Shades Of Gray Perspectives On Campaign Ethics:

Shades of Gray Candice J. Nelson, David A. Dulio, Stephen K. Medvic, 2004-05-13 To many the term campaign ethics is an oxymoron. Questionable campaign conduct occurs at many levels from national presidential elections to local delegate contests. Campaign ethics goes beyond mere ethical dilemmas or trying to decide whether or not a particular act is above board. The chapters in this volume examine the broad questions of ethics in campaigns from the perspective of those actors that play critical roles in them as well as the scholars who study them. The contributors, who include leading academics as well as practitioners from the world of campaigning and campaign reform, outline, assess, and critique the role and responsibilities of candidates, citizens, organized interest groups, political parties, professional campaign consultants, and the media in insuring ethical campaigns. Contributors include Robert E. Denton, Virginia Tech University; David A. Dulio, Oakland University; Brad Rourke, Institute for Global Ethics; Robin Kolodny, Temple University; L. Dale Lawton, Institute for Global Ethics; L. Sandy Maisel, Colby College; Larry Makinson, Center for Responsive Politics; Stephen K. Medvic, Franklin Marshall College; Dale E. Miller, Old Dominion University; Candice J. Nelson, Center for Congressional and Presidential Studies, American University; Mark A. Siegel, Office of Congressman Steve Israel; Paul Taylor, Alliance for Better Campaigns; James A. Thurber, Center for Congressional and Presidential Studies, American University; Michael W. Traugott, University of Michigan; Carol Whitney, Whitney and Associates; and Center for Congressional and Presidential Studies, American University; and William H. Wood, Sorenson Institute for Political Leadership, University of Virginia. *What Do We Expect from Our Government?* Alison Brooks, 2012. *Political Campaign Communication* Robert E. Denton Jr., Ben Voth, Judith S. Trent, Robert V. Friedenberg, 2023-11-20 The tenth edition of *Political Campaign Communication: Principles and Practices* provides a clear and thorough survey of the strategic decisions vital to the success of contemporary political campaigns. The authors draw on a host of examples involving political campaigns at local, statewide, and national levels to illustrate all aspects of campaign communication, from forms of public address to buttons, yard signs, and billboards to traditional media and the use of internet and social media platforms. Throughout the volume, they draw on communication theories to clearly explain contemporary political campaign practices. Updated to reflect the most recent practices and events from the 2020 presidential campaign, the book also considers journalistic practices and ethical considerations of today. Features of the tenth edition include examples and data from the 2020 election cycle; updated and expanded discussion of social media platforms and practices; increased art and graphics program to engage students and increase information retention; expanded discussion of the history, practice, and state of journalism today; new chapter on local elections and offices. **For Better or Worse?** David A. Dulio, 2012-02-01 *For Better or Worse* offers a fresh look at how professional campaign consultants have both positive and negative effects on democracy in the United States. Burton, William J. Miller, Daniel M. Shea, 2015-06-23 The go to source on campaign management for nearly two decades is now updated to cover the latest in contemporary campaign expertise from general strategy to voter contact to the future of political campaigns Political campaigning reinvents itself at a furious pace This highly respected text recounts the evolution of modern campaign management and shares strategies and tactics common to American elections Informed by the practical political experience of three scholarly authors the book weaves important academic perspectives with insights garnered from close observation of electoral practice The fifth edition lays out the foundations of modern campaign management going on to explore critical steps in running a new style campaign Using fresh stories and recent research the book follows American electioneering from the planning stages through Election Day and concludes with a view to the future of political campaigning Critical updates examine the Tea Party movement new political technologies advances and challenges in opinion polling and field experimentation and increasing polarization within the American electorate New material includes an exploration of the Super PACs and non candidate campaigns that are changing the strategic context of American elections

