*The Shadow Within* Karen Hancock, 2024-06-04 Abram Kalladorn has returned to Kiriath to claim the crown he thought he would never wear and to prepare his people for the inevitable attack of the armies of the Black Moon Though fiercely opposed by his own kin and reluctant to thrust his country into civil war at the worst possible time he nevertheless believes this course of action is Kiriath's only hope of salvation In the midst of this turmoil a headstrong princess from a neighboring realm endeavors to uncover Abram's secrets including his heroic exploits as the White Pretender and the fact that he wears a golden shield upon his chest and her interference threatens to destroy any chance he has of maintaining his rightful place of king Against a backdrop of somber council meetings and back alley sword fights of magnificent ballrooms and windswept mountain fortresses plots and counterplots unfold as old alliances dissolve and new ones form If he is to succeed Abram must come to terms with his own limitations and the sufficiency of the one who controls his destiny [The Shadows Within](#) Gershon Shaked, 1987 **Metemphysics** Daniel Reurink, 2024-11-29 Metemphysics Quantum Relativity is the unique idea of the author which paints the very fabric we call existence The idea of Entropy based into various fields and the supporting and coinciding relationships to science reason and mysticism are explored within the concepts of entropy in the premise of disorder order and chaos This book probes the mystery of the mind and applies a new definition to quantum mechanics and general relativity under one model of a system called Metemphysics Metemphysics is based on Pythagoras' idea of Metempsychosis which supports transmigration of souls through various vehicles Metemphysics is using this same cyclic idea as the ordering process of reality in which science is supported to the mysteries ancient and futuristic wisdom This book contains ideas of space time supernova black holes metaphysical ideas religious connotations occult mysteries and application of how to use formulas within the models created The models represented are based upon Einstein Hawking Clausius Maxwell Newton Discordia and various other authors who support The Great Work This new paradigm for the shifting sands of time and also contains knowledge and wisdom from previous scientists and mystics For one does not tear down the old to build the new one builds the new with the old This book is an information genesis for the paradigm of quantum relativity based upon the idea of Metemphysics **The Shadow Within** Lynette Tait, 2017-07-27 The novel The Shadows

Within by Lynette Tait is aptly named in that it deals with the manic and depressing effects of bipolar disorder. It is most enlightening and should be of great value to those suffering from the disorder as well as to those indirectly influenced—lovers, friends or relatives. This can result in a greater understanding of the disorder and contribute to support and encourage empathy toward victims of this disorder. This disorder is interwoven in a gripping plot that includes drug smuggling and murder. A sense of levity is brought to the telling and this contributes to the book being enjoyable and gripping. The spiritual aspects of the story deviate from conventional trends in religion and this spirituality is sufficiently flexible to accommodate a variety of personal religious beliefs. Central to this spirituality is a very obvious need experienced by the author: a need to acknowledge the existence of a greater power. The author submits herself to his hand in her life and experiences a great surge of gratitude. The plot is a frenetic roller coaster that culminates in a violent twist in the tale. The author will overcome results in her main character being portrayed as a super woman capable of surmounting all challenges and obstacles. This journey into the shadows is not for the fainthearted.

**Shadow Working in Project Management** Joana Bértholo, 2017-07-06. Shadow Working in Project Management aims at contributing to our knowledge of all things unconscious and irrational in our behaviour. It takes the form of an empirical research and therefore addresses mostly the tools and techniques available to get in touch with Shadow aspects of self and collective to recognize how it manifests, how it can lead to conflict and ways to address it. From that perspective it advances on to question the underlying beliefs of current management practices. It explores as well the inherent need for control in projects being those of a professional nature or other ventures. It challenges the strength of the concept of the rational man and its protagonism. Joana Bértholo's work explores the role and nature of the Shadow in the context of projects and their management with an emphasis on techniques to address it. Despite being directed to managers and dedicated to the analyses of the managerial discourse, the tools and processes it proposes have universal relevance based on the fact that the Shadow is everywhere within everyone from the individual to the global scale.
