## Shadow Of Sparta:

**The Shadow of Sparta** Stephen Hodkinson, Anton Powell, 2002-09-11 In the past twenty years the study of Sparta has come of age Images prevalent earlier in the 20th century of Spartans as hearty good fellows or scarlet cloaked automata have been superseded by more complex scholarly reactions As interest has grown in the self images projected by this most secretive of Greek cities increasing attention has focused on how individual Greek writers from other states reacted to information or disinformation about Sparta The studies in this volume provide new insights into the traditional historians question What actually happened at Sparta But the implications of the work go far beyond Laconia They concern preoccupations of some of the most studied of Greek writers and help towards an understanding of how Athenians defined the achievement or the failure of their own city

**Sparta** Stephen Hodkinson, Anton Powell, 2009-12-31 The history of Sparta is increasingly seen as important not only for its own sake but also for understanding Athenian literature and the political history of numerous Greek states Traditional approaches to Sparta are now being supplemented by contributions from archaeology and the social sciences The renewed interest in Sparta is international The volume includes for the first time original contributions from most of the world s leading authorities on Spartan history

**Property and Wealth in Classical Sparta** Stephen Hodkinson, 2009-12-31 The standard image of Sparta is of an egalitarian military society which disdained material possessions Yet property and wealth played a critical role in her history Classical Sparta s success rested upon a compromise between rich and poor citizens Economic differences were masked by a uniform lifestyle and a communal sharing of resources Over time however increasing inequalities led to a plutocratic society and to the decline of Spartan power Using an innovative combination of historical archaeological and sociological methods Stephen Hodkinson challenges traditional views of Sparta s isolation from general Greek culture This volume is the first major monograph length discussion of a subject on which the author is recognised as the leading international authority

**Spartan Society** Thomas J. Figueira, 2004-12-31 This is the fifth volume from the International Sparta Seminar in the series founded by Anton Powell and Stephen Hodkinson Thomas J Figueira is here the editor of sixteen papers fifteen are new the other is newly translated from the French Among the authors are most of the world s leading authorities on the history of Sparta There are particular concentrations of papers on Spartan women the economy of Sparta helots and Messenians Xenophon and Sparta and the modern reception of Sparta

**Spartan Women** Sarah B. Pomeroy, 2002 In this book Sarah Pomeroy seeks to reconstruct the lives and the world of Sparta s women including how their legal status changed over time and how they held on to their surprising autonomy Written by one of the leading authorities on women in antiquity this is the first full length study of Spartan women

**Archaic Greece** Nick Fisher, Hans van Wees, 1998-12-31 The study of archaic Greece c 750 480 BC is being transformed by exciting discoveries and interpretations In fourteen original studies from a distinguished international cast this book explores many aspects of a rapidly changing Greek world Detailed re interpretation of archaeological material

reveals diversity in patterns of settlement sanctuaries and burial practices and shows motivations underlying the expanding exchange of goods and the settlement of new communities Local studies of archaeology and iconography revise our image of the peculiarity of Spartan society and East Greek cult Texts from Homer and Hesiod to a newly found poem of Simonides are given fresh interpretations And there are new studies of developments in maritime warfare the roles of literacy and law making in Crete the emergence of a less violent Greek life style and the articulation of political thought

Misinformation, Disinformation, and Propaganda in Greek Historiography Thomas Figueira, Rosaria Vignolo Munson, 2024-12-12 Mindful of the present state of discourse on ancient Greek historiography this edited volume explores the major themes of pursuing factuality managing witness source bias falling into historical error and creating or confronting propaganda Even the greatest ancient historians striving for factuality and truthfulness must commence from subjectivity Their works when studied closely reveal biases and conceptual or ideological distortions their own and others For this reason *Misinformation Disinformation and Propaganda in Greek Historiography* strives to evaluate the issues which stand in the way of factuality in historical texts and records The contributors all experts in the field explore and question the accuracy of the historiography in question the ancient author's fidelity to their sources and the evidence presented in relation to inherited oral traditions In this way an ancient author's methodology is evaluated in terms of its probability the awareness of its cultural variation and the influences which we can deduce within the texts This volume presents an important contribution to the study of what constitutes fact and fiction within ancient Greek historiography

**Speaking the Same Language** Paula Debnar, 2001 The first systematic study of the internal audiences in Thucydides and the first to focus on Spartan discourse throughout the History

**Xenophon and Sparta** Anton Powell, Nicolas Richer, 2020-03-01 Xenophon has for long and understandably enjoyed a privileged position as a reliable source on Sparta Commander of a grand military expedition of Sparta's devising and a dependent of Sparta's influential king Agesilaos Xenophon knew Sparta from the inside and as himself an Athenian in exile was well placed to comment on Sparta's difference The simplicity of his Greek style has a perfume of honesty And yet Recent research has with increasing force called into doubt Xenophon's motives and truthfulness especially as regards Sparta Analysis of his *Hellenica* reveals much evasion and euphemism about Sparta's failings complicated by occasional outbursts against the iniquity of Spartan imperialism His euphemistic *Constitution of the Lakedaimonians* itself containing such an outburst and his near hagiography of the dead Agesilaos have variously evoked trust and suspicion in historians This book by a distinguished team of specialists in Spartan history is the first of a short series from CPW approaching Spartan reality by way of close analysis of our main contemporary Greek sources their access their biases the literary structure and the genre of their works

