**The Shadow of Death** Philip E. Ginsburg, 1993-01-01      *The Shadow of Death* Philip E. Ginsburg, 2018-07-31 A riveting account of the search for a latter day Jack the Ripper in New England Rich with characterization and insight and a real page turner Jonathan Kellerman In the mid 1980s someone stabbed six women to death in the Connecticut River Valley on the border between New Hampshire and Vermont The murderer remains at large and the total number of his victims is unknown In this brilliant work of true crime reportage New York Times bestselling author Philip E Ginsburg provides fascinating insights into the groundbreaking forensic methods used to track the killer and paints indelible portraits of the lives he cut so tragically short The Shadow of Death re creates the fear that consumed the idyllic region when young women began to disappear with horrifying regularity Neighbors used to leaving their doors unlocked suddenly wondered who among them was a sadistic serial killer Friends and family of the victims were left to endure the bottomless pain of imagining their loved ones terrifying last moments Desperate to stop the slayings local police and FBI investigators used exotic new techniques to try to unmask the murderer In some of the book s most harrowing sections Ginsburg documents the extraordinary efforts of psychologist John Philpin as he risks his own emotional stability to get inside the mind of a madman Law enforcement officials identified several suspects and came tantalizingly close to putting all the pieces of the puzzle together but it was only after a pregnant woman survived a brutal attack that the killings appeared to stop The question remains Could they start again The Shadow of Death is a riveting profile of one of America s greatest unsolved mysteries Kirkus Reviews      *Fatal Violence* Ronald M. Holmes, Stephen T. Holmes, 2010-06-23 From serial murderers to parents who kill *Fatal Violence* Case Studies and Analysis of Emerging Forms provides an insider s look at a phenomenon that has existed since the dawn of man and cuts across social economic barriers and cultures Offering a rare glimpse into the minds of predators and containing chilling details of motives and methods th      **Using Murder** Philip Jenkins, In the last decade serial murder has become a source of major concern for law enforcement agencies while the serial killer has attracted widespread interest as a villain in popular culture There is no doubt however that popular fears and stereotypes have vastly exaggerated the actual scale of multiple homicide activity In assessing the concern and the interest Jenkins has produced an innovative synthesis of approaches to social problem construction It includes an historical and social scientific estimate of the objective scale of serial murder a rhetorical analysis of the construction of the phenomenon in public debate and a cultural studies oriented analysis of the portrayal of serial murder in contemporary literature film and the mass media Using Murder suggests that a problem of this sort can only be understood in the context of its political and rhetorical dimension that fears of crime and violence are valuable for particular constituencies and interest groups which put them to their own uses In part these agendas are bureaucratic in the sense that exaggerated concern about the offense generates support for criminal justice agencies But other forces are at work in the culture at large where serial murder has become an invaluable rhetorical

weapon in public debates over issues like gender race and sexual orientation Serial murder is worthy of study not so much for its intrinsic significance but rather for what it suggests about the concerns needs and fears of the society that has come to portray it as an ultimate evil Using Murder is a highly original study of a powerful contemporary mythology by a criminologist and historian versed in the constructionist literature on the origins of moral panics The Essential Mystery Lists Roger M Sobin,2011-09-30 For the first time in one place Roger M Sobin has compiled a list of nominees and award winners of virtually every mystery award ever presented He has also included many of the best of lists by more than fifty of the most important contributors to the genre Mr Sobin spent more than two decades gathering the data and lists in this volume much of that time he used to recheck the accuracy of the material he had collected Several of the best of lists appear here for the first time in book form Several others have been unavailable for a number of years Of special note are Anthony Boucher s Best Picks for the Year Boucher one of the major mystery reviewers of all time reviewed for The San Francisco Chronicle Ellery Queen Mystery Magazine and The New York Times From these resources Mr Sobin created Boucher s Best and Important Lists to Consider lists that provide insight into important writing in the field from 1942 through Boucher s death in 1968 This is a great resource for all mystery readers and collectors Winner of the 2008 Macavity Awards for Best Mystery Nonfiction Geographic Profiling D.
