Shadow Of The Hunter Stories Of Eskimo Life:

Shadow of the Hunter Richard K. Nelson, 1980-01-01 A collection of stories based upon the author's experiences in an Eskimo village of the Tareogmiut or people of the sea The Shadow of the Hunter Richard K. Nelson, 1983 Shadow of the Hunter Richard K. Nelson, 1983-04-15 Follows a group of Eskimo hunters and their families through the cycle of an arctic year and looks at the different realms of the Eskimo world **Critical Norths** Sarah Jaquette Ray, Kevin Maier, 2017-05-15 For millennia the North has held a powerful sway in Western culture Long seen through contradictions empty of life yet full of promise populated by indigenous communities yet ripe for conquest pristine yet marked by a long human history it has moved to the foreground of contemporary life as the most dramatic stage for the reality of climate change This book brings together scholars from a range of disciplines to ask key questions about the North and how we've conceived it and how conceiving of it in those terms has caused us to fail the region's human and nonhuman life Engaging questions of space place indigeneity identity nature the environment justice narrative history and more it offers a crucial starting point for an essential rethinking of both the idea and the reality of the North *Historical Dictionary of the Inuit* Pamela R. Stern, 2004-07-27 The approximately 150 000 Inuit are indigenous to four nations Denmark Greenland Canada the United States Alaska and Russia and thus have had very different colonial experiences and participate as citizens of those nations in different ways Far from being victims of colonialism Inuit are actively involved in shaping their social environments Nonetheless modern social and political realities present Inuit with many of the same issues faced by distinct peoples around the world This volume describes how Inuit as a single people citizens of separate nations and residents of individual communities deal with education language rights self government and self determination the militarization of their lands and their lives climate change and pollution and globalization This work presents an overview of the Inuit peoples of the Circumpolar North Unlike other works that focus on traditional Inuit cultures this work documents the social political and economic history of Inuit as part of a globalized world The work contains information on traditional Inuit cultures but special emphasis is placed on the recent history of Inuit communities More than 450 dictionary entries cover issues of society economy and politics influential educators and writers environmentalists and politicians and the many voluntary associations and governmental agencies that have played a role in Inuit history The introductory essay chronology and well developed bibliography make this an ideal reference source for the researcher or student Raven's Witness Hank Lentfer, 2020-07-07 Banff Mountain Book Award Winner Grand Prize Banff Mountain Book Award Winner Mountain Literature A lovely tribute that illuminates what makes a life extraordinary High Country News Richard K Nelson was the host of the national public radio series Encounters Nelson was an anthropologist who lived with Alaska Native tribes and spoke both Inupiat and Koyukon Based on Nelson's journals and interviews with Gary Snyder Barry Lopez Rick Bass and others He listened to his Native Alaskan teachers immersed himself in their landscapes as a naturalist and became without intending to a great

teacher himself Barry Lopez from the foreword Before his death in 2019 cultural anthropologist author and radio producer Richard K Nelson's work focused primarily on the indigenous cultures of Alaska and more generally on the relationships between people and nature Nelson lived for extended periods in Athabaskan and Alaskan Eskimo villages experiences which inspired his earliest written works including *Hunters of the Northern Ice* In *Raven's Witness* Lentfer tells Nelson's story from his midwestern childhood to his first experiences with Native culture in Alaska through his own lifelong passion for the land where he so belonged Nelson was the author of the bestselling *The Island Within* and *Heart and Blood* The recipient of multiple honorary degrees and numerous literary awards he regularly packed auditoriums when he spoke His depth of experience allowed him to become an intermediary between worlds This is his story Find out more at www.ravenswitness.com and learn how you can help bring this story to life here [Inupiatun Uqaluit Taniktun Sivuninit/Inupiaq to English Dictionary](#) ,2014-10-15 Inupiatun Uqaluit Taniktun Sivuni it Inupiaq to English Dictionary with approximately 19 000 entries word stems suffixes and endings and thirty one appendices is a rich cultural and linguistic resource of the Inupiaq language the ancestral language of approximately five thousand Inupiat who live in eight villages on the North Slope of Alaska Inupiaq word stems suffixes and endings can combine to form thousands of combinations and each entry has an English translation Many entries contain a verbal illustration in Inupiaq also translated into English Every entry contains a morpheme by morpheme analysis Of the dictionary's thirty one appendices twenty four contain lists of terms from different categories including kin terms ice and snow terms temporal terms names of constellations ocean currents and winds area references spatial terms an explanation of the Inupiat counting system also a list of cardinal and ordinal numbers Inupiaq personal names names of plants and animals including mammals insects birds fish molluscs and crustaceans a list of exclamations and names of the seasons months The other seven appendices are illustrations of an umiak a kayak a bowhead whale a human skull a human skeleton and a traditional sod house The various parts of each item are identified and named