**Slaves, Warfare, and Ideology in the Greek Historians** Peter Hunt, 2002-05-09 This book challenges conventional opinion by arguing that slaves and Helots played an important part in classical Greek warfare Although rival city states often used these classes in their own forces or tried to incite their enemies slaves to rebellion or

desertion such recruitment was ideologically awkward slaves or Helots despised and oppressed classes should have had no part in the military service so closely linked with citizenship with rule and even with an individual's basic worth Consequently their participation has tended to drop out of the historical record Focusing on Herodotus Thucydides and Xenophon this study attempts to demonstrate the actual role played by slaves and Helots in warfare the systematic neglect of the subject by these historians and the ideologies motivating this reticence

1994 Massimo Mastrogregori, 2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors

**Shadow Empires** Thomas J. Barfield, 2025-12-02 An original study of empire creation and its consequences from ancient through early modern times The world's first great empires established by the ancient Persians Chinese and Romans are well known but not the empires that emerged on their margins in response to them over the course of 2 500 years These counterempires or shadow empires which changed the course of history include the imperial nomad confederacies that arose in Mongolia and extorted resources from China rather than attempting to conquer it as well as maritime empires such as ancient Athens that controlled trade without seeking territorial hegemony In *Shadow Empires* Thomas Barfield identifies six kinds of counterempire and explores their rise politics economics and longevity What all these counterempires had in common was their interactions with existing empires that created the conditions for their development When highly successful these counterempires left the shadows to become the world's largest empires for example those of the medieval Muslim Arabs and of the Mongol heirs of Chinggis Khan Three former shadow empires Manchu Qing China Tsarist Russia and British India made this transformation in the late eighteenth century and came to rule most of Eurasia However the DNA of their origins endured in their unique ruling strategies Indeed world powers still use these strategies today long after their roots in shadow empires have been forgotten Looking afresh at the histories of important types of empires that are often ignored *Shadow Empires* provides an original account of empire formation from the ancient world to the early modern period

**Standing Among the Spartans** Philip John Victor Davies, 2025-02-20 Conformity uniformity institutionality exceptionality each of these terms encapsulates an aspect of the common perception of Sparta both among scholars and in the popular imagination This volume seeks to interrogate how rightly we may apply these terms to the Spartan citizen community in the classical period approximately 500-350 BC and reveals a much greater level of differentiation within this social group than is often assumed Drawing upon recent scholarship on Sparta theoretical and methodological discussions from within the wider fields of classical studies and ancient history and approaches to status and institutions developed in the social sciences Philip John Victor Davies examines the diverse factors which influenced the standing of individuals within the

Spartiate community and assesses how great a role institutions played in determining a Spartiate's standing and to what extent Sparta was as ancient accounts would suggest significantly more institutionalized than other Greek societies Placing Sparta in the context of the renewed interest in institutions and their social significance represented across multiple disciplines by the New Institutional turn he presents a more dynamic understanding of the internal life of the Spartiate community with a nuanced appreciation of the dimensions and limits of Sparta's exceptionality The Classical Tradition Anthony Grafton, Glenn W. Most, Salvatore Settis, 2010-10-25 A vast cabinet of curiosities Stephen Greenblatt Eclectic rather than exhaustive less an encyclopedia than a buffet Frederic Raphael Literary Review How do we get from the polis to the police Or from Odysseus's sirens to those of an ambulance The legacy of ancient Greece and Rome is all around us imitated resisted reworked and misunderstood In this beautifully illustrated and encyclopedic compendium a team of leading scholars investigates the afterlife of this rich heritage in the fields of literature philosophy art architecture history politics religion and science From Academy to Zoology Aristotle and the Argonauts to Pegasus and Persia The Classical Tradition looks at facts and adages people places and ideas to reveal how the Classical tradition has shaped human endeavors from government to medicine drama to urban planning legal theory to popular culture At once authoritative and accessible learned and entertaining it illuminates the vitality of these enduring influences *The Mind of the Master Class* Elizabeth Fox-Genovese, Eugene D. Genovese, 2005-10-17 The Mind of the Master Class tells of America's greatest historical tragedy It presents the slaveholders as men and women a great many of whom were intelligent honorable and pious It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves The South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist free labor society Blending classical and Christian traditions they forged a moral and political philosophy designed to sustain conservative principles in history political economy social theory and theology while translating them into political action Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times and ours beginning with the virtues and failings of their own society and culture Logoi and Muthoi William Wians, 2019-05-09 In Logoi and Muthoi William Wians builds on his earlier volume Logos and Muthos highlighting the richness and complexity of these terms that were once set firmly in opposition to one another as reason versus myth or rationality versus irrationality It was once common to think of intellectual history representing a straightforward progression from mythology to rationality These volumes however demonstrate the value of taking the two together opening up and analyzing a range of interactions reactions tensions and ambiguities arising between literary and philosophical forms of discourse including philosophical themes in works not ordinarily considered in the canon of Greek philosophical texts This new volume considers such topics as the pre philosophical origins of Anaximander's calendar the philosophical significance of public performance and claims of poetic inspiration and the complex role of mythic

figures including perhaps Socrates in Plato Taken together the essays offer new approaches to familiar texts and open up new possibilities for understanding the roles and relationships between muthos and logos in ancient Greek thought **CMJ**

twenty four papers originated at a conference held in 1999 which was dedicated to Xenophon s writings and to the many areas of Greek life for which he is a major source The contributions which also reflect the problems of recreating a life that we have so few facts for are divided into seven sections which discuss Xenophon s life Xenophon and Socrates Xenophon and the barbarian world Sparta religion and politics Anabasis Hellenica These wide ranging papers are specialised often based on a close reading on Xenophon s texts and not all of the Greek is translated Eighteen papers plus the introduction are in English the remaining papers are in Italian or German **CMJ New Music Report** ,2002-08-26 CMJ New Music Report is
