discourses related to pleasure and desire have been taken up internationally They argue that sexuality education is clearly shaped by specific cultural and political contexts and examine how these contexts have shaped the development of pleasure s inclusion in such programs Via such discussions this volume incites a re configuration of thought regarding sexuality education s approach to pleasure and desire **Global Perspectives on the**

Health Inequities in Sexual, Reproductive, and Maternal Health Post Roe v. Wade Lucy Ingram,Deborah L. Billings,Ndidiamaka Amutah-Onukagha,Andrea Swartzendruber,Chelsea Morroni,Stephen Kennedy,Ana Langer,Supriya Dinesh Mehta,Janet Seeley,2024-10-07 In June 2022 the United States U S Supreme Court overturned Roe v Wade 1973 with

the Dobbs v Jackson Women's Health Organization case thereby eliminating the constitutional right to abortion. As a result, authority now resides with individual states to regulate abortion access. Currently, abortion is banned in several states, severely restricted in some, and protected in others. While the impact of the Dobbs decision has yet to be fully realized, it has severe implications for sexual and reproductive health rights and justice, population health, and health equity nationally and globally. The impact of the ruling is expected to exacerbate existing health disparities and produce new inequities in sexual reproductive and maternal health outcomes, disproportionately affecting pregnant people who are already minoritized or disenfranchised, e.g., people of color, people with low incomes, young people, people living in rural areas, immigrants, people who identify as LGBTQIA, justice-involved, and unhoused communities living in states where abortion access has been banned or restricted. This Research Topic aims to elucidate actual short-term, potential long-term global and domestic health inequities produced by the Dobbs decision and to describe efforts and interventions designed and undertaken to reduce health impacts and inequities in advance or directly after the decision. Recent data from countries that have restricted access to abortion over the past 30 years reveal that such laws actually increase rates of unsafe abortion, which in many instances leads to pregnant people becoming severely ill or dying from preventable causes. In an era of maternal health crisis for people of color in the U.S. and other disadvantaged populations around the world, eliminating the constitutional right to abortion in the U.S. will have a reactionary impact on underserved and minoritized groups everywhere. The implications will be felt globally as the Dobbs decision has triggered the development of restrictive policies, increasing inequalities by social and demographic characteristics. Many groups disproportionately experience social disadvantage, yielding socially distributed negative exposures, including severely limited access to care. The goal of the article collection is to identify threats to results of and protections against inequities in reproductive health rights and justice. Devoting a Special Issue to this topic brings vital and robust discourse about reproductive justice and health inequity to the forefront of public health.

Model Programs for Adolescent Sexual Health Tabitha Benner, Josefina J. Card, 2008-05-22. *Model Programs for Adolescent Sexual Health* is a directory of the most promising and proven effective sexual education and prevention programs in the United States. The programs included in this volume were selected for their demonstrated positive impact on STI, pregnancy, and HIV/AIDS-related risk behaviors by a group of eminent HIV/AIDS expert scientists. The programs also show effective prevention strategies aimed at a variety of ages: children, adolescents, college students; a variety of ethnic and cultural orientations: Latino, African American, GLBT, and more; and for use in a variety of settings: schools, community settings, medical clinics, and more. The following information is provided for each program listed in the directory: The Program Abstract summarizes the program, including its target clientele, site, approach, components, length, staffing requirements, program materials, and implementation costs; The Program Rationale and History explains how the program was designed and its underlying theoretical framework and assumptions; Program Schedule explains the goals and activities of each program session; Program

Materials explains the necessary materials needed to implement the program note that not all materials are included in this directory however all can be ordered from Sociometrics How to Implement the Program explains the ground rules and other necessary steps prior to implementation Evaluating the Program explains how the program was evaluated for its effectiveness
