Conspiracies and Atrocities in Afghanistan Engineer Fazel Ahmed Afghan MSc, 2015-06-12 Afghanistan is the victim of conspiracies History tells us about happenings and events of the past Life would be empty in the absence of history Therefore the author intrinsically motivated to understand his roots his motherland and the cause for the backwardness and suffering of Afghanistan decided to take this adventurous journey and complete this three hundred year history in thirty years and share them with all those interested about Afghanistan issues In the course of thirty years the author had gone through

Aid Paradoxes in Afghanistan Nematullah Bizhan, 2017-08-14 The relationship between aid and state building is highly complex and the effects of aid on weak states depend on donors interests aid modalities and the recipient s pre existing institutional and socio political conditions This book argues that in the case of Afghanistan the country inherited conditions that were not favourable for effective state building Although some of the problems that emerged in the post 2001 state building process were predictable the types of interventions that occurred including an aid architecture which largely bypassed the state the subordination of state building to the war on terror and the short horizon policy choices of donors and the Afghan government reduced the effectiveness of the aid and undermined effective state building By examining how foreign aid affected state building in Afghanistan since the US militarily intervened in Afghanistan in late 2001 until the end of President Hamid Karzai s first term in 2009 this book reveals the dynamic and complex relations between the Afghan government and foreign donors in their efforts to rebuild state institutions The work explores three key areas how donors supported government reforms to improve the taxation system how government reorganized the state s fiscal management system and how aid dependency and aid distribution outside the government budget affected interactions between state and society Given that external revenue in the form of tribute subsidies and aid has shaped the characteristics of the state in Afghanistan since the mid eighteenth century this book situates state building in a historical context This book will be invaluable for practitioners and anyone studying political economy state building international development and the politics of foreign aid

Nation, Ethnicity and the Conflict in Afghanistan Raghav Sharma, 2016-07-15 Ethnic and tribal loyalties in Afghanistan provided the lethal cocktail for the violent conflict that engulfed the country following the collapse of the Soviet backed government in 1992 The ensuing fighting between mujahideen groups paved the way for the tectonic social and political shifts which continue to shape events today What accounts for the emergence of ethnicity as the main cause of conflict in Afghanistan What moved people to respond with such fervour and intensity to calls for ethnic solidarity This book attempts to make sense of ethnicity's decisive role in Afghanistan through a comprehensive exploration of its nature and perception Based on new data generated through interviews field notes and participant observations Sharma maps the increased role of ethnicity in Afghan national politics Key social political and historical processes that facilitated its emergence as the pre dominant fault line of conflict are explored moving away from grand political and military narrative to instead engage with zones of conflict as social spaces This book will be of interest to students and scholars working in politics ethnic studies and security studies

Outlook, 2008-01-21 **Militia Order in Afghanistan** Matthew P. Dearing, 2021-07-18 This book offers a new insight into when and why paramilitary groups in Afghanistan engage in protective or predatory behavior against the civilians they purportedly defend In Afghanistan's counterinsurgency environment America leaned on militias to provide order and stabilize

communities cut off from weak central government institutions However the lucrative market of protection challenged militia loyalty as many engaged in banditry vendettas and predation This book examines the varying militia experiments in Afghanistan from 2001 to 2020 and their outcomes through three sub national case studies It argues that successful militia experiments in Afghanistan involved inclusion of local orders where communities had well established social structures and accountability mechanisms in place and state patrons relied upon those structures as a restraint against militia behavior Complementary management ensured patrons leaned on communities for strong accountability systems But such environments were far from the norm When patrons ignored community controls militias preyed on civilians as they monopolized the market of protection This book adds to the rich literature on the U S experience in Afghanistan but differs by focusing on the interplay between states communities and militias This book will be of much interest to students of military and strategic studies Asian politics security studies and International Relations

Life and Security in Rural Afghanistan Neamatollah Nojumi, Dyan Mazurana, Elizabeth Stites, 2010-01-06 To access the maps mentioned in this book [Click Here](#) Despite the fall of the Taliban Afghanistan remains a country in dire need of strong international support Only with an understanding of the conditions in both urban and rural areas will the international community be able to offer aid and remain committed to long term development This fascinating and clearly written book mines a rich and unique array of data which was collected in rural areas of Afghanistan by an expert team of researchers to analyze countrywide trends in the relationship between human security and livelihoods The team's research and recommendations published here for the first time suggest that international assistance or national development strategies that ignore the long term developmental and structural goals and sideline the moderate elements of Afghan society will be doomed to failure The authors' deeply informed policy recommendations will help to focus further action on vital issues such as co-optation of aid by armed political groups water scarcity contamination and degradation of the environment education health care agriculture livestock and land health and justice A valuable resource for students policymakers donor governments and national and international organizations Life

and Security in Rural Afghanistan opens a rare window into the otherwise hidden lives of the people of rural Afghanistan
