Shadow Of Reason:

, Kill Religion! The Deserved Death of Faith Ranty McRanterson, 2018-02-07 Have you ever wondered why people have faith Why don't they choose not to have faith How does it help you to believe things for which no reasons or evidence can be provided Is faith pure wish fulfillment Is it social conditioning brainwashing mind control Imagine a world where no one had ever heard of Moses the Buddha Jesus and Mohammed but everyone had heard of Pythagoras Socrates Plato and Aristotle Would our world be better or worse Imagine that not a single person believed in anything Imagine that no one placed any faith in anything Imagine that everyone was rational logical and committed to evidence and proof Imagine that everything was rejected that didn't involve reason logic evidence and proof How would that lead to a worse world Wouldn't humans be much smarter Wouldn't they evolve much faster *Marks of Distinctions* Irven M. Resnick, 2012-06 For medieval Latin Christendom texts such as the Bible and the writings of the Fathers of the Church gave form to Christian perceptions of Jews and Judaism Eye witness testimony hearsay reports of converts from Judaism and the testimony of dreams visions and miraculous events helped fill in the details The author explores the additional support drawn from medieval science by studying long held medieval scientific theories that predisposed Jews to certain types of offensive behavior or even to communicate certain illnesses and disease By arguing for a Jewish nature dictated by specific physical characteristics medieval scientific authorities contributed to growing fears of a Jewish threat Externally these differences were evidenced by marks that physically distinguished Jews for example circumcision Internally their melancholy humoral complexion further weakened by the Jews dietary restrictions was thought to dictate their temperament and sexual mores and to incline them toward leprosy bleeding hemorrhoids and other infirmities These differences were viewed by some as ineradicable even following religious conversion or at best erasable with only the greatest difficulty over several generations *Philosophy and Cognitive Science: Categories, Consciousness, and Reasoning* A. Larrazabal, 2013-06-29 PHILOSOPHY AND COGNITIVE SCIENCE CATEGORIES CONSCIOUSNESS AND REASONING The individual man since his separate existence is manifested only by ignorance and error so far as he is anything apart from his fellows and from what he and they are to be is only a negation Peirce Some Consequences of Four Incapacities 1868 For the second time the International Colloquium on Cognitive Science gathered at San Sebastian from May 7-11 1991 to discuss the following main topics Knowledge of Categories Consciousness Reasoning and Interpretation Evolution Biology and Mind It is not an easy task to introduce in a few words the content of this volume We have collected eleven invited papers presented at the Colloquium which means the substantial part of it Unfortunately it has not been possible to include all the invited lectures of the meeting Before sketching and showing the relevance of each paper let us explain the reasons for having adopted the decision to organize each two years an international colloquium on Cognitive Science at Donostia San Sebastian First of all Cognitive Science is a very active research area in the world linking multidisciplinary efforts coming mostly from psychology

artificial intelligence theoretical linguistics and neurobiology and using more and more formal tools We think that this new discipline lacks solid foundations and in this sense philosophy particularly knowledge theory and logic must be called for
