

SHADOW TARGET

A man in a dark suit is walking away from the viewer down a wide city street at night. The street is illuminated by a bright, yellowish light source in the distance, creating a strong silhouette effect. Tall, modern buildings line both sides of the street. The sky is dark and filled with dramatic, swirling clouds, with a hint of a bright light breaking through in the distance.

Privacy-Preserving Machine Learning Jin Li, Ping Li, Zheli Liu, Xiaofeng Chen, Tong Li, 2022-03-14. This book provides a thorough overview of the evolution of privacy-preserving machine learning schemes over the last ten years, after discussing the importance of privacy-preserving techniques. In response to the diversity of Internet services, data services based on machine learning are now available for various applications, including risk assessment and image recognition. In light of open access to datasets and not fully trusted environments, machine learning-based applications face enormous security and privacy risks. In turn, it presents studies conducted to address privacy issues and a series of proposed solutions for ensuring privacy protection in machine learning tasks involving multiple parties. In closing, the book reviews state-of-the-art privacy-preserving techniques and examines the security threats they face.
