Second period: The Middle Age Joseph Henry Allen,1884 Quill & Quire ,1996 **The Sword and Womankind** Edouard de Beaumont,1929 **The Age of the Crusades** James Meeker Ludlow, The student of human nature also will find here his most subtle and perplexing but at the same time his most suggestive subjects Never before or since was there such exalted faith combined with such grotesque superstition such splendid self sacrifice mingled with cruel and unrestrained selfishness such holy purpose with its wings entangled torn and besmeared in vicious environments To the historical scholar this period is unsurpassed in importance by any if we except the days of the birth of Christianity The age of the crusades covers the eleventh and twelfth centuries For two hundred years to use the vigorous language of the Greek princess Anna Comnena who witnessed the first crusade Europe was loosened from its foundations and hurled against Asia As an Alpine glacier presses down into the valley only to melt away at the summer line yet with renewed snows repeals the fatal experiment from year to year so seven times Western Christendom replenished its mighty armaments to see them destroyed at the border land of Oriental conquest To define the causes of these vast movements is a task which both tempts and tantalizes the historian It is surely unlearned to ascribe even the first crusade to the sole influence of any man though he were an Urban II and wielded the temporal and spiritual authority of the Papacy in its most puissant days It is puerile to say as Michaud does speaking of Peter the Hermit The glory of delivering Jerusalem belongs to a single pilgrim possessed of no other power than the influence of his character and genius It is equally uncritical if not blasphemous to attribute these most unfortunate and ill timed ventures to the Almighty as the same writer does in these words No power on earth could have produced such a great revolution It only belonged to Him whose will gives birth to and disperses tempests to throw all at once into human hearts that enthusiasm which silenced all other passions and drew on the multitude as if by an invisible power To even approximate an understanding of this subject one must first become familiar with the great racial movements which culminated in that age must be able to estimate the tendencies of society at a time when it knew not the forces which were struggling within itself must penetrate the policies of statesmen and ecclesiastics who veiled their ambition under the self delusion that they were serving God or their fellow men and besides all this he must gauge the passions and habits of common people their ignorance and superstition if not the true heavenly ardor which led them to offer themselves as fuel for the most stupendous human sacrifice the world has known Were one thus equipped with information one's philosophical judgment might still be baffled with the inquiry What was the chief cause of the crusades An observation of Dean Milman is especially applicable to this subject When all the motives which stir the human mind and heart the most impulsive passion and the profoundest policy conspire together it is impossible to discover which is the dominant influence in guiding to a certain course of action The mighty tide of events we are to consider was not unlike a vast river which sweeps through many lands and has many tributary streams some of whose sources are hidden in the depth of the unexplored wilderness **Christian History in Its Three Great Periods** Joseph Henry Allen,1883 Discovering Dune Dominic J. Nardi,N. Trevor Brierly,2022-08-18 Frank

Herbert's Dune is one of the most well known science fiction novels of all time and it is often revered alongside time honored classics like The Lord of the Rings. Unlike Tolkien's work the Dune series has received remarkably little academic attention. This collection includes fourteen new essays from various academic disciplines including philosophy, political science, disability studies, Islamic theology, environmental studies, and Byzantine history that examine all six of Herbert's Dune books. As a compendium it asserts that a multidisciplinary approach to the texts can lead to fresh discoveries. Also included in this collection are an introduction by Tim O'Reilly who authored one of the first critical appraisals of Herbert's writings in 1981 and a comprehensive bibliography of essential primary and secondary sources.
