A Matter of Principle Conrad Black, 2012-09-11 I never ask for mercy and seek no one's sympathy I would never as was once needlessly feared in this court be a fugitive from justice in this country only a seeker of it Conrad Black in his statement to the court June 24 2011 In 1993 Conrad Black was the proprietor

of London's Daily Telegraph and the head of one of the world's largest newspaper groups. He completed a memoir in 1992, *A Life in Progress*, and great prospects beckoned. In 2004 he was fired as chairman of Hollinger International after he and his associates were accused of fraud. Here for the first time Black describes his indictment, four-month trial in Chicago, partial conviction, imprisonment, and largely successful appeal. In this unflinchingly revealing and superbly written memoir, Black writes without reserve about the prosecutors who mounted a campaign to destroy him and the journalists who presumed he was guilty. Fascinating people fill these pages, from prime ministers and presidents to the social, legal, and media elite among them: Margaret Thatcher, Tony Blair, George W. Bush, Jean Chrétien, Rupert Murdoch, Izzy Asper, Richard Perle, Norman Podhoretz, Eddie Greenspan, Alan Dershowitz, and Henry Kissinger. Woven throughout are Black's views on big themes: politics, corporate governance, and the U.S. justice system. He is candid about highly personal subjects, including his friendships with those who have supported and those who have betrayed him, his Roman Catholic faith, and his marriage to Barbara Amiel. And he writes about his complex relations with Canada, Great Britain, and the United States, and in particular the blow he has suffered at the hands of that nation. In this extraordinary book, Black maintains his innocence and recounts what he describes as the fight of and for my life. *A Matter of Principle* is a riveting memoir and a scathing account of a flawed justice system.

Handbook of Global Media Ethics Stephen J.A. Ward, 2021-09-02 This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics. The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims. For many scholars, teachers, and journalists, the existing journalism ethics, e.g., existing codes of ethics, is too parochial and national. It fails to provide adequate normative guidance for a media that is digital, global, and practiced by professional and citizen. A global media ethics is being constructed to define what responsible public journalism means for a new global media era. Currently, scholars write texts and codes for global media, teach global media ethics, analyse how global issues should be covered, and gather together at conferences, round tables, and meetings. However, the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics. This handbook is a milestone in the field and a major contribution to media ethics.

Careers Without Borders Cristina Reis, Yehuda Baruch, 2013-05-02 *Careers without Borders* analyzes the challenges, debates, and developments in global careers using a critical management perspective. Starting in the early nineties, the flow of information became more fluid, and with this, managers and professionals started operating across borders, crossing different contexts in greater numbers than ever before. In this edited collection, contributors from around the world examine how context, culture, and social relations of power all impact on how professionals interact with new structural and ideological frameworks. Issues such as regulation and law, policies, history, identities, and inequalities are explored. The book covers a wide range of countries, including USA, China, Brazil, Ghana, and Hungary, offering strong theoretical analyses as well as practical implications. This book aims to help students and managers

understand the career issues involved when they do business in other countries It will appeal to students on human resource management or international business courses

About Canada: Media Peter Steven, 2016-07-01T00:00:00Z Canada enjoys a long held reputation for producing high quality media from National Film Board documentaries to the CBC to children s programming But in recent years funding cuts commercial media concentration and a sour political environment have been steadily eroding this reputation In About Canada Media Peter Steven examines developments in film television the internet and newspapers and finds that the quality of our news and entertainment media is steadily declining as well as becoming increasingly restricted and less diverse Although Canada is not alone in this crisis of quality we are particularly vulnerable living in the shadow of the United States However despite this decline and the shadow of our southern neighbour Canada still produces distinctive and popular work which receives critical international acclaim About Canada Media explores all things CanCon and argues that the Canadian people must reclaim the media from elite interests in order to ensure its democratic and quality future