Political Consultants and Campaigns Jason Johnson, 2018-04-19 *Political Consultants and Campaigns One Day to Sell* examines the differences between how political science theory suggests campaigns should be run and how political consultants actually run campaigns In the wake of consultants who effortlessly move from campaigners to policymakers the dearth of knowledge about the attitudes beliefs and strategies of the consultants themselves is still a glaring absence in the analysis of American politics How can we purport to know what is happening in American political campaigns if we don't know what is on the minds of the men and women who run them This book provides a clearer understanding of modern day political campaigns by revealing what is on the minds of the people who run them With original data from consultants campaign managers and professional campaign schools author Jason Johnson examines consultant behavior on message formation policy positioning candidate recruitment Internet strategy and negative advertising and compares these practices to existing political science theory This groundbreaking research makes *Political Consultants and Campaigns One Day to Sell* a must have resource for all students of American politics campaign managers or anyone interested in how political campaigns in America are run *Campaign and Election Reform* Glenn H. Utter, Ruth Ann Strickland, 2008-06-10 This handbook provides a sweeping overview of U S campaign and election reform efforts past and present from the introduction of the secret ballot to touch screen voting Emphasizing the major electoral reforms since 2000 this second edition of *Campaign and Election Reform* investigates the development of the American electoral system from colonial times to the present It chronicles efforts to expand suffrage reform campaign financing and prevent vote fraud and traces the development of election technology from the paper ballot to the lever voting machine from the punch card ballot to the

optical scan and touch screen systems The book also explores alternative voting systems such as preference voting and proportional representation and compares the U S electoral process with the voting systems of selected European democracies Campaign and Election Reform Second Edition is essential reading for any citizen who wants to understand the U S electoral system what s wrong with it and how it might be fixed *Vital Signs* David A. Dulio, Candice J.

Nelson, 2006-05-26 It was the best of elections it was the worst of elections The 2004 presidential contest mobilized a record number of voters with 121 million Americans showing up at the polls But in many eyes the 2004 race also plumbed new depths It was the most expensive presidential election in history with a price tag of 2.2 billion It was also marked by unprecedented negativity for example both George W Bush and John Kerry came under fire for their activities during the Vietnam War which ended three decades ago In *Vital Signs* David Dulio and Candice Nelson analyze the Bush and Kerry campaigns and use them as the springboard for a broader exploration of the current U S campaign system and its strengths and weaknesses The book addresses four key issues Who s in charge of modern campaigns How effective are the key players What role does money play And are campaigns being conducted in an ethical manner In answering these questions Dulio and Nelson draw on a wide range of sources including focus groups interviews with campaign professionals and a unique dataset based on multiple surveys of political consultants party operatives and the public The culmination of the seven year

Facing the Challenge of Democracy Paul M. Sniderman, Benjamin Highton, 2011-10-10 Citizens are political simpletons that is only a modest exaggeration of a common characterization of voters Certainly there is no shortage of evidence of citizens limited political knowledge even about matters of the highest importance along with inconsistencies in their thinking some glaring by any standard But this picture of citizens all too often approaches caricature Paul Sniderman and Benjamin Highton bring together leading political scientists who offer new insights into the political thinking of the public the causes of party polarization the motivations for political participation and the paradoxical relationship between

turnout and democratic representation These studies propel a foundational argument about democracy Voters can only do as well as the alternatives on offer These alternatives are constrained by third players in particular activists interest groups and financial contributors The result voters often appear to be shortsighted extreme and inconsistent because the alternatives they must choose between are shortsighted extreme and inconsistent Facing the Challenge of Democracy features contributions by John Aldrich Stephen Ansolabehere Edward Carmines Jack Citrin Susanna Dilliplane Christopher Ellis Michael Ensley Melanie Freeze Donald Green Eitan Hersch Simon Jackman Gary Jacobson Matthew Knee Jonathan Krasno Arthur Lupia David Magleby Eric McGhee Diana Mutz Candice Nelson Benjamin Page Kathryn Pearson Eric Schickler John Sides James Stimson Lynn Vavreck Michael Wagner Mark Westlye and Tao Xie **Lights, Camera, Campaign!** David Andrew Schultz, 2004 Political scientists investigate the impact that political advertisements have on political campaigns and elections They use case studies interviews and analysis of specific campaigns and ads mostly in the US but also in Canada to explain how ads are constructed why some work and some fail and the factors about political ads that allow them

Hasen, 2016-01-12 Campaign financing is one of today's most divisive political issues The left asserts that the electoral process is rife with corruption The right protests that the real aim of campaign limits is to suppress political activity and protect incumbents Meanwhile money flows freely on both sides In *Plutocrats United* Richard Hasen argues that both left and right avoid the key issue of the new Citizens United era balancing political inequality with free speech The Supreme Court has long held that corruption and its appearance are the only reasons to constitutionally restrict campaign funds Progressives often agree but have a much broader view of corruption Hasen argues for a new focus and way forward if the government is to ensure robust political debate the Supreme Court should allow limits on money in politics to prevent those with great economic power from distorting the political process