The Meat Paradox Rob Percival,2022-03-01 From a vital new voice in food ethics comes a smart nuanced investigation into the current meat debate Our future diet will be shaped by diverse forces It will be shaped by novel technologies by geopolitical tensions and the evolution of cultural preferences by shocks to the status quo pandemics and economic strife the escalation of the climate and ecological crises and by how we choose to respond It will also be shaped by our emotions It will be shaped by the meat paradox Should we eat animals was until recently a question reserved for moral philosophers and an ethically minded minority but it is now posed on restaurant menus and supermarket shelves on social media and morning television The recent surge in popularity for veganism in the UK Europe and North America has created a rupture in the rites and rituals of meat challenging the cultural narratives that sustain our omnivory In *The Meat Paradox* Rob Percival an expert in the politics of meat searches for the evolutionary origins of the meat paradox asking when our relationship with meat first became emotionally and ethically complicated Every society must eat and meat provides an important source of nutrients But every

society is moved by its empathy We must all find a way of balancing competing and contradictory imperatives This new book is essential reading for anyone interested in the origins of our empathy the psychology of our dietary choices and anyone who has wondered whether they should or shouldn't eat meat **Subsistence Whaling** James M. Savelle, Nobuhiro Kishigami, Gregory G. Monks, 2025-06-28

This book examines the past history and contemporary status of subsistence whaling The papers derive from a symposium Aboriginal Whaling and Identity in the 21st Century held at the Eleventh Conference on Hunting and Gathering Societies in Vienna Austria in September 2015 Whales especially large baleen whales are the largest animals targeted by many societies prehistoric or modern and major facets of subsistence social structure and ideology are still deeply embedded in past and current whaling lifeways Yet there is probably no other environmental political issue that has attracted as much attention in the late 20th and early 21st century as whaling practices and policies Accordingly the papers address two major themes 1 the extent and characteristics of major prehistoric and early historic whaling activities and 2 case studies amongst modern whaling societies and how these societies are impacted by current political and economic realities and by the anti whaling movement *Cold Comfort* Graham W. Rowley, 1996-06-11

Rowley documents an era of arctic exploration of which little has been written and which is fast passing from living memory He captures the traditional way of life in the North before the dramatic changes of the last half century A member of the last expedition in the Canadian North to depend on traditional techniques Rowley recounts how they lived as the Inuit did and travelled by dogsled over unexplored land He describes the isolation the extraordinary vicissitudes of travel in a sometimes savage environment and the generosity and kindness of the Inuit Apart from completing the map of Baffin Island's coastline and finding new islands Rowley excavated the first pure Dorset site near Igloolik establishing the Dorset culture beyond doubt The carvings and artifacts found there illustrations of which are included in this book remain among the best and most beautiful that have been recovered Based on his own diary and the diaries of other members of the expedition Rowley's captivating story presents the perceptions of a young man faced with a completely alien yet fascinating environment and culture A true and often exciting tale of discovery *Cold Comfort* will appeal to a wide audience as well as to those concerned with the Arctic in general It is an invaluable source for those who specialize in the archaeology anthropology geography and history of northern Canada **The American Museum Journal** American Museum of Natural History, 1919 Geography of Climate Change Richard Aspinall, 2013-09-13

