Feinstein, 2005-08-11 Since the liberation of the Nazi concentration camps and recognition of the Holocaust as a watershed event of the twentieth century if not in Western Civilization itself the capacity of art to represent this event adequately has been questioned As it analyzes a cross section of Holocaust art within the context of art history *Absence Presence* addresses the discussion head on and explores the interchange between media and horror The book's contributors include case studies from a broad spectrum of artists in North America Europe and Israel to examine some of the more dominant themes in these artists' work In addition to standard readings of Holocaust art the essays help illuminate the issues of eugenics the importance of art for Hitler and the Nazis the immense pilfering of art that occurred during World War II and the length and degree of the destruction of European Jewry which forced artists to reinvent their work through their own fate This selection of essays also provides alternative views to more typical readings on the Holocaust specifically to the story of the Shoah as a relevant art subject and to those who have a right to create art about the Holocaust These issues were the subject of an intense international debate based on an exhibition at New York's Jewish Museum titled

Mirroring Evil The retrospective brought to art a series of contemporary perspectives that represented both the outer edges as well as mainstream postmodern thinking concerning representations of the Holocaust This book which covers the art from the late 1980s through 2002 includes the work of an array of scholars curators and artists from many countries It will be of great interest to art historians Jewish scholars and anyone interested in learning more about the art and artists of the Holocaust

In *The Rise and Fall of American Art 1940s 1980s* Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period The Teresa and Alvin S. Lane Collection ,1995 *Seymour Lipton, Major Late Sculpture* Seymour Lipton,1991 *Seymour Lipton* Seymour Lipton,Marlborough-Gerson Gallery,1965 **New York Magazine** ,1984-12-17 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
