Conrad's Shadow Nidesh Lawtoo,2016-09-01 Western thought has often dismissed shadows as fictional but what if fictions reveal original truths Drawing on an anti Platonic tradition in critical theory Lawtoo adopts ethical anthropological and philosophical lenses to offer new readings of Joseph Conrad s novels and the postcolonial and cinematic works that respond to his oeuvre He argues that Conrad s fascination with doubles urges readers to reflect on the two sides of mimesis one side is dark and pathological and involves the escalation of violence contagious epidemics and catastrophic storms the other side is luminous and therapeutic and promotes communal survival postcolonial reconciliation and plastic adaptations to changing environments Once joined the two sides reveal Conrad as an author whose Janus faced fictions are powerfully relevant to our contemporary world of global violence and environmental crisis WHY ANYTHING - WHY NOT NOTHING: THE GOLDILOCKS PARAGON Captain Robert Cowley,2019-09-24 Captain Robert Cowley walked a deserted Pacific beach it was pre dawn dark and chilly Suddenly he heard a voice Robert look up He looked up and observed the faint glow of Mars

The Arc of a Covenant Walter Russell Mead,2022-07-05 A NEW YORK TIMES BEST BOOK OF THE YEAR A groundbreaking work that overturns the conventional understanding of the Israeli American relationship and in doing so explores how fundamental debates about American identity drive our country s foreign policy A sweeping and masterfully told history The New York Times In this bold examination of the Israeli American relationship Walter Russell Mead demolishes the myths that both pro Zionists and anti Zionists have fostered over the years He makes clear that Zionism has always been a divisive subject in the American Jewish community and that American Christians have often been the most fervent supporters of a Jewish state citing examples from the time of J P Morgan and John D Rockefeller to the present day He spotlights the almost forgotten story of left wing support for Zionism arguing that Eleanor Roosevelt and liberal New Dealers had more influence on President Truman s Israel policy than the American Jewish community and that Stalin s influence was more decisive than Truman s in Israel s struggle for independence Mead shows how Israel s rise in the Middle East helped kindle both the modern evangelical movement and the Sunbelt coalition that carried Reagan into the White House Highlighting the real sources of Israel s support across the American political spectrum he debunks the legend of the so called Israel lobby And he describes the aspects of American culture that make it hostile to anti Semitism and warns about the danger to that tradition of tolerance as our current culture wars heat up With original analysis and in lively prose Mead illuminates the American Israeli relationship how it affects contemporary politics and how it will influence the future of both that relationship and American life

The Other's War Tarik Kochi,2009-05-07 *The Other s War* is an intervention into a set of contemporary moral political and legal debates over the legitimacy of war and terrorism within the context of the so called global War on Terror Tarik Kochi considers how despite the variety of its approaches just war theory classical realist post Kantian poststructuralist contemporary ethical political and legal philosophy still struggles to produce a convincing account of war Focusing on the philosophical problem of the rightness of war *The Other s War* responds to this lack Through a discussion of a number of key Western intellectual traditions Kochi demonstrates how often conflicting and contradictory conceptions of war s rightness have developed in modernity He shows how a process of ordering violence around different

notions of right has constantly redrawn the boundaries of what constitutes legitimate violence. Such a process has consequences for anyone who claims to be fighting a just war. Building upon this account and drawing upon the philosophical heritage of G. W. F. Hegel and Ernst Bloch, *The Other's War* proposes a new understanding of war not just as a social condition characterised by violent conflict and struggles for power but as the attempt of individuals and groups to realise their normative claims through violence. Kochi argues that both of these aspects of war are an expression of the metaphysics of human subjectivity. War begins with and is the radical exaggeration of a fundamental activity of human subjectivity in which the subject constitutes its normative and material identity realising and positing itself through acts that involve negation and violence. By drawing consideration of the problem of war back to the level of a philosophical examination of the metaphysics of human subjectivity, *The Other's War* develops a novel theory of war that helps us to better understand the nature of contemporary conflict as a process of recognition. From this perspective, judgment it is concluded, needs to be constantly guided by the effort to recognise the ethics of the other's war.

What Are Biblical Values? John Collins, 2019-08-06. An illuminating exploration of the Bible and many of our most contentious contemporary issues. Many people today claim that their positions on various issues are grounded in biblical values and they use scriptural passages to support their claims. But the Bible was written over the course of several hundred years and contains contradictory positions on many issues. The Bible seldom provides simple answers; it more often shows the complexity of moral problems. Can we really speak of biblical values? In this eye-opening book, one of the world's leading biblical scholars argues that when we read the Bible with care, we are often surprised by what we find. Examining what the Bible actually says on a number of key themes, John Collins covers a vast array of topics including the right to life, gender, the role of women, the environment, slavery, and liberation, violence, and zeal, and social justice. With clarity and authority, he invites us to dramatically reimagine the basis for biblical ethics in the world today.

The Writing of Innocence Aïcha Liviana Messina, 2022-07-01. *The Writing of Innocence* explores the topic of innocence and the peculiar relationship to Christianity in the writing of Maurice Blanchot. Its starting point is that innocence is not a condition relegated to a mythical past but rather one resulting from the construction of the subject in and through language. Hence, we don't lose innocence; instead, we are lost by innocence. It is an excess, not a lack. This inverted notion of innocence raises new ethical and political issues that Aïcha Liviana Messina unfolds through vigorous readings of a series of biblical motifs including law, grace, and apocalypse. The closing chapter turns to the convergences and divergences between Jean-Luc Nancy's and Blanchot's understandings of the deconstruction of Christianity. With a foreword by philosopher Serge Margel, *The Writing of Innocence* offers a fresh perspective on Blanchot's writings in general and on his dialogue with Hegel in particular. While staging innocence in its philosophical and literary dimensions, *The Writing of Innocence* provides singular readings of works by Kierkegaard, Agamben, Derrida, Nancy, Camus, Hugo, and Kafka.
