Hoesein,Laksanto Laksanto,Wasis Susetio,Zulfikar Judge,2025-02-08 This is an open access book Currently the influence of shifts and changes in the legal system due to global political social and economic dynamics demands significant changes to harmonize and adapt the various realities of human relations which are currently dominated by various activities in cyberspace Law is the most important and strategic instrument in organizing the space for social interaction and changes in other social institutions and institutions in the current era Therefore it is not only about 3 legal instruments such as norms legal institutions and their enforcement but the most important thing is legal education which will build not only legal instruments and systems but also awareness of a new legal culture Thus structuring legal education and its educational ecosystem which is connected to other aspects such as economics social cultural religious political and so on is a necessity that continues to be developed Law is also the glue and device of a world that is all connected and cross border connected to the digital world as well as an interconnected global society making an agreement on a common global goal help individuals institutions and governments throughout the world to agree on the direction of development focusing on things that are truly beneficial for the future directing all parties to focus on the same thing mobilizing all resources and making it easier to organize and implement so that all parties can move together towards the achievements they hope for By having a common goal every policy and development step taken by every national leader will always be tested by the public This means that a common goal provides a common opportunity for all elements of society to control the entire development process in order to remain faithful to the path towards mutual achievement encouraging mobilization all networks of expertise knowledge and practices to overcome various difficulties faced in implementing sustainable development and mobilize all stakeholder networks This multi stakeholder process is critical to addressing complex challenges in sustainable development and the fight against poverty hunger and disease In line with the global agenda called Sustainable Goals Development especially point 4 of SGD s goals which sets the goal of providing quality education this is also included in the world of legal education The SDGs goals above are interconnected and influence each other To achieve the SDGs goals collaboration and cooperation are needed These SDGs are a global commitment to achieve better sustainable development Every country including Indonesia has a responsibility to achieve the SDGs goals By paying attention to sustainability aspects in every decision and action we can build a better and more sustainable future for future generations Thus there is a need for strategic partnerships especially at the national and regional levels which will harmonize various curricula and learning methods

especially in the field of law in order to achieve a parameter of success in the development of national and regional law which is one of the elements of the resilience of a country or region This is considered necessary and strategic considering that currently the dynamics of the region are being influenced by global turmoil in various fields as well as the ongoing struggle for hegemony among world geopolitical and geoeconomic forces in the new world balance order Therefore this international seminar and call for papers is an opportunity for participants to find out about harmonization and strategic cooperation in legal education especially in the era of disruption economic and digital and to know its relevance for development at the ASEAN level
