This well-known composer/pianist not only performs his own compositions but he also reads the stories associated with his animal books for children: Raccoons, Belinda the Chipmunk, and Kochel and Sheila, his two Siamese cats. Music Inspired by Art Gary Evans, 2002-11-11 This comprehensive reference book documents the considerable amount of art-inspired music found on commercial and other mass-produced audio recordings published through 1999. Recording formats included in this survey are long-playing phonograph records, 33 1/3 RPM cassette tapes, 7 1/2 IPS, and compact discs. Detailed information is provided to aid in purchasing the recordings or accessing them in library and archive collections. For the purposes of this compilation, art is interpreted broadly to include the full range of visual media and all aspects of artists' lives and works. Music has been gathered from classical, jazz, and popular styles, including examples partly inspired by art, music dedicated to artists' works, related to incidental writings by artists, compositions inspired by texts about art, and pieces taking their inspiration from artistic movements, genres, museums, or collections. The data is organized into three sections: The first, an alphabetical listing of visual artists, follows each name with relevant composers in alphabetical order, details of their compositions, and a maximum of five recordings each. The second section lists selected miscellaneous and unattributed works of architecture, glass, mosaic, paintings, prints, sculpture, and unclassified media. Finally, an index of composers provides an additional means of locating citations.

Benjamin Verdery Thomas Donahue, 2018-05-23 This book honors the classical guitarist Benjamin Verdery, Professor at the Yale School of Music. It contains personal reflections from his friends and colleagues which illustrate several aspects of Professor Verdery's influence on his peers, his students, and the classical guitar world, features of his musical career, and characteristics of his personality. In addition, there is an extensive essay by Professor Verdery himself in which he presents his thoughts and ideas on such musical endeavors as performing, composing, arranging, teaching, and recording. Rounding out the book are listings of his compositions, a discography, online video and audio files, recital programs, publications, and related websites.
