This book offers students a lens through which to decolonize the main themes and issues of political science, from human rights and citizenship to development and global justice. Not content with revealing the colonial legacies that still inform the discipline, the book also introduces students to a wide range of intellectual resources from the post-colonial world that will help them think through the same themes and issues more

expansively Decolonizing Politics is a much needed critical guide for students of political science It shifts the study of political science from the centers of power to its margins where the majority of humanity lives Ultimately the book argues that those who occupy the margins are not powerless Rather marginal positions might afford a deeper understanding of politics than can be provided by mainstream approaches
