*Shades of White* Pamela Perry, 2002-02-14 A comparative ethnography in two high schools one urban and one suburban that studies the differing notions of whiteness and race that predominate among students at each school Class Construction Carrie Freie, 2007-01-01 *Class Construction White Working Class Student Identity in the New Millennium* explores the identity development of a group of white working class high school students in a de industrialized area of the Northeast This ethnographic study explores class racial and gender identity construction and focuses on the ways the students perceptions of their current and future classed raced and gendered selves are negotiated within the context of the school structure Class Construction , *Multicultural America* Carlos E. Cortés, 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U S Census data to examine multiculturalism today and tomorrow in America This distinction is important considering the following NPR report by Eyder Peralta Based on the first national numbers released by the Census Bureau the AP reports that minorities account for 90 percent of the total U S growth since 2000 due to immigration and higher birth rates for Latinos According to John Logan a Brown University sociologist who has analyzed most of the census figures The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations Both non Hispanic whites and blacks are getting older as a group These groups are tending to fade out he added Another demographer William H Frey with the Brookings Institution told The Washington Post that this has been a pivotal decade We re pivoting from a white black dominated American population to one that is multiracial and multicultural *Multicultural America* A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today Pedagogical elements include an introduction a thematic reader s guide a chronology of multicultural milestones a glossary a resource guide to key books journals and Internet sites and an appendix of 2010 U S Census Data Finally the electronic version will be the only reference work on this topic to augment written entries with multimedia for today s students with 100 videos with transcripts from Getty Images and Video Vault the Agence France Press and Sky News as reviewed by the media librarian of the Rutgers University Libraries working in concert with the title s editors *The Well-Being, Peer Cultures and Rights of Children* Loretta E. of those who live within the boundaries of society The essays include works that use semi structured interviews ethnographies and auto ethnographies to inform the analysis of race ethnicity and the life course

**Whiteness and Racialized Ethnic Groups in the United States** Sherrow O. Pinder, 2012-01-01 Whiteness and Racialized Ethnic Groups in the United States in order to account for the never ending discrimination toward racialized ethnic groups including First Nations blacks Chinese and Mexicans revisits the history of whiteness in the United States It shows the difference between remembering a history of human indignities and recreating one that composes its own textual memory More specifically it reformulates how the historically reliant positionality of whiteness as a part of the everyday practice and discourse of white supremacy would later become institutionalized Even though whiteness studies with the intention of exposing white privilege has entered the realm of academic research and is moving toward antiracist forms of whiteness or at least toward antiracist approaches for a different form of whiteness it is not equipped to relinquish the privilege that comes with normalized whiteness Hence in order to construct a post white identity whiteness would have to be denormalized and freed of it of its presumptive hegemony

Social Justice, Multicultural Counseling, and Practice Heesoon Jun, 2010 This book takes a new approach to teaching students to think and learn about issues of race and diversity It aims to break down the traditional categorizations of racial ethnic groupings and focuses on teaching students to think and learn in a multidimensional manner rather than in a linear fashion The key to the book lies in its aim to teach students to practise culturally competent counselling by taking into consideration a client s multiple identities such as a middle aged African American woman who might be facing issues due to her racial grouping her age and her gender The book is filled with activities exercises and examples that help students think about racism in a non traditional manner rather than the typical ways often taught making it very timely and reflecting the transformation of thinking that is occurring in the field

Price, 2021 This book follows along all the stages in the college prep pipeline from access in school to participation in classes to demonstration of mastery of the course content Today s research focuses on the middle stage who participates in the courses and who does not Since the turn of the century scholarly work in the US largely ignores the first part of the pipeline about whether or not students even have access to these courses in their districts Nearly no studies address mastery except for the College Board s own reporting on the issue      **Closing the Opportunity Gap** Prudence L. Carter, Kevin G. Welner, 2013-04-26 While the achievement gap has dominated policy discussions over the past two decades relatively little attention has been paid to a gap even more at odds with American ideals the opportunity gap Opportunity and achievement while inextricably connected are very different goals Every American will not go to college but every American should be given a fair chance to be prepared for college In communities across the U S children lack the crucial resources and opportunities inside and outside of schools that they need if they are to reach their potential Closing the Opportunity Gap offers accessible research based essays written by top experts who highlight the discrepancies that exist in our public schools focusing on how policy decisions and life circumstances conspire to create the opportunity gap that leads inexorably to stark achievement gaps They also describe sensible policies grounded in evidence that can restore and enhance opportunities Moving beyond conventional academic discourse Closing the Opportunity Gap will spark vital new conversations about what schools parents educators and policymakers can and should do to give all children a fair chance to thrive      *Taken for Granted* Eviatar Zerubavel, 2018-04-24 How the words we use and don t use reinforce dominant cultural norms Why is the term openly gay so widely used but openly straight is not What are the unspoken assumptions behind terms like male nurse working mom and white trash Offering a revealing and provocative look at the word choices we make every