Climate change is one of the inescapable themes of current times Climate change confronts society in issues as diverse as domestic and international political debate and negotiation discussion in the media and public opinion land management choices and decisions and concerns about environmental social and economic priorities now and for the future Climate change also spans spatial temporal and organisational scales and has strong links with nature society relationships environmental dynamics and vulnerability Understanding the full range of possible consequences of climate change is essential for informed decision making and debate This book provides a collection of

chapters that span environmental social and economic aspects of climate change Together the chapters provide a diverse and contrasting series that highlights the need to analyze review and debate climate change and its possible impacts and consequences from multiple perspectives The book also is intended to promote discussion and debate of a more integrated inclusive and open approach to climate change and demonstrates the value of geography in addressing climate change issues This book was originally published as a special issue of Annals of the Association of American Geographers Where Mountains are Nameless Jonathan Waterman,2005 This portrait makes the stakes over the refuge vividly clear Jacket

Native People, Native Lands Bruce Alden Cox,1988 The changing roles of native women devices for assimilation the re birth of the Metis these are among the issues examined in this collection of provocative essays which explore the link between aboriginal culture and economic patterns *Subject Catalog* Library of Congress,1981 Whale Snow Chie Sakakibara,2020-10-06 As a mythical creature the whale has been responsible for many transformations in the world It is an enchanting being that humans have long felt a connection to In the contemporary environmental imagination whales are charismatic megafauna feeding our environmentalism and aspirations for a better and more sustainable future Using multispecies ethnography Whale Snow explores how everyday the relatedness of the I upiat of Arctic Alaska and the bowhead whale forms and transforms the human through their encounters with modernity Whale Snow shows how the people live in the world that intersects with other beings how these connections came into being and most importantly how such intimate and intense relations help humans survive the social challenges incurred by climate change In this time of ecological transition exploring multispecies relatedness is crucial as it keeps social capacities to adapt relational elastic and resilient In the Arctic climate culture and human resilience are connected through bowhead whaling In Whale Snow we see how climate change disrupts this ancient practice and in the process affects a vital expression of Indigenous sovereignty Ultimately though this book offers a story of hope grounded in multispecies resilience Collecting and Interpreting Qualitative Materials Norman K. Denzin,2008 Collecting and Interpreting Qualitative Materials Third Edition is the third volume of the paperback versions of The SAGE Handbook of Qualitative Research Third Edition This portion of the handbook considers the tasks of collecting analyzing and interpreting empirical materials and comprises the Handbook s Parts IV SMethods of Collecting and Analyzing Empirical Materials and V SThe Art and Practices of Interpretation Evaluation and Presentation Collecting and Interpreting Qualitative Materials Third Edition introduces the researcher to basic methods of gathering analyzing and interpreting qualitative empirical materials Part I moves from interviewing to observing to the use of artifacts documents and records from the past to visual and autoethnographic methods It then takes up analysis methods including computer assisted methodologies as well as strategies for analyzing talk and text Key Feature of the Third Edition Contains a new Reader s Guide prepared by the editors that helps students and researchers navigate through the chapters locating the different methodologies methods techniques issues and theories relevant to their work Presents an abbreviated Glossary of

terms that offer students and researchers a ready resource to help decode the language of qualitative research Offers recommended Readings that provide readers with additional sources on specific topic areas linked to their research Intended Audience This text is designed for graduate students taking classes in social research methods and qualitative methods as well as researchers throughout the social sciences and in some fields within the humanities Canadian Children's Literature ,1983 Dictionary of Native American Mythology Sam D. Gill,Irene F. Sullivan,1992-06-30 This dictionary containing more than 1 300 entries is a careful selection of the distinctive stories characters themes symbols and motifs that interweave the traditions of over 100 different Native American cultures The alphabetically arranged entries are rigorously cross referenced allowing the reader to pursue in depth a particular path of inquiry Each entry cites tribal origin and the corresponding geographic region These regions in turn are keyed to ten tribal territory maps that pinpoint exact tribe locations book jacket **Nature and Culture** Sarah Pilgrim,Jules N. Pretty,2010-09-23 There is a growing recognition that the diversity of life comprises both biological and cultural diversity But this division is not universal and in many cases has been deepened by the common disciplinary divide between the natural and social sciences and our apparent need to manage and control nature This book goes beyond divisive definitions and investigates the bridges linking biological and cultural diversity The international team of authors explore the common drivers of loss and argue that policy responses should target both forms of diversity in a novel integrative approach to conservation thus reducing the gap between science policy and practice While conserving nature alongside human cultures presents unique challenges this book forcefully shows that any hope for saving biological diversity is predicated on a concomitant effort to appreciate and protect cultural diversity
