Shadowing Mengele Brian Daldorph, 1993 *Small Press Review* , 1994 **Veins of Gold** Eric Ratcliffe, Wolfgang Görtschacher, 1997 *Left History* , 1994 **Index of American Periodical Verse** , 1993 *The Jewish Holocaust* Marty Bloomberg, Buckley Barry Barrett, 1995-01-01 This expanded edition of the guide to major books in English on the Holocaust is organized into ten subject areas reference materials European antisemitism background materials the Holocaust years Jewish resistance **The Trajectory of Holocaust Memory** Stephen D. Smith, 2022-12-30 The Trajectory of Holocaust Memory The Crisis of Testimony in Theory and Practice re considers survivor testimony moving from a subject object reading of the past to a subject subject encounter in the present It explores how testimony evolves in relationship to the life of eyewitnesses across time This book breaks new ground based on three principles The first draws on Martin Buber s I Thou concept transforming the object of history into an encounter between subjects The second employs the Jungian concept of identity whereby the individual internal identity and the persona external identity reframe testimony as an extension of the individual They are a living subject rather than merely a persona or narrative The third principle draws on Daniel Kahneman s concept of the experiencing self which relives events as they occurred and the remembering self which reflects on their meaning in sum Taken together these principles comprise a new literacy of testimony that enables the surviving victim and the listener to enter a relationship of trust Designed for readers of Holocaust history and literature this book defines the modalities of memory witness and testimony It shows how encountering the individual who lived through the past changes how testimony is understood and therefore what it can come to mean *Not One of Them in Place* Norman Finkelstein, 2012-02-01 Not One of Them in Place is the first book to examine the ways in which Jewish belief thought and culture have been shaped and articulated in modern American poetry Based on the idea that recent American poetry has gravitated between two traditions romantic and symbolist on the one hand modernist and objectivist on the other Norman Finkelstein provides a theoretical framework for reading the Jewish American canon as well as close readings of well known and less established poets including Allen Ginsberg Charles Reznikoff Louis Zukofsky Harvey Shapiro Armand Schwerner Hugh Seidman and Michael Heller Not One of Them in Place presents this poetry in a clear and nuanced style paying equal attention to its historical and its aesthetic dimensions **Reference Guide to Holocaust Literature** Thomas Riggs, 2002 Covering the entire spectrum of the literature of the Holocaust era from the beginnings of Nazism through the concentration camp experience survivor syndrome and second generation response this detailed survey includes entries on more than 200 authors and 300 works Author entries include detailed biographical information as well as expert analytical interpretation Work entries discuss each work in detail and include a critical essay written by an expert in the field Value added features include chronologies further reading lists and nationality concentration camp and title indexes *Shoah* , 1980 **Jewish Literatures in Spanish and Portuguese** Ruth Fine, Susanne Zepp, 2022-10-24 This volume offers a thorough introduction to

Jewish world literatures in Spanish and Portuguese which not only addresses the coexistence of cultures but also the functions of a literary and linguistic space of negotiation in this context From the Middle Ages to present day the compendium explores the main Jewish chapters within Spanish and Portuguese language world literature whether from Europe Latin America or other parts of the world No comprehensive survey of this area has been undertaken so far Yet only a broad focus of this kind can show how diasporic Jewish literatures have been and are while closely tied to their own traditions deeply intertwined with local and global literary developments and how the aesthetic praxis they introduced played a decisive formative role in the history of literature With this epistemic claim the volume aims at steering clear of isolationist approaches to Jewish literatures