day without even realizing it Taken for Granted exposes the subtly encoded ways we talk about race gender sexual orientation religion social status and more In this engaging and insightful book Eviatar Zerubavel describes how the words we use such as when we mark the best female basketball player but leave her male counterpart unmarked provide telling clues about the things many of us take for granted By marking women s history or Black History Month we are also reinforcing the apparent normality of the history of white men When we mark something as being special or somehow noticeable that which goes unmarked such as maleness whiteness straightness and able bodiedness is assumed to be ordinary by default Zerubavel shows how this tacit normalizing of certain identities practices and ideas helps to maintain their cultural dominance including the power to dictate what others take for granted A little book about a very big idea Taken for Granted draws our attention to what we implicitly assume to be normal and in the process unsettles the very notion of normality

**Academic Profiling** Gilda L. Ochoa,2013-10-01 Today the achievement gap is hotly debated among pundits politicians and educators In particular this conversation often focuses on the two fastest growing demographic groups in the United States Asian Americans and Latinos In Academic Profiling Gilda L Ochoa addresses this so called gap by going directly to the source At one California public high school where the controversy is lived every day Ochoa turns to the students teachers and parents to learn about the very real disparities in opportunity status treatment and assumptions that lead to more than just gaps in achievement In candid and at times heart wrenching detail the students tell stories of encouragement and neglect on their paths to graduation Separated by unequal middle schools and curriculum tracking they are divided by race class and gender While those channeled into an International Baccalaureate Program boast about Socratic classes and stress release sessions students left out of such programs commonly describe uninspired teaching and inaccessible counseling Students unequally labeled encounter differential policing and assumptions based on their abilities disparities compounded by the growth in the private tutoring industry that favors the already economically privileged Despite the entrenched inequality in today s schools Academic Profiling finds hope in the many ways students and teachers are affirming identities creating alternative spaces and fostering critical consciousness When Ochoa shares the results of her research with the high school we see the new possibilities and limits of change

**Innovations in Educational Ethnography** George Spindler, Lorie Hammond, 2012-10-12 This volume focuses on and exemplifies how ethnography a research tool devoted to looking at human interaction as a cultural process rather than individual psychology can shed light on educational processes framed by the complex internationalized societies in which we live today Part I offers theoretical chapters about ethnography and examples of innovative ethnography from particular perspectives In Part II the emphasis is on the application of ethnographic approaches to educational settings Each contribution not only takes the reader on a thoughtful and enlightening journey but raises issues that are important to both educators and ethnographers including the relationship of researcher to subject the meaning of participant in participant observation and ways to give voice to disenfranchised players and on the complex ways in which all parties experience identities such as race in the modern world **Innovations in Educational Ethnography Theory Methods and Results** is a product of both continuity and change It presents current writings from mentors in the field of ethnography and education as well of the work of their students and of educators engaged in cultural studies of their work In many ways it provides fresh new vistas on the old questions that have always guided ethnographic research and can be used as a survey both of what ethnography has been and what it is becoming This book is the work of many hands and provides excellent examples of trends in both basic and applied ethnography of education These two kinds of work augment and reinforce each other and also represent important current research directions in depth reflection on the process of ethnography itself and an application of its insights to teaching and learning in schools universities and communities No one philosophy guides the contributions to this volume nor were they chosen as exemplary of a particular approach yet foundational understandings and principles of ethnography shine through the work in both predictable and unexpected ways
